ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced into this vicinity, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

LINDELL HOTEL, ST. LOUIS.

A few weeks since we received a St. Louis paper noting a change in the proprietorship of this mammoth Hotel, in future to be managed by "Hatch, Weaver & Co." Of the senior partner of the firm the St. Louis Republican says:—

"Samuel T. Hatch may justly be described as 'to the manor born,' his entire business life having been given to the vocation he is still pursuing. It commenced in 1840, at Portsmouth, N. H., in the Rockingham House, and lasted for eight years as clerk, being then changed for Stewart at the Revere House in Boston, a hotel which was a nonpareil among American hotels at that day. In 1851 he assumed the stewardship of the Planters' in this city, and retained it for twelve years, until he became proprietor (Hatch & Felt) for an additional year, terminating which he effected a transfer, both of person and interest, to the Lindell."

The Lindell is occupied at a rental of $20,000—and was furnished in fine style at an expense of $100,000. It is seven stories in height and covers about 10,000 feet of land. Accommodations are afforded for 500 boarders. Visitors do not have the labor of travelling up stairs. If they wish to ascend to the first, or the seventh story, they have only to take a seat on a sofa on an elevator, and a steam engine is brought into operation, the elevator rises as high as desirable, and the whole troublesome operation of ascending several flights of stairs is dispensed with. Among the apartments in the house is a large bakery, in which a hundred barrels of flour have sometimes been baked for the hotel in a single day. This is only a sample of the extent of the Lindell Hotel. That it will be not only an ornament to St. Louis, but also a success to the managers, the name of the senior partner is a full guarantee.

GRONDALLA: a Romance in Verse, by Idamore. Published by Gould & Lincoln, Boston, pp. 310.

The late PARK BENJAMIN, whose literary taste and ability as a critic are so well known, after perusing GRONDALLA in manuscript, used the following expressions of commendation in his correspondence with the author: "I like it amazingly. It ought to be printed. I esteem it a great pity that such a poem should not see the light. The light always reflects well from diamonds. I advise you to print it. I prognosticate its success. I think it as interesting in narrative as Tennyson's late poems, Enoch Arden, and others, which I have just read."

After reading the poem, we are ready to coincide with the opinion of Mr. Benjamin. The plot is well conceived, and carried out, keeping up an unflagging interest until the last page is reached. The illustrations of character are drawn with closeness, and the rewards of virtue and vice are justly meeted out. We feel a little pride in saying that this attractive work is by one who is classed with the "Poets of Portsmouth." Though many years since the writer left the most beautiful mansion in North Portsmouth reared by her father, for the Green Mountain state, yet she is still claimed by her place of nativity, and we trust this new poem will not only bring her to the remembrance of her old friends, but into the acquaintance of the generation which has since come upon the stage.

THE HAYMARKET SQUARE FURNITURE MART, BOSTON.—Messrs. Beal & Hooper's advertisement, in another column, tells in very brief words, what might occupy a column to describe. By recent additions to their already extensive rooms, they have now probably the largest and most complete establishment in the country, and so conveniently situated as to be very easy of access to the retail trade. Their furniture, of their own manufacture and very elegant, is sold at the most moderate prices, affording a reason for the large custom that has sought them in the Square, which they are now better able to accommodate than ever before.

Those who have never visited this establishment can have little conception of its extent. While in Boston recently we were enabled, thro' the politeness of Mr. Hooper, to give a hasty inspection of the premises. The impression upon proceeding through the building is such as one might have upon exploring the Great Mammoth Cave of Kentucky. The imposing front opens upon story above story of sales rooms where everything choice, elegant and useful in the furniture line is displayed in tempting profusion. Doors opening on almost every side of the building constituting the original store lead to other buildings quite as large, and all occupied, three or four stories each, by goods and workshops. One room is closely filled with furniture packed and ready for shipment at any moment. To the already capacious labyrinth of rooms they are adding still another series; and without a guide one unaccustomed might easily lose himself amid the intricacies of the establishment, extending as it does over quite a number of acres of flooring. The management of this great warehouse and workshop devolves upon Mr. Hooper, years ago a faithful carrier of the Portsmouth Journal, and whose life since has involved such an experience as falls only to a capable, enterprising young man. After keeping store in Portsmouth for awhile, he went to sea, and was fast rising to position on shipboard, when he was obliged by ill health to leave the ocean. He then chanced to enter this establishment, where he is now proprietor, as an apprentice at beginning at the lowest round of the ladder worked himself into favor, until we may now count him as one of the most prosperous of the sons of Portsmouth abroad. We take pleasure in commending his example of perseverance and industry to the young "Sons" at home. "Every man is the architect of his own fortune."

When the shipload of unfortunate passengers of the "Gratitude" arrived in Boston a fortnight since, Mr. Hooper was one of the most active in attending to their wants. The room provided for them was adjoining Beal & Hooper's establishment.

ANTI-SLAVERY SOCIETY.—The 35th anniversary meeting was held in Boston last week. It has been noticed that Mr. Garrison, the founder, had discontinued the "Liberator," as no longer an object, slavery being now at an end by a constitutional amendment. On opening the meeting he came forward with a resolution, and warmly advocated the dissolution of the society as voted by the Board of Managers, and was supported by Mr. Quincy, the President. But Mr. W. Phillips took the floor and opposed the movement. He wanted confidence in the President, &c. Mr. G. replied but Mr. and Mrs. Foster, H. C. Wright and others, supporting Mr. Phillips, were too much for him, and the resolution to dissolve was lost by a strong vote. There was much talk about changing it to "Universal Suffrage Society," but no action. Mr. Quincy declined the Presidency and Rev. John T. Sargeant was chosen. As the meeting adjourned without day, it may never be called together. A lingering may have been thought to be a more respectable death than one so sudden.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rhematic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries, Specifications, Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials here given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the chances for professional services so favorable.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected application for PATENTS, 12 in all, to Mr. R. H. Eddy, of which was decided in his *favor*, by the Commissioner of Patents.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR SECRETE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1846, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

ANOTHER ANECDOTE OF CORWIN.—A bill introduced by Mr. Clay had been defeated in the Senate:

"Mr. Foote of Mississippi rose in intense excitement and exclaimed—'Mr. President, this republic ceases to exist by noon to-morrow.

Mr. Corwin, who opposed the measure, and was greatly rejoiced at its defeat, gravely left his seat, and walking over to Mr. Foote's chair, said—'Mr. Foote, did I understand you to say that our government would expire by noon to-morrow?'

'Yes, sir.'

'Well, now, Foote, I am deeply grieved to hear you make such an announcement. I have several bills before Congress that I am exceedingly interested in. Now, couldn't you, just to gratify me, have this final end adjourned over, say two weeks?'

Foote was extinguished in the laughter that broke out from the Senators sitting near."

SINGING THAT PAYS.—The following choice religious *morceau* was culled from the mass of worldly matter in last week's N. Y. Independent, the same being an answer to a question in regard to the best singing book:

We go to a country church in Brooklyn, where our congregational singing (even with a bad organ) has been so successful that the pews rent for forty thousand dollars a year. The book used is "Plymouth Collection." If any other pays better, we haven't heard of it.

— Somebody says the different sounds travel with different degrees of velocity. A call to dinner will run over a ten-acre lot in a minute and a half, while a summons to work will take from five to ten minutes.

— A young lady in Louisville, while on her way to be married, was run over and killed. A condemned old maid at our elbow savagely comments: "She avoided a more lingering and horrible destiny."

— "If the scythe were supplanted by sheep's teeth," writes Mr. Mechi, "John Bull would no longer have to complain of short supplies and dear meat. The ordinary calculation is that 7 pounds of grain will produce 1 pound of meat, net butcher's weight. As wheat is under 1d per pound, and meat is at 8d to 9d, it will require no conjurer to show that feeding will pay."

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md., etc.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country healthy, fully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is certainly of great value.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and outside conditions for pleasant farming that we know of this side of the Western Prairies.* m1—dawóm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-giving Pills!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed,

FOR BILIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably Cure the Following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, FEBRUARY 6, 1866.

WASHINGTON ITEMS.—On Saturday, the House of Representatives debated the Freedmen's Bureau bill. On Saturday, the Secretary of the Treasury delivered to T. C. Durant, Vice President of the Pacific Railroad (main stem) Government bonds to the amount of six hundred and forty thousand dollars, being the amount due on the first forty-five miles of road completed and in running order west of Omaha. The Commissioners who have inspected the road report that it has been thoroughly built and is well equipped.

Mr. Stanton has written a letter to the President, taking a different view of the donation of the Sea Islands from General Sherman.

Capt. Wm. Tallman of Co. A, 136th United States colored troops, has been tried by court martial at Atlanta, Georgia, and dismissed the service, for kissing a negro woman in the presence officers and enlisted men. So says the official record.

Col. E. D. Goodrich, New York State military agent here, has been superseded by Brevet Lieut. Col. J. E. Lee.

It is understood that yesterday Quartermaster General Meigs paid Madame Bertinati, the wife of the Italian Minister, fifty odd thousand dollars for losses sustained by her before her recent marriage on her estate near Vicksburg, Mississippi. She was then Mrs. Bass, equally famed for wealth and beauty.

Government is feeding thousands of destitute white persons throughout the South, as well as the freedmen who are unable to procure work. As an example of what is being done, I give the offical returns of rations issued to destitute whites in ten counties of Northern Alabama during the month of January, viz: Bacon, 10,170 pounds; hard bread, 46,660 pounds; soap, 1202 pounds; candles, 365 pounds; sugar, 2336 pounds; coffee, 620 pounds; vinegar, 4 barrels; hominy, 1100 pounds; pork, 31,350 pounds; beans, 3760 pounds; salt, 846 pounds.

THE COLUMBIAN MARINE INSURANCE CO.—We learn from the New York papers that the receivers of this Company made an application to Mr. Justice Sutherland of the Supreme Court, on Wednesday, thro' their counsel, Mr. Dudley Field, for instructions as to whether the outstanding policies should be canceled and the premium notes returned, upon payment of such parts thereof as is already earned. It appeared from the report made by the receivers to the court, that the premium notes on hand and falling due at various periods within the year, amount to not less than $3,000,000, of which about $1,956,234 are unearned premiums; while the risks covered by the policies thereupon issued, amount to at least one hundred millions. Long arguments were made by several counsel. The court took the papers and reserved its decision.

NEW HAMPSHIRE ITEMS.

—— The Rochester Courier says the Universalist Church in Dover is to be altered into a large shoe shop. And the Universalist Society will hold their meetings in Morrill's New Block, which he is to build shortly. The Society have been for some time desirous to change their location and dispose of the house.

—— A correspondent of the Boston Commercial writes that an extensive and old fashioned revival of religion has been in progress in Nashua, the past fortnight. The churches interested are the Olive street, Pearl street, and First Congregational, the Chestnut street and Lowell street, Methodist, and First Baptist. Union meetings are held every evening in these churches successively. The houses are densely filled, and great interest is manifested, from fifteen to twenty persons rising at each meeting for prayers.

— The Associated Press' report of the bill regulating the elective franchise in the District of Columbia, reported by Senator Anthony, contained an error, which has prompted several newspaper attacks. The bill does not grant the right of suffrage only to such persons as were entitled to vote in 1865, but to all such persons, and to all others qualified, without any distinction of color.

— Reports are received from Utah that the Mormons contemplate the abandonment of that Territory, and a wholesale emigration to the Sandwich Islands. It is said that Brigham Young has purchased or secured the refusal of two of the Sandwich Islands for future colonization by the Mormons. [Not very probable.]

— Miss Lydia Brown, an aged member of the American Mission, was accidentally burnt to death by her clothes taking fire from a lamp, in Honolulu, on the evening of Nov. 19. She was born in Wilton, N. H., in 1780, and had resided at the Sandwich Islands since 1835.

Correspondence of the Chronicle.

WASHINGTON, Feb. 1.

Mr. Editor—The subject of registering under our flag those vessels, once American, which during the war were placed under foreign ownership, is still attracting a deal of attention. On this question are marshalled the forces of the Eastern commercial interest on one side, eager to enact still more stringent prohibitions than those now existing, which seems hardly possible; and on the other, the western element, opposed to restrictions upon the importation of ships as well as to every protection of manufactures, by way of tariff or otherwise.

Those who escaped the risks of war by putting their vessels under foreign flags, are of course using every exertion to get them back, now that an American registry again confers valuable privileges, in many instances acknowledging with provoking effrontery the falsity of the oath by which the protection of a foreign flag could only be procured, claiming, virtually, the right to abjure their allegiance and renew it again whenever it serves their turn to do so.

To those of your readers who understand the terms I use (which I am sure a good many that legislate for us do not,) it may be interesting to know that the Secretary of the Treasury has expressed himself strongly against any relaxation of the law, and Mr. Eliot, of Massachusetts, has just proposed a bill in further protection of ship builders.

It has been said that by some *hocus pocus* these recreant American vessels had been suffered to return, with their privileges unimpaired. The Secretary of the Treasury declares emphatically that it is *not so*, and I have reason to know that his statement is well founded.

It may have been done by fraud, for those who will falsely swear that they are citizens of a foreign power, will not hesitate to subscribe any oath you can devise. But of this even there is but small chance.

For my own part I am well convinced that the policy of exclusion, so long adhered to, however wise it may have been in the infancy of our commerce, and however well calculated to stimulate a branch of art so essential to our naval supremacy, is at present antiquated; that, so far from advancing our commercial interests, it is a positive incubus. It is worthy of remark that we are nearly alone in the world on this point. Great Britain and even Spain have a more enlightened policy than we. My plan would be to throw open our markets to the competition of the world in this branch as in all others,—for this is the only one in which our artisans enjoy a complete monopoly. Put ships on the same footing as other commodities, permitting everybody to buy and sell, paying a reasonable protective tariff as on other foreign manufactures.

I think our ship builders can compete with any in the world when relieved of the present abnormal rates. But enough of this; I am peculiar in my views of these things, and shall find few of your readers, I presume, to agree with me. Don't understand me as advocating the reception of those de-naturalized ships; rather let us disfranchise the citizens who would swear allegiance to a foreign power, and worst of all to England, to save a small percentage of insurance, and take undue advantage of their more conscientious neighbors.

The present Congress, is however putting the axe to the root of a few evils of long standing and fragrant memory. The thanks of the people will be their due if they persevere. One is the fishing bounty, that premium paid to the amount of $300,000 a year—for what? I frankly confess my ignorance; what interest the government has in codfish, has always been a mystery to me.

Another is the system of drawbacks, which had assumed such proportions and become so complicated that it would puzzle his satanic majesty himself to unravel it.

Another evil, which I fear is not likely to be amended, is the very great facility afforded to speculators under the warehouse system. So far from curtailing it Congress now propose to increase the limit of indulgence from one to *three years*, thus giving the speculators a long rope, and a clear field. The scheme ought to be well ventilated, for in the present state of prices we can bear but very little of that sort of thing.

These matters, from the exclusive attention paid to politics, are apt to be overlooked, but they are questions that affect you and me in reality far more than negro suffrage, or the contests between the radicals and conservatives.

The discussion of the amendment regarding representation, just passed the House of Representatives has been the theme of all tongues. For my own silence on the subject I must plead utter bewilderment, the proposed variations of the amendment numbering nearly twenty, and the different views of the question being limited only by the number of members on the floor of the House.

— A small building in City Avenue, Lowell, used as a stable, was burned on Friday evening, and a young horse perished in the flames.

Local.

HORSE THIEF.—A telegram was received by Marshal Kent from Portland on the 29th day of last month, that a horse, sleigh, harness and robes had been stolen from that city the night previous. An imperfect description of the articles and the supposed thief was furnished Mr. Kent, and the Police force have been on the lookout for the thief and property. Information was received that the sleigh had been swapped away at Wells, Me., for a pung, on Tuesday of last week. From this fact the officers were led to believe that the thief was working this way. On Sunday the horse was found at Jones & Stoddard's stable, and a clue ascertained as to the whereabouts of the person who disposed of him to them—he at that time being secreted in the city. On Sunday night the pung, harness and robes were found at Simes Frink's, at Greenland Parade, they having been sold to him the Thursday previous. The person who stole them was hunted out of his quarters that night by the police, and escaped from the city. Marshal Kent and officer Johnson left on Monday morning at 2 o'clock in *hot* pursuit, notwithstanding the mercury was two below zero, and at half-past 5 caged the individual in Exeter, at the Union Hotel, safely (as he thought) ensconced in bed, having given orders to be called for the 7 o'clock train for Boston. His name is George B. Ray. He has several aliases, viz: James Davis, Henry Morris, Charles Abbott and George Bray. His father was once a resident of this city, and lived on Vaughan street. Ray is aged 18 years and has already served one term in the Augusta Jail. He is said to be a very dangerous person in the community. His trial will take place in Portland, to which place he has been forwarded by Officer A. Wentworth of that city. The thanks of the public are due to our police for ridding our community of such character. Ray was formerly a member of the 15th Maine Regiment.

☞ The ship Portsmouth, owned by Jas. N. Tarlton and others of this city, is placed among the missing, in the Boston record of marine disasters for January. The ship sailed from Navassa, about the middle of October, for Queenstown, since which time no tidings have been heard from her, and she is supposed to have been lost in the gale which prevailed in the vicinity of Cuba and the Banks about the 21st of October. There is a possibility of her crew having been rescued by some outward Chinaman or Pacific trader.

The Portsmouth was commanded by Capt. Robt. Boardman of this city. The chief mate was Horton Card of Newcastle. Among the seamen were Thomas Yeaton (son of Mr. Moses Yeaton) and Charles A. Weeks (only son of Mr. Charles P. Weeks) of this city, and both estimable young men. Capt. Boardman was a very capable young officer,—son of Dr. J. H. Boardman, and brother of Asst. Paymaster Boardman, who recently died on the ship Stonewall at Havana—and these bereaved families have the full sympathy of the community in their affliction. We think the losses of our city in men and money concerned in commerce was never so heavy in any year as during 1865. In fact, it seems to us we have not been called upon to chronicle so many terrible disasters during ten years previous as in this one.

☞ From our New Zealand correspondent we have files of papers to the latter part of November. A new ministry has been installed, the president of which has declared it his policy to leave the Maories alone. The Hau-haus are the native tribe against whom the colonial forces are now warring.

☞ The Eastern Railroad Company held its annual meeting in Boston on Monday. The Report was favorable, the meeting harmonious, and last year's Board of Directors elected, as follows: Geo. M. Browne, Sam'l Hooper, Franklin Haven, Benj. Bates of Boston; Henry L. Williams, of Salem; Micajah Lunt, of Newburyport; Wm. L. Dwight, of Portsmouth.

☞ In New York City on Saturday night, the Bleeker and Fulton Ferry Railroad Company's stables were destroyed by fire. Seventy horses were burned to death. Loss about $50,000.

— The report of the murder of General Ed. Osband by rebels, on his plantation near Vicksburg, is undoubtedly a canard. A letter has been received from his wife dated one day subsequent to the reported occurrence, in which no mention is made of such a disaster.

— Among the good things of this world we are compelled to give the preference (in the soap line) to the J. Monroe Taylor Gold Medal Soap; after having thoroughly tested we do not hesitate to pronounce it the greatest, the finest, and the best of any and all soaps in the market; and we are more than anxious that the ladies should test it, and thereby get something that will prove a true and lasting friend for life. Call on your grocer for it, and have no other. 4 5

— We learn from the Augusta Age that hay sells in Belfast at $12 per ton, dry hard wood $7 per cord, potatoes 50 cents per bushel, oats 60 cents per bushel, and butter 35 cents per pound.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and used by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle, not intended for producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

PHOTOLEUM.
This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the pub lic, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no smoke, odor or when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, and the last one trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

CITY FARM ACCOUNTS.

Messrs. Editors Chronicle:—To satisfy the Tax Payers, (a communication from one being published in your paper to-day,) the Overseers of the Poor herewith furnish you a copy, as near verbatim as can be made, from the minutes from which the original was drawn up by them, and laid before the Mayor and Aldermen last Thursday evening, and which, we are informed by the City Clerk, was referred to a Committee.

Monday, Feb. 5th, 1866.

To the Mayor and Aldermen of the City of Portsmouth:—

Gentlemen: The undersigned, Overseers of the Poor of this city, having seen a statement which His Honor the Mayor laid before your Board on Monday evening last, in which he made a large deficiency in the receipts of hay, raised at the City Farm, under the present Superintendent, without giving any reason why such deficiency may have occurred—the Overseers having previously passed a resolution highly appreciating the services of the Superintendent and his wife in the management of the City Farm and the care of the inmates of the Almshouse, (a copy of which was laid before your Board) for which they have no cause to regret; and in justice to the Superintendent and themselves, they ask to present the following statements:

First, The statements made by His Honor the Mayor are mostly made from estimates made by the Superintendents, which in many cases were estimated altogether too high, as each one endeavored to show as large a product as possible.

Second, The Superintendent the year previous to the present Superintendent's taking office, sold so much of the hay that year that the present incumbent had to buy soon after he came into office (Feb. 20, '61), to sustain the stock until the new hay was cut.

Thirdly, When the city purchased the teams to work on the streets, &c., the horses were kept on the hay raised at the farm under the present Superintendent, for two years or more.

Fourthly, The average stock of cattle on the farm from the year 1857 to 1861 was 16; the average since has been 21, with an addition of two horses during haying time, which has caused a reduction in the receipts of hay, and while it has enhanced them on other items, which we shall endeavor to show.

The receipts of the City Farm, as accounted for in the City Accounts by the Superintendent, from 1857 to 1860 inclusive, are $10,100.37

The receipts for the same, as accounted in the City Accounts by the present Superintendent, from '61 to '64 inclusive, are $11,315.84

Difference, $1,215.47

The increase of receipts, by having a larger stock on hand than formerly, and the decrease in the receipts of hay, are—

For labor performed off the Farm by the present Superintendent, for the years 1861 to 1864, inclusive, $2034.36

Ditto by the Superintendent from '57 to '60, inclusive, 903.04

Difference, 1131.32

Ditto for milk, cream and butter sold by the present Superintendent from '61 to '64, inclusive, 835.38

Ditto, ditto, sold by the Superintendent from '57 to '60, inclusive, 159.52

Difference, 675.86

The amount of sale of pigs by the present Superintendent from '61 to '64, inclusive, is, 771.20

Ditto by the Superintendent from '57 to '60, inclusive, 307.78

Difference, 463.42

The receipts of the Farm for the year ending Dec. 30th, 1865, as accounted for in the City Accounts by the present Superintendent, are $4,445.10; in which are included for hay sold $1,571.12, for labor performed off the Farm $781.12, for milk, cream and butter sold $318.10, and for pigs sold $519.25.

The Overseers are satisfied that the Farm, under its present management, is increasing in value in proportion to the increase of its receipts. It has been usual to purchase cattle in the Spring of the year, in addition to those enumerated above, and keep them to the middle of Summer, when they have been killed for the use of the House, which increases the consumption of hay.

All of which is respectfully submitted.

WILLIAM C. HATCH.
RUFUS K. OXFORD.
JOHN BENNETT.

☞ Of course we do not hold ourselves responsible for the views expressed by correspondents. Take, for instance, our very interesting Washington writer, on the fishing bounties; also the City Farm discussion. Respecting the latter, did not the fluctuating prices of labor and material in some years account for some of the difference?

POLICE COURT, Feb. 5th.—John Mucbmore and "Joe" Bowers, both soldiers at Fort Constitution, were fined $6.86 each, for being drunk and disorderly on Congress street on Saturday evening.

Oren Bolles of the Washington Eating and Drinking Saloon, rear of Brick Market, fined $10 and $6.08 costs, for violation of Sunday ordinance.

☞ All lovers of fun can have enough of mirth to satisfy their inmost desire, at Tony Pastor's entertainment this evening His troupe gave great satisfaction on their appearance here some months since.

☞ Monday was a real northern day—ball-day at the Navy Yard and the harbor fortifications. We heard of one or two cases of frozen fingers.

For the Chronicle.

CITY FARM ACCOUNTS.—*Messrs. Editors:*—

The article of "Tax-Payer," which was published in your edition of Monday, is calculated to mislead those citizens who may not be fully acquainted with the manner in which matters have been managed at the City Farm. Tax-Payer has seen the Mayor's expose "with surprise." Whether or no the surprise manifested is on account of the Mayor's boldness in presuming to perform the duties of his office without fear or favor, the public are left to judge. The Board of Aldermen referred the accounts furnished by the Overseers of the Poor to a proper Committee, to report in due time as to the correctness of the figures.

I am informed by the Chairman of that Committee that the statement that no one has been able to peruse the document since it has been in the hands of the Committee, is untrue; and further, that there is no disposition to suppress the statement of the Overseers. If the figures given by them are correct, why do they not produce an exact copy for publication, from the data from which they furnished the first statement? It looks as if it were a difficult thing for them to work out these figures in order that they should be made to correspond with those sent to the Board of Aldermen. I understand that the account in question does not refute, or tend to refute, the accuracy of the figures presented to the Board of Aldermen by the Mayor, and afterwards published.

Mr. Tax-Payer "wants light, and open dealing," and has it. It is of no use to evade the issue, by introducing matters not at all important in connection with the subject. The figures of the Mayor are correct and incontrovertible. They have been placed before the public fairly and openly, and no attempt is made to dispute them. The people would like to know how to reconcile the fact that while the crops raised under the present Superintendent, amounting to $28,148.37, exceed in value by more than $9000 those raised by the former Superintendent, (which amount to $18,973.44) the receipts, ($11,315.84) from the present Superintendent only exceed the receipts ($10,750.66) of the former Superintendent by a few hundred dollars. The figures of the Mayor show the expenses under the present Superintendent to be $17,772 85, while under the former Superintendent the expenses for the same number of years were $8,669.72. These are plain facts, and cannot be explained away. What the motives may be, which cause this bolstering-up process on the part of a few individuals who seem inclined to play the game of "bluff," I cannot say; but those members of the City Council who are not directly interested pecuniarily in the result, will consider it their *duty* to investigate fully the statements made by the Mayor, and thus properly settle the vexed question.

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

A CONTRIBUTION TO THE MATERIA MEDICA.—A native East Indian physician has recently described a new drug, which promises to be of some value in the treatment of bronchial affections. The plant from which it is obtained is called by the Hindoos "bakus," and is a common hedge shrub in Bengal and the upper provinces. The writer prepares an extract of the leaves, and administers it with great advantage in all cases of catarrh. When taken internally it gives rise to a sensation of warmth in the stomach, and in some cases increases the appetite, promotes expectoration when this is scanty, and diminishes it when excessive. It is considered to be an expectorant and anti-spasmodic medicine, and to have a specific action on the surface of the windpipe. *N. Y. Post.*

☞ The Washington Chronicle records the following novel case just decided by the Secretary of the Treasury: "It appears that a gentleman in Liverpool, England, shipped a lot of swine to New York. During the voyage, a sow had a litter of pigs, which upon their arrival at New York could not be landed, as they were not included in the original manifest. The collector of customs immediately telegraphed the Secretary, asking whether the stock is liable to seizure, whereupon the following laconic decision was the result: *"Land the pigs."*

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after lying under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabalia, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A,
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN AMENDMENTS, 12 of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Chronicle.

☞ Gen. Sprague, Superintendent of Freedmen in Arkansas and Missouri, reports to Gen. Howard that the freedmen, wherever protected so as to enable them to dispose of their labor and collect their wages, are exhibiting remarkable aptitude to support themselves and their families. He advises that government lease and sell lands to all negroes who may prove themselves worthy. The experiment in this direction thus far tried have been attended with the best results. There is great avidity on the part of black children to learn, and their parents are anxious to support their own schools.

☞ The following ex-rebel commanders are all residents of New Orleans and engaged in business in that city:

Lieut. Generals Hood, Longstreet and Richard Taylor, Major Generals D. H. Maury, Loring, Gardner and Buckner, and Brigadier Generals Humphrey Marshall, Daniel W. Adams, Harry T. Hays, and Gen. Beauregard.

Some idea may be formed of the business now transacted in this city, when we assure our readers that the collections of internal revenue in the Customhouse building, during Thursday and Friday of this week, amounted to no less a sum than $91,054.07. *New Orleans Times, Jan. 21.*

— The apprentices on board the frigate Sabine, at New London, are taken to the skating ponds for a few hours' sport, in classes of about fifty, under care of an ensign. Their behaviour on the pond is said to be a pattern for all boys.

— The Gloucester Telegraph says that thirty-five or forty vessels sailed from that port for Georges on Thursday afternoon, and there are some twenty or more ready to sail, and a large number getting in readiness. An unusually large number of vessels will engage in this business the present season.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for the growth of Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented. For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, on an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawGm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with *the greatest success.* Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the *waning* energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

WEDNESDAY, FEBRUARY 7, 1866.

EASTERN RAILROAD COMPANY.—The annual meeting of the stockholders of the Eastern Railroad Company was held in the Directors' room of the station on Causeway street, Boston, at 10 o'clock Monday, the President, George M. Browne, in the chair. The annual report of the Directors was presented in print, and on motion of Mr. Williams of Boston accepted, adopted and ordered to be placed on file.

The financial statements contained in the report have already been published. During the year the company have added greatly to the equipment of the road. They have purchased 28 new freight cars; have built in their own shops 2 first-class passenger, 27 freight and 6 rail cars; have rebuilt 4 passenger and 28 freight cars, and have re-painted nearly all their cars and many station houses and buildings along the line of the road. They have purchased one new engine, built 1, rebuilt 3, made complete repairs upon 12, and repaired 12 others to a greater or less extent. Four new engines in addition were contracted for, two of which have been completed and delivered since the close of the financial year. There have been laid down during the year 894 tons of new iron and about 572 tons of welded rails, for which 23,491 sleepers have been used. The filling of the High Bridge on the Lawrence Branch (late Essex Railroad) has been completed, and the Beverly Bridge has been filled with solid embankment and made wide enough for a double track to the length of 470 feet. Within the year the Company have built a new boiler shop at East Boston, about 83 by 60 feet; a depot master's office and a car shed, 530 feet in length, at the Boston station; a new wharf, about 225 feet in length, by 26 in width, near Prison Point, with a new coal shed 200 feet long thereon; a new turn-table at Prison Point, and also one at the Danvers Station on the Lawrence Branch. Additions have been made to the freight houses at Lawrence and Ipswich, doubling their capacity, and the coal and wood sheds at Salem have been rebuilt. Additions have also been made to the passenger station and freight house at Gloucester, and new tank, waterworks and well put in. Under the authority of the Act of the Legislature, accepted by the stockholders at their last annual meeting, the Company has commenced the work of straightening the road, and building a new bridge across the Merrimac river at Newburyport. A charter has been obtained in New Hampshire, and a corporation organized under the name of the Portsmouth, Great Falls and Conway Railroad, with authority to purchase the Great Falls and Conway Railroad, and also the Great Falls and South Berwick Branch Railroad, and enabling the Company to convert the bonds of the two roads held by them into stock of the new corporation. The President stated that that the earnings of the Company for the two months which had elapsed since the expiration of the last financial year amounted to about $210,000, being some $45,000 more than the earnings of the corresponding months of the previous year.

THE NEW ARMY BILL.—Gens. Grant, Sherman, Thomas and Meade have concluded their consideration of the army bill and it will go to the Senate. They recommend an amendment of the militia bill, which provides that the commander-in-chief of the army shall have the power to order an inspection of the militia, thus bringing it more immediately under the control of the United States army. The only material recommendation to the West Point bill is that the superintendent be taken from the army at large, instead of confining the selection as heretofore to the Engineer Corps. In the bill to re organize the army they recommend in addition to the Major and Brigadier Generals now provided for, there be allowed five Major Generals and ten Brigadier Generals and an increased number of Adjutant Generals, all to be taken from the volunteer army, and these several offices to expire by the vacation of the same by the death, resignation or otherwise of the incumbent. They concur with Senator Wilson as to the number of men that shall compose the army, and except in one instance agree as to the proportion to be taken from the several arms of the service.

☞ At a meeting of the stockholders of the Columbian Marine Insurance Company in New York on Monday, it was stated that 800 policies had been cancelled since Saturday, the notes of policy holders being returned on their payment of a pro rata premium for the time the risks had run. A resolution was adopted calling on the receivers to resign, and a committee was appointed to investigate the affairs of the Company.

☞ In the steamboat Carter, lost at Vicksburg on Friday, there were 200 passengers, 125 of were lost at the lowest estimation.

Correspondence of the Chronicle.

BOSTON, Feb. 1.

Mr. Editor:—Knowing the interest that yourself and many of your readers take in the public amusements of the day, I have concluded to jot down a very few of my observations at the "Hub." Certainly the good people of Boston need not grow lean if laughing will make them grow fat; for there are more amusements than ever before, and all of them in full blast. At the Boston Theatre, Grover's Opera Troupe are performing their abominable Italian jargon, to the great delight of the mush-room aristocracy—a "right smart" percentage of which can't tell a *solo* from a *chorus* They go to the "O pe-raw" merely because it is fashionable—and because, as Artemas Ward says, the performers "sing in a furrin tung." On Monday evening the Troupe brought out "*L'Africaine*," which some unfashionable matter-of-fact people insist is nothing but "The Nigger" in plain English. Of course all the fashionables attend, and likewise the cheap exquisites who dine on pig's liver, in order to save "tin" enough to procure a ticket.

Morris Brothers have a full house every evening. Indeed they are one of the regular institutions of the city. Their performances are all A1, and their Orchestra one of the very best in the country. The casual visitor misses one from their number—poor Johnny Pell, who was laid last week under the snows of Greenwood Cemetery. Eph. Horn takes his place. Lon Morris "manages" his new Theatre—the "Continental"—and his seat in the Opera House is filled by George Coes. It is rumored that Morris Brothers came pretty near "going through on the "Continental," but I cannot vouch for the accuracy of the report. But it is evident from a single glance at the building that it must have cost a big pile of money.

Cotton, Murphy & Smith's Minstrels (who are performing at Buckley's Hall), the Museum and Howard Atheneum are all nightly filled with good audiences, who flock thither to "drive dull care away." But of the places of amusement in the city for a crowd, the *Theatre Comique* beats them all. The house is filled to overflowing, and hundreds go away every night unable to procure seats. The audience is composed mainly of the "bloods"—rich men's sons fast young men of the city—although the numerous rubicund noses and sprinkling of gray hairs are supposed to lend a kind of mercantile sanction to the affair. It must be confessed that there must be something peculiarly attractive in the performances to draw such crowded houses so many days and weeks in succession. The Ravels—the most accomplished pantomimists in the world—never drew such crowds in Boston as have the indifferent performers at the *Theatre Comique*. All the leading papers puff the concern—even the steady old Advertiser following in the wake of the Herald. One of the Boston Saturday papers says: "There is nothing in the performances here which could offend the most fastidious taste, and everything which could gratify and please;" which is about as near to a "whopper" as is safe to go, for any one who may have a last lingering regard for truth. The Journal, Transcript and Advertiser may puff the performances as much as they please; but if the *ballet* girls didn't wear *rather* low-necked dresses, and expose their "oh-no-we-never-mention-ems" pretty promiscously, we'll bet the audiences at the *Theatre Comique* wouldn't be so large. That's the *long* and *short* of the matter. Add to all this theatrical array the thousand and one other regular and transient exhibitions, private parties, balls, &c., and you may well imagine that Boston is having a "gay and festive" season.

Dropping in upon our old friends Job Jenness & Son, at the "Webster House," we found them busy as ever, although business is dull at *all* the hotels just now. The "Webster" has improved much under its present management, and having been entirely refitted and refurnished, is now one of the neatest and best kept houses in the city. Yours Truly, BUGGINS.

☞ The Richmond Enquirer states that eight citizens of Madison County have been arrested and brought to that city to appear before a military commission to answer the charge of alleged mistreatment of freedmen. It is said that several others, implicated in the same difficulty, will be brought down in a day or two.

A few days since a difficulty occurred in Halifax county, Va., between the officers of the Freedmen's Bureau on duty in that county, and some of the citizens. Col. Brown, Commissioner of the Bureau, had three of the parties arrested and put under bonds in the sum of two thousand dollars each, for their appearance before a military commission, by whom the matter will be fully investigated.

— Tolbert Brown, who is reported to belong in Connecticut, was detained at Georgia, Vt., by revenue officers last week. His baggage was found to contain several hundred dollars' worth of opium and cigars, which had not paid duty.

IN THE U. S. SENATE, Monday Feb 5, Mr. Fessenden called up the House joint resolution from the Committee on Reconstruction, basing representation upon the population, and excluding from representation all persons denied the right of suffrage on account of color.

Mr. Sumner took the floor in the opposition to the resolution, and offered a substitute declaring that all persons shall be equal before the law in civil and political rights. His substitute is a Joint Resolution, and not a proposed amendment of Constitution. Mr. Sumner supported his Resolution with a speech of great length and ability.

In the House Mr. Blaine introduced a bill, which was referred to the Committee on Reconstruction, providing for taking the census of the United States prior to the first of October.

Mr. Ross offered a resolution for an amendment to the rules, so that one day of the week be devoted exclusively to public business and to be known as "White Man's Day." Tabled.

Mr. Driggs offered a resolution, which was adopted, instructing the Committee on Reconstruction to consider the subject of removing the National Capitol in order that its site may be accommodated to the population, and greater security be rendered to the Legislature by removing it from possible attack of foreign enemies and domestic menace.

Mr. Elliot got up the Freedmen's Bureau bill, and made an able speech showing the necessity for enlarging the powers of the Bureau. He was well seconded by Mr. Grinnell of Iowa, who poured in such a broadside of fact that the Kentucky opponents of the bill were staggered. During the debate Gov. Raymond manifested a decided determination not to be classed among the opponents of the bill, or among those who advocate dispossessing the freedmen on the Sea Islands to restore these lands to their rebel owners.

Mr. R. stated that the letter from Gen. Sherman to the President had been given to him for publication in his newspaper, relative to the negroes on the Sea Islands, and was furnished by a gentleman from South Carolina. It was not given for presentation to Congress, as inferred from remarks of Mr. Chandler, a few days since. Mr. R. then spoke in favor of the bill under consideration.

RECIPROCITY WITH CANADA. — A Washington dispatch says the Ways and Means Committee held a special meeting Monday afternoon for the consideration of the reciprocity treaty. There is no prospect that they will recommend a new treaty, or the extension of the present one, but it is probable the reciprocal legislation will be approved on the following basis:

The tax on distilled spirits in Canada and this country to be similar, so as to prevent smuggling; navigation to be open, the locks of the Welland canal being enlarged, and the tolls the same to all parties; importations from Canada to be taxed here so that they shall possess no advantages over our own products, and free ports in Canada to be abolished.

GOLD, Tuesday, 139 1-2.

— Saleratus, like port wine, can be made for almost any price, which is done by using cheap and deleterious substances. Herrick Allen's Gold Medal Saleratus is perfectly pure and unadulterated, and one paper will convince any intelligent lady that there is nothing equal to it. It will produce one-eighth more bread than any other; is much better than soda to use with cream tartar. Grocers and Druggists sell it. 45

MARRIAGE OF WIDOWS IN INDIA.—It is quite possible says the Boston Advertiser, that some of our readers may not be aware that the practice of burning widows on the funeral pile with their husbands—"a custom more honored in the breach than in the observance"—is no longer kept up in India. This is a fact, however, and it appears that time has made still further inroads on the prejudices of the natives. The first marriage of a native widow in the Presidency of Bombay, occurred on the 22d of November, at Bandora, near the city, and is said to have been celebrated in presence of a goodly assembly of native gentlemen. The families of both bride and bridegroom are stated to be influential in the district where they live. Theoretically, liberal opinions have for some time been gaining ground among those natives who have had the benefits of an English education, but a fear of losing social position and shocking the prejudices of their less educated countrymen has hitherto prevented any such open breach of established custom as that recorded above. This marriage has been followed by an advertisement in the local native journal, which is curious, but is believed to be *bona fide* by the Bombay Gazette, from which these facts come. The advertisement is headed Wanted: Persons to marry Hindoo Brahmin "widows," and was evidently written by a person who does not cherish the antipathies of the elder Mr. Weller. It is as follows:

"Gentlemen who have a heartfelt desire to see the practice of remarrying Hindoo Brahmin widows according to the tenets of Hindoo religion introduced are, requested to communicate to the office of the Indo Prakash the names of persons who are willing to contract such marriages. None but the names of Chitpawun Brahmins of other than Shandilya and Kashyup Gotras (tribe) need at present be communicated, because the widows, whose ages average between 8 and 9 years, belong to the Chitpawun race. Persons desirous to contract such marriages ought to be between the age of 16 and 20 years, and of good education. If not already well educated, they should at least be prosecuting their studies. Persons of independent means will be preferred, but others with education and good character will not be rejected. These marriages will be solemnized with due form and publicity.—A FRIEND OF WIDOW MARRIAGE.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this remedy, free, in a sealed envelope, to any one who needs it, *Free of Charge.*

Please inclose a post paid envelope, addressed to yourself. Address,

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGOON'S BILIOUS, DYSPEPTIC and DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGOON'S SALVE is infallible. Sold by J. MAGOON, 49 Fulton street, New York, and all Druggists, at 25 cents per box. decdeod4wly

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle, without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of DR. L. LYON, without which none are genuine. **Price $1.50**

Prepared by Dr. JOHN L. LYON, 195 Chapo Street, New Haven, Conn., who can be consulted, either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show most plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Light! Light! Light!
PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *economical, safe* and *reliable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and learning, all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that the trimming will suffice for a week or more. Photoleum produces a flame that does not *dissipate*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WIRMAN & Co.'s, 87 Water Street, Boston.

☞ For sale in Portsmouth by BAILEY & GLINES, 72 State St., at wholesale and retail.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, where bleeding is not permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

THIS VITAL FLUID FREE,

to aid a weak "locality" to recover its proper and necessary "status" or health.

BRANDRETH'S PILLS have affinity for the SUBJECT MATTER OF DISEASE, and cause its

Local.

☞ We are informed that Mr. John E. Townsend, while passing down Pleasant street on Monday evening, a little after 10 o'clock, was assaulted by a man armed with a club, who sprang out from Richmond street. Starting back from the assaulter, Mr. T. slipped, and as he arose he drew his revolver and fired at the highwayman, who ran up Richmond street. Mr. T. fired at him as he ran, but we are sorry that he proved so poor a shot, as the fellow escaped. The footpad, described as low in stature, was seen by a number of persons as he ran away. Mr. T had a large sum of money in his pocket, which was the probable cause for the assault.

☞ The lot of land on State street, from which the stable was lately burned, is to be sold at auction next Saturday, if not sold privately before. Another stable is not wanted there, but the land should be used to enlarge the Christian Chapel, and for a parsonage house if the society should build one,—or for a dwelling. The owners of good houses near by, would promote their own safety, and increase the value of their other property, by purchasing and making a proper use of this.

☞ A Portsmouth correspondent of the Newburyport Herald writes as follows:

Several new stores have recently been opened in our city, one of which, that of Mr. R. K. Oxford, deserves especial mention, as being in all respects a model grocery store. It is sixteen feet high on the first floor, sixty feet deep, and stocked with a complete assortment of first-class goods. Mr. Oxford is emphatically a "live" business man and merits decided prosperity.

We add, that Mr. O. having purchased the adjoining lot, will cause the old building to disappear in due time, and a store to occupy the place.

ROBERT KING, Sexton of St. John's Church in this city, has had $100 awarded to him by the County Commissioners, for his agency in identifying the pickpockets who operated at a wedding in that church last summer, and thus causing their arrest, out of which the County realized about $6000 in forfeited bail. A reward well deserved by a worthy man.

☞ The Hokitika (West Coast, New Zealand,) Times contains full accounts of the loss of steam-tug Sampson the last of September, while towing into that harbor. Another steamer crossing her bow while in a narrow channel, she was obliged to swerve so far from her course as to strand upon a sand-spit, and proved a total loss. Mr. Israel P. Miller of this city was first officer of the Sampson, which was a boat valued at about $50,000.

☞ Maj. William H. Hackett will sell at auction, at the residence of Rev. Sullivan Holman, No. 36 1 2 Daniel street, at 10 o'clock this forenoon, a lot of valuable furniture, Magee and Model Cook stoves, &c., with an elegant Canterbury and other articles.

☞ In the United States Senate, on Monday, several thousand brevet nomination of volunteers were confirmed. Among them was William J. Ladd of this city, 13th N. H. regiment, to be Captain by brevet.

☞ The walking match for $1000 between John Seaver of this city and James Lambert of Boston, is to come off in Congress Hall, Portland, probably on Tuesday of next week.

☞ We learn that a destructive fire took place at New Market on Tuesday, destroying 25 or 30 buildings.

FUN AHEAD.—Josh Billings is coming.

☞ We have before us the advance sheets of a new volume touching the late rebellion, which promises to be one of the most fascinating books of the year. It is from the pen of Mr. J. T. Trowbridge, a well known magazinist and novelist, whose "Cudjo's Cave" was so popular during the rebellion, and is entitled, "*The South—a tour of its battlefields and ruined cities,*" etc. The field is new in one sense, that is, Mr. Trowbridge is the first author who has been over the battlefields since the war and taken time to study them carefully, and to gather up anecdotes and interesting particulars concerning them. The author had every facility offered him for observation. His acquaintance, and his position as an author, gave him letters from leading official persons, and these opened the way for him everywhere, and procured him a kind reception from the officers of our army stationed throughout the South. The volume, so far as it has been put in type, is very interesting. Without any sensational writing, the author depicts the condition of the South in vivid colors, and leaves the reader in a position to judge for himself of the real temper of the people and the prospects of reconstruction. The volume is being published by Mr. L. Stebbins of Hartford. It is to be an octavo of about 600 pages, on fine paper, in clear type, with good maps and a number of excellent illustrations from original drawings by the artist White, of New York. The book is to be sold by subscription only, for $3.50.

FROM TEXAS AND MEXICO, *via New Orleans.*—On the 25th of January the military force in the Department of Texas consisted of nineteen regiments infantry, five regiments cavalry, one company pontooniers, and three batteries artillery. The Department of Louisiana consisted of ten regiments infantry, three cavalry, and one artillery. The Department of Florida consisted of five regiments infantry and six batteries of the 5th Regular Artillery.

The True Delta's Brazos letter, dated Jan. 31st, says—"To-day Gens. Weitzel, Smith and Clarke will be mustered out.—Five regiments will be mustered out in thirty days. Peace prevails along the Rio Grande."

The Matamoras Ranchero says one Col. Adolpho Garcia was arrested on the Texas shore for stealing $40,000 worth of goods in Bagdad. He gave bail in $5000.

— The Mobile Advertiser reports the trial in the police court of a "pompous darkey" who was fined $50 for "ferociously cursing a white gentleman." The question naturally arises, how much would the "white gentleman" have been fined had he done the "ferocious cursing?"

— Recently, Mrs. Fanny Hebard, of Scotland, Conn., aged and paralytic, while lying in bed was covered with a quilt which her husband had just warmed at the fire. After he left the room she found the covering on fire, and being unable to help herself, was so badly burned as to cause her death in two or three days.

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other *Well* Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water to run back down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure **water** at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

TO LITTLE
AGATHA FORTUNATA YEATON.

A baby driving fire in hand,
Instead of playing with a coral,
Gives of our own progressive land
A most instructive moral;
Her chariot, like Titania's ship
And glistening car, with foreign ponies
From India and the Isle of Skye
Here yoked, and keeping step like clonies.

Her eyes with childish rapture gleam;
Her lips breathe laughter sweet and airy,
And, throned behind her tiny team,
She looks herself a queen of Fairy.
But four short summers hath she known—
This child whom now the crowds are eyeing:
What fests will claim her as their own
In the bright years before her lying.

At ten, her team to ten will start;
At twelve—her whip hath and fancy brightening—
Her father, by some trick of art,
Will have her chariot drawn by lightning!
Or take a fancy to some far star
In some new-fangled mode of flying,
With eagles harnessed to her car,
And the dull world outstrip her lying!

Ah, Fortunata! in the flight
Of Time, whose wing hath no abiding,
May all your years run smooth and bright
As runs the team your hands are guiding!
And in the life-race, may your son—
Gentle and pure, with love rewarded—
In triumph reach the final goal—
Your race well run, Heaven's prize accorded!

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since the first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow reports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done me.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A,

New York, June 29th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials herewith prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as THE SUM OF THE PRIME OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a valuable collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his business practice, obtained and prosecuted applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

DR. KNIGHT'S HAIR DRESSING

A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, inclined to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform some cures that no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Pimples, Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are invited that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is or should be aware that the deficacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Sent free. Confidential disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent free, in a sealed envelope, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hospital, Treatise on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Celebrated Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by corresponding a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

NORTH CAROLINA.—A gentleman from North Carolina reports Major Wickersham, Superintendent of Freedmen for the southern district of the State, (as we learn from the New York Herald) as representing that the negroes have got over the idea that they were to be supported by the Government, and are freely entering into contracts for employment. They have a decided preference for working for Northern men. If the wages are paid promptly the work goes on without trouble. A majority of the Northern men are engaged in speculation, mostly in rosin and turpentine, and their advent has caused renewed energy in the manufacture of those staples, to an extent that the product will be double the amount ever produced before. The actual feeling among all classes is said to be quite as good as could be expected, and is constantly improving. There are now eight schools in the southern portion of the State, embraced in a district of nine counties, which have nearly nine hundred scholars. Out of three thousand freedmen gathered at Wilmington last August who were dependent upon the Government, only about two hundred remain, and these are mostly women and children.

☞ Advices lately received from Brevet Major General Corse, commanding the District of Minnesota, convey the intelligence that a general desire exists among all the Indians, except those engaged in the massacre of 1862, to make peace with the whites. Eleven lodges have surrendered to scouts at one of the stations on James river, and these scouts make the same report. It also appears that many of those engaged in the massacre of 1862 are anxious to come in and surrender themselves, but are afraid they will be ill-treated. Gen. Corse states that he is inclined to believe that treaties with them may be consummated before spring.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad. Near New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Fruit, Grain, Corn, Tobacco, Fruits and Vegetables. This is a great fruit country. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented. For persons who desire and build Winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* m1—dawtm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realise the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, disease that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their immediate magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, FEBRUARY 8, 1866.

IN THE U. S. SENATE, Tuesday, Feb. 6, there was a spicy debate on a resolution offered by Senator Walley of West Virginia, which was adopted, instructing the Committee on the Judiciary to report a bill for the payment of loyal citizens of the lately rebellious States for quartermasters' stores taken from them by officers for the use of the United States armies. Senator Wilson opposed this, while Senator Clark advocated it in a neat and brief speech, in which he advocated just payment to loyal citizens.

The House took up and passed the Freedman's Bureau bill, 136 to 33.

The House passed the bill as amended by the Committee on Freedmen's Affairs, confining its operation to those States in which the privilege of the writ of habeas corpus was suspended on Feb. 1. The vote stood 136 to 33.

Previous thereto, Mr. Smith's amendment that none of the provisions of the act shall apply to Kentucky, was rejected—34 against 131.

Mr. Stevens' substitute was also rejected, 37 against 126. His substitute retained nearly all the provisions of the original bill, but providing for homestead rights to occupants of lands, and confirming the occupants of those who settled under Gen. Sherman's order, in their possession.

Perley says: "The large majorities by which the Freedman's Bureau bill has been passed in the Senate and in the House will insure its enactment, even should the President veto it, and this he will not probably do under such circumstances. The passage of the bill shows the noble determination of Congress to provide for the security and rights of the emancipated race, and to watch over their interests in the transition from slavery to freedom amid the prejudices and resentment of their late masters. There has already been a revival of much old pro-slavery legislation, in which the freedmen are treated as 'vagrants;' but the action of Congress will convince the Southerners that colored people have recognized rights which white men are 'bound to respect.'"

THIEF CATCHING.—On the night of the 23d ult., the shoe manufactory of Farrar Brothers, in Haverhill, Mass., was entered and robbed of goods to the value of about $900. A reward of $250 was offered for the recovery of the goods and the arrest and conviction of the thieves. To Marshal Kent we are indebted for the particulars of their capture.

Detective Moses Sargent of Boston, and Geo. M. Perkins, Deputy Sheriff of Exeter, were immediately put on their track. They got trace of them at Newton, N. H., on Friday night, where they shipped four cases by express that day to New York. The officers telegraphed to the Chief of Police in New York to send an officer to Kinsley Express, take the goods and arrest the parties. Messrs. Sargent and Perkins left for New York, arriving there at 10 o'clock Saturday night. They found that the telegram which left Exeter at 10 o'clock Saturday was not received until 12 o'clock the same day, being 20 minutes too late to nail the thieves at the express office.

On Monday morning they found some trace of them, had learned their real names, and had found they disposed of their stolen goods to the firm of Neeby & Kennedy, Greenwich street, for about one-half their real value. The thieves reported themselves as doing business in Lynn, Mass., and that these goods were the last on hand and they were anxious to dispose of them, as they were to sail for Charleston, S. C., at 3 o'clock that afternoon. On Tuesday morning, finding they had not gone to Charleston, but had returned to Haverhill, the officers sent a dispatch to H., and had the ringleader arrested.

The parties connected with the robbery are Noyes P. Jenness, Wm. Hill and —— Whittier, all of Haverhill, and a man named Griffin, of Newburyport. Jenness confesses the whole. It seems they had laid their plans to do quite a business. They had false keys to two or three stores in Haverhill. After the robbery of Farrar Brothers, they were to set fire the next night to that store, and then enter the stores to which they had false keys and make a *haul*. But the fire of Farrar Brothers was discovered in time, and extinguished, thus foiling the thieves in their design. Jenness and Whittier are in Lawrence jail, Griffin is Newburyport jail, and Hill has given bonds in the sum of $3000.

— The recent great fire in the oil region, it is now said, was caused accidentally, by some joiners building tanks of plank. They had been smoking their pipes, and found more fire than they wished.

— It is believed that the Committee on Elections have agreed to report in favor of Col. Washburne, the contestant for the seat occupied by Mr. Voorhees of Indiana.

— Maine expended $12,000,000 in putting down the rebellion.

NEW HAMPSHIRE ITEMS.

—— The twelfth anniversary of the Amoskeag Veterans will be celebrated at Manchester, N. H., on the 22d inst.

—— The State Convention of the Democratic party have nominated Mr. J. G. Sinclair of Bethlehem, as their candidate for Governor.

—— The Elm Street Baptist Society of Exeter, held a levee at the Town Hall on Thursday evening; receipts $150:—and the Universalist Society of Kingston held a similar levee in their Town Hall on the same evening; receipts $150.

☞ At the State Caucus of N. H., at Concord on Tuesday evening, Ex President Pierce accepted an invitation to address the meeting:

He said the Democratic party had been brave and true to principle and had outlived the storm. He complimented the party highly for its integrity and fidelity to the Union, and also praised the conduct of President Johnson and eulogized his message. He considered the stand the President had taken a patriotic one, and thought it was fortunate for the country that such a man filled the chair of State.

He thought he could see gleams of light ahead through the conduct of the President, and although the Republic was not yet out of danger, it would be weak to despair of her, and the Democracy should buckle on their armor and determinedly fight for the right. His remarks were enthusiastically received.

CHARTER OAK LIFE INSURANCE CO.—This Company is now in its seventeenth year of business. It has a Perpetual Charter, and a Capital and accumulation of $1,500,000. No one can be a Director who is not a Stockholder. There is thus secured to the direction of the Company, besides every other motive for prudent and safe management, the powerful and conservative motive of self-interest.

The Company has paid out, in losses, over $800,000, and has never litigated a claim. It is careful in the selection of risks, its mortality being one of the very lowest of any Company doing business as many years.

On the *Non-Forfeiture Plan*, the only plausible objection against Life Insurance is removed. If the person insured discontinues payments after he has paid his second premium, he will be entitled to a Paid up policy of as many tenth-parts of the original amount insured, as he paid annual premiums.

Parties insuring on the Ten-Payment, non-forfeiting plan, should bear in mind, that in most other Companies, when the payments are not continued through the ten years, the dividends are forfeited in part; that is, the insured receive dividends on only the common life rates, which are about half as great as the rates actually paid.

The Charter Oak is the only Company doing business in New Hampshire that declares and pays a Dividend *annually*. Other Companies do not pay until the fourth or fifth year,—so that a Life policy will cost a person less in the Charter Oak than elsewhere.

Over 3000 policies have been issued the past year, and the same prosperity now attends it that has ever characterised it since its organization.

Applications for insurance from Portsmouth alone, the past four months, amount to $237,000—far more than to all other Companies combined. And we trust that our citizens will generally invest, for they will find it as Dr. Franklin said, long ago, that Life Insurance is the cheapest and safest mode of making provisions for one's family. Messrs. J. S. Harvey & Son, 47 Congress street, are the local agents for this city.

A PROFESSIONAL.—The horse-thief Geo. R. Ray, who was arrested at Exeter on Monday by Marshal Kent—an account of which we published on Tuesday—was taken to Portland, and pleaded guilty of the offence charged. He was placed in a cell in the Station House at that city, and in less than thirty minutes picked the lock of the cell door with a nail which he had secreted about his person, and would have escaped from the Station House had he not been discovered just as he emerged into the hall. He is a young man, but an old offender.

☞ The newest sensation in the religious world is a severe personal attack on Rev. Morgan Dix, rector of Trinity Church, New York, by the Christian Times, (organ of the evangelical party in the Episcopal Church) for publishing a new hymn book, ("The Book of Hours,") in which it is charged that the doctrines of transubstantiation and worship of the Virgin are directly inculcated. The Times thinks there is to be an attempt to carry old Trinity over to Rome, and Bishop Potter is accordingly invoked to exercise his authority in the premises.

GOLD, Wednesday, 139 1-2.

— The waist-buckle (it should be spelled waste-buckle) of a Pacha of Egypt, now being manufactured in Paris, is to cost $800,000.

— The first execution of a criminal in the province of Otago, N. Z., took place Oct. 24, when Wm. Jervey was hanged for murder. The gallows marks the advance of civilization.

☞ The iron manufacturers of Pittsburg and vicinity having agreed upon a reduction of wages, the workmen generally refuse to accede to the reduction. They say they cannot live at the reduced rates. Rents have advanced from fifty to seventy-five per cent., and the prices of provisions remain as high as ever. On the other hand the manufacturers claim that it is a matter of dire necessity with them; that at the old rates they were losing money, and unless they can employ labor at the reduced rates, it will be more profitable for them to keep their mills idle. But three or four mills remain in operation.

SUNDAY SKATING IN NEW YORK.—Burleigh says,—writing on Monday: "Thirty days of fine skating on a stretch is an anomaly in New York. Never was such a Sunday seen as that of yesterday. The day was keen but clear. Central Park was crowded. Men and women in the hight of fashion crowded the pond and the sport was kept up till midnight. It was so with all the ponds, and the glee, drinking and festivity indicated anything but a regard for the Lord's day.

CATTLE DISEASE.—Perley says, a cattle disease has made its appearance in the milk farms north of this city, [Washington] and is creating much alarm.

Our Consul at Rotterdam, in a despatch to the State Department, dated Jan. 10, says the cattle plague is still on the increase in Holland, and had extended to the province of North Brabant.

BUTTER.—The following alarming intelligence will not please butter speculators: Butter is declining in all the Western markets. At Cleveland it is dull at 28 a 33c for the best tub and roll; at Chicago the best dairy brings only 28 a 33c, while fair firkin is 23 a 25c; at Milwaukee the best roll is 22c.

BILLIARDS AND TENPINS.—In Boston, the State Constable is enforcing the provision of the general statutes requiring billiard saloons and bowling alleys to be closed at 10 o'clock in the evening, and on Saturday evenings at 6, and prohibiting the proprietors from allowing minors to frequent these places without the consent of their parents.

TEXAN NEWS.—Cincinnati, Feb 5.—A dispatch dated Austin, Texas, 1st inst. says: "The President of the Texas Secession Convention has just been elected to preside over the Convention just assembled here to reconstruct the State government. A large majority of the delegates to the Convention were original secessionists."

☞ Frank Leslie's Budget of Fun for March is a grand number, and has some capital hits.

— At the Richmond theatre the late Secesh and the Union men occupy seats on opposite sides of the house. There is no desire to mingle socially.

— McCormick, inventor of the reaping machine that bears his name, has given $10,000 for the establishment of a professorship of practical mechanics in Washington College, presided over by Robert E. Lee.

— The boiler in the Mill of the Mechanic Manufacturing Company at Petersburg, Va., exploded Friday, shattering the building, killing four employees and wounding ten.

— A terrific tornado passed over the village of Newbern, Ga., on the 24th ult., levelling houses, fences, trees, &c., sweeping before it in an instant everything in its path, killing four and injuring about a dozen persons.

— A Toronto despatch says the Fenian excitement has somewhat abated since it appears that Sweeney was not in Canada. Precautions, however, have not at all been neglected, and the police and military are on the alert. The excitement and alarm is still wide spread in the towns along the St. Lawrence river.

— The Washington Star learns from the Navy Department that the story sent from New Orleans, to the effect that the Navy Department is now preparing for active service eleven iron-clads at New Orleans, and that orders have been issued requiring vessels bound for the Rio Grande to call at Galveston, in order to convey troops to the Mexican border, is without a particle of foundation.

— General Beal, lately in command of a military district in South Carolina, is organizing a company of capitalists for the purpose of encouraging the immigration to that State of white laborers. The Charleston Courier says that $125,000 have been subscribed in that city for the purpose. A letter has been received from a gentleman of influence in Germany, who declares that he can persuade thousands of the people of that country to emigrate.

— We have so frequently expressed the opinion that the J. Monroe Taylor Gold Medal Soap was the *No Plus Ultra* of all dirt, grease, paint and tar extractors, that it appears unnecessary to occupy space only to reaffirm that opinion. We sincerely hope that no housewife will fail to supply herself with such a valuable article of domestic economy; one washing day will convince all who have not before been fortunate enough to have tried it. Most of the grocers sell it. 46

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

Perry's Moth and Freckle Lotion.

☞ Chlosma, or Mothpatch, (also called Liver-spot,) and lentigo, or freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it clog the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does not *discolor*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and house cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & CO.'S, 37 Water Street, Boston.

TOWN FARM ACCOUNTS ONCE MORE.

Messrs. Editors:—When I called for light and fair dealing in these matters, I had no idea of leading or misleading anybody;—but a desire, having seen *one* side of an account, to see the *other* side also. That desire has been gratified, by the publication of the Board of Overseers, in which their statements and figures explain much of the mystery which was created by the Mayor's arrangement of figures.

My surprise was *not*, as an "Outsider" suggests, that the Mayor was bold enough to oppose the re-appointment of the Superintendent, or publish a statement and figures which were calculated to make him appear grossly dishonest or miserably incompetent:—for I knew that he refused to confirm him when re-appointed by a major vote of the Aldermen; and knew also that when he found a fault anywhere he was not afraid to say so:—but I *was* surprised to find that there had been a bad leak at the Alms House for *eight* years, unnoticed and unaccounted for! that $2000 leaked out in Mr. Moses' four years' superintendency; and that the *same* leak was now so much larger that $8000 had leaked out during Mr. Norton's four years.

I had (and still have) great confidence in Mr. Moses, as an honest man and faithful public servant,—and until I see evidence to the contrary, in Mr. Norton also. And knowing Mayor Morrison to have been long a keeper of the House before he was Mayor, I was greatly surprised that he had not, in his three years, stopped the leak, or at least found it out and reported it. Mr. Morrison was certainly an accurate accountant and a clear-sighted business man. The same may be said as truly of Mayor Simes, under whose administration Mr. Norton served two years. Mr. S. was a successful retired merchant, and a good farmer who had not retired from his farming. He devoted his time and attention (as every one knows,) to the City Affairs, very closely and thoroughly. Could such a criminal or stupid administration at the town farm escape his notice?

Mr. Norton continued to serve through Mayor Dearborn's two years; and neither he, nor Mr. Adams, who acted often in his place, saw this great leak; or if they saw it, they neither stopped it nor exposed it.

My surprise was not, that Mayor Bailey was sharp enough to see the leak, or bold enough to expose it; but that all his predecessors in office from Morrison's time down to the present, were so dull as not to see it, or so cowardly as to be afraid to expose it.

Still more surprising is it, that Mr. Bennett, who was City Clerk most of the eight years, and who knew all about the finances of the City as well as of the Alms House and Farm, never happened to see this leak, and *cannot see it even now*, though an "Outsider" says "the figures of the Mayor are correct and incontrovertible."

Mr. Bennett undoubtedly prepared the statement of the Overseers, in which they re-affirm their high approval of "the services of the Superintendent and his wife in the management of the City Farm"—and go on, not to question the Mayor's *figures*, but to add other figures quite as accurate, and to state several important facts, going to show that there is no leak here!

The "Outsider" (who after all writes like a man who is *inside* the ring, and has an axe to grind,) informs me that there was "no *disposition* to suppress the statement of the Overseers." I don't care about the *disposition*: it *was* somehow *kept back* from the public till I called for it. Certainly the Overseers did not keep it back. Somebody else did; and the appearance was, that it would not get published at all, till after the appointment should be made.

But says "Outsider"—

If the figures given by them are correct, why do they not produce an exact copy for publication, from the data from which they furnished the first statement? It looks as if it were a difficult thing for them to work out these figures in order that they should be made to correspond with those sent to the Board of Aldermen.

Does this anonymous outsider intend to charge John Bennett with using such a low fraud as he here suggests? If he does, the Portsmouth people would like to know who he is. It happens, however, that this venerable man had just completed the very document called for, not verbatim, but as near as he could from the minutes he had preserved. He had not retained an exact copy, because he thought he was dealing with gentlemen. His statement will be believed, and calls for no remarks of mine.

In the Mayor's figures, and in the outsider's plea, the grand closing comparison is the expenses of the Farm in the four years of *peace*, when they were $8669, and four years of *war*, when they were $17,772.

No one should be surprised at this;—for every business man knows that family, farm and business expenses were *doubled* and in many cases *trebled* by the war prices.

I am fully satisfied, with the Overseers, that the Farm is well managed, by the superintendent, both as to crops and finances; and with the Mayor, and everybody else, that the House, by the Matron, is kept in the best order and condition.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

Morning Chronicle.

CATTLE DISEASE IN ENGLAND.—Dispatches from our Consul at Liverpool, dated Jan. 20, 1866, state that the cattle scourge is rather on the increase. He says that during the week previous to date 9243 cases were reported to the authorities. Thus far upward of 70,000 cattle have either died of the plague or been killed after taking it. This in reality forms but a small proportion of the actual loss, for hundreds of cases were never reported, and thousands are slaughtered prematurely and hurried to market before the plague attacks them. Vaccination was being tried as a preventive. Probably it is too soon to report definitely upon its success, but there seems to be no doubt that the experiments, as far as they have gone, have been favorable. The High Sheriff of Cheshire vaccinated ten cattle and exposed them to the plague, and thus far they have not taken it.

— Capt. Ezekiel Burr died suddenly at his home in South Milford, Mass., on the 13th ult. He was engaged in milking, when he fell backward and expired. His age was 82.

— Master William Wells, aged fourteen, and Miss Mary Earle, aged fifteen, who ran away from Baltimore, married and entered life in Washington, have been reclaimed by their parents.

— A correspondent of the London Morning Post says it is reported in diplomatic circles that a private understanding exists between the governments of Great Britain and Washington, by which the claims made by America for the losses at sea will be amicably arranged.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has secured the gratification of restoring the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and board in board and modest.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, and No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE SECRET. Order by mail. Two for $1 and a red stamp.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.
New York, June 28th, 1866.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rhematic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, conducted principally in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents and inventions and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largestin New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of this subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, has obtained Patents on applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Daily Morning Chronicle

VOL. XXVII. PORTSMOUTH, N. H. FRIDAY, FEB 9, 1866. No. 35.

The Chronicle.

MENDING A BLUNDER.—An Irish officer, upon seeing a beautiful picture sketched upon a wall in America, exclaimed "It's a fine painting, but it was never done in America."—"Oh, "sir," said his friend, "don't you see it is a solid wall, and therefore must have been done in this country?" "Ah," replied he, "I see that plain enough, but I only meant that the man who did it was never in America."

SUDDEN DEATH OF TWIN BABIES.—We understand that two babes, twins, about three months old, died very suddenly a day or two since at the residence of their parents in Boston. The mother was nursing one while the father was holding the other in his arms. The one being held by its father suddenly dropped its head and expired instantly, and while the mother was in the act of exchanging with the one she held this also was found dead.—*Herald.*

RENTS IN NEW YORK.—William B. Astor owns from 1500 to 1800 houses. He controls the rents of New York, and is greatly responsible for the awful rise in rents. One of his small houses was rented for $800. Last year he raised the rent to $1500, and charges this year $2500 for the same. Of course, all feel justified in following the lead of Mr. Astor.—*Burleigh.*

"Surely this man is "laying up treasures on earth,"—but query, is he "rich toward God?"

— An old miser died lately in Perth, Scotland. In his room were found nearly a thousand gold sovereigns, and a few scraps of bread. His only luxury was in the collection of works on "Predestination," and cognate religious subjects, of which he had in his room a really valuable library.

— A man claiming to be descended from a white father and a mother of mixed blood, offered his vote in New York State in the October and November elections of 1864, and it was refused. Thereupon he brought a suit, and a jury has recently returned a verdict for the plaintiff, assessing the damages at one hundred dollars.

Are you Lame, Crippled, or Deformed?
Or have you, or your neighbors, a boy or child lame with contracted limbs, or curved spine, or crooked feet, or weak or paralyzed limbs, or deaf, or with any deformity, or disease that is obliged to creep, or to walk with crutches, or whose limbs are shortened, or crooked, or drawn up, or who lean on the toes, or whose ankles roll over or turn inward, or who have crooked knees from white swelling, or scrofula, or who limp from hip difficulties? To save such from a life of misery, will you not write a letter, giving the prominent points of the case, and receive in return, free of charge, a circular, which may be the means of saving them? If so, address, Dr. J. P. MANN, 23 West 41st Street, New York.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, etc., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public improvement. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased by Thousands people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland, P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* pl—dawom

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a safe, specific, and sterling medicine. Here is a dream realized; that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and to, in this glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof diseases that might triumph over the aged and infirm. Let no one hesitate then, but seize the favorable opportunity that offers. When taken as prescribed
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effect to the very root of the evil.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, FEBRUARY 9, 1866.

A RICH SPEECH.—In the State Convention of the Democratic party, (as reported for the Boston Journal),

L. W. Clark of Manchester, Chairman of the State Committee, introduced as temporary Chairman Wm. C. Suroc of Sunapee, who spoke for about ten minutes amid considerable enthusiasm. He congratulated the Convention upon the large numbers present. It has been said, he remarked, that the Democratic party, is dead, but, my friends, in the presence of so many spirited delegates, I am led to exclaim in the words of Scripture, "Oh my soul, can this be death?" (Great applause.)

Mr. Suroc's "Scripture" must be some of his own manufacture. There is nothing of the kind in the bible. Perhaps the applause was on account of his ingenuity. Encouraged by the applause, Mr. Suroc went on, We have great reason for encouragement. Do you asking is now coming to pass, which is that "Satan's kingdom is tumbling down." Do you interpret this? It means that the Black Republican party is tumbling to pieces. (Renewed applause.) I thank you for this honor of temporary Chairman.

The old saying, "*Satan's Kingdom's tumbling down*," was used over and over again, in the N. H. Patriot, in the winter preceding March 13, 1855. On that day the *Democratic party* in New Hampshire *tumbled down* out of power:—and we believe the Patriot has never quoted the old saying from that day to this.

☞ Mr. Gunning, the Geologist, in an article in the Bath Sentinel, speaks of a well defined vein of emery at Bath. The emery is similar to that of the Turkish emery which has so long supplied the civilized world. A trouble with the Turkish government has so far interfered with the supply of emery that parties in London are now ordering that from the Bath mine, which has an inexhaustible supply, with great facilities for mining and transportation.

☞ Mr. T. Yancey, of De Soto county, Mississippi, writes to Gen. Fisk, of the Freedmen's Bureau, concerning a colored girl who had been sold away from her parents:

"As for recognizing the right of freedmen to their children, I can say that not one Southern man nor woman in the whole South recognizes the negro as a freedman, but as stolen property forced by the bayonets of the damnable United States Government.

☞ Miller, Wood & Co, New York, publish a little work by Dr. Trall on "Alcoholic Medication," in which he seeks to prove that stimulants of that class are worse for sick people than for those who are well.

— Among the items in the Diplomatic Appropriation bill is $18,000 for salaries of Commissioners and Consul Generals of Hayti, Liberia and Dominica.

— The colored longshoremen at Savannah struck for higher wages on the 29th ult. They have been receiving a dollar and a half a day, and now demand two dollars.

— There are now living in the town of Essex, Mass., two brothers, one aged 70, and the other 66 years, who never stepped into a railroad car, although they live within four miles of a depot, and have always enjoyed good health.

— It has been ascertained that large quantities of corn whiskey are being manufactured in North Carolina and Tennessee, while brought into direct competition with the production of loyal stills. The disloyal stills should be wormed out.

— In New York, a woman named Susannah Abrams was arrested Monday by the government detectives, who found in her muff the steel plate, from which it is alleged, over $14,000 in 25-cent fractional currency have been printed.

— On Tuesday evening a man named Campbell, 35 years of age, was driven from his house near Utica, N. Y., by five young men, who broke his skull with clubs causing his death in fifteen minutes. He leaves a wife and child. The murderers were arrested.

— A man named Callahan was deliberately murdered in Corning, N. Y., on Monday evening, by a man named John Emperor. They had a dispute about a woman, when Emperor drew a knife and drove it into Callahan's breast. Callahan knocked his opponent down and dropped dead.

— In Brittany, a very convenient matrimonial custom prevails. On certain fete days, the young ladies appear in red under-petticoats, with white or yellow borders around them; the number of these denotes the portion the father is willing to give his daughter; each white band representing silver, betokens a hundred francs of rent; and each yellow band means gold and stands for a thousand francs a year. Thus, a young farmer who sees a face that pleases him, has only to glance at the trimmings of the petticoat to learn in an instant what amount accompanies the wearer.

NEW HAMPSHIRE ITEMS.

—— Mr. Isaac Eaton, of Antrim, committed suicide on Sunday, the 4th inst., by cutting his throat with a razor. He was an elderly man, and had been sick for a long time with a cancer in his throat, and would evidently have starved to death in a short time.

—— The State Convention of the Democratic party have nominated Hon. John G. Sinclair of Bethlehem, as their candidate for Governor, and Geo. H. Pierce of Dover for Railroad Commissioner. They passed nine resolutions. The second totally disapproves of all proposed or contemplated amendments to the Constitution.. The fourth affirms the right of each State to regulate its elective franchise for itself, and that attempte to interfere with this right are violations of the Constitution; and the seventh pledges to the President the hearty support of the party in his efforts to secure an immediate representation of all the States, and to stand by him as long as he stands by the Constitution.

THE NEWMARKET FIRE.—Of this fire, which occurred Tuesday afternoon, the Dover Enquirer says:

The fire caught in some wooden buildings near the Railroad Depot, which was speedily in flames, and the cinders from which, conveyed by the high wind to other parts of the village, set fire to a block of stores near the church in the centre of the village. Six or eight dwelling houses and four or five stores in all, were destroyed before the flames were subdued. Steam Fire Engine No. 2 from this city, was sent over and did good service, as without it, it is admitted that the greater part of the village would have been destroyed. The weather was intensely cold and the wind blowing a gale, which added to the fury of the flames. We have heard no estimate of the loss.

AN OFFSET.—The U. S. Government claims of New Hampshire some $10,000 or $12,000, on some matter connected with the war of 1812. Mr. Rollins, of this State, has introduced a bill in the U. S. House of Representatives for the allowance of a claim of New Hampshire recently brought to light, for an expenditure of about $15,000 in the same war, which, if allowed, will fully offset the balance claimed against New Hampshire.

THE PRESIDENT AND THE COLORED DELEGATION. — Washington dispatches contain a sketch of an interview between President Johnson and a delegation from the colored convention which has recently been in session in that city. The President reiterated his good will toward the colored race, but he said he could not adopt a policy which, in his opinion, would result in bloodshed and great danger to the colored man. He referred to the evils which would come from enforcing the extension of suffrage upon "the people of either this District or a State in opposition to the expressed will of the majority"—which looks like the possible veto of the House bill granting impartial suffrage in the District of Columbia. It is to be presumed that the interview was not wholly satisfactory to the delegation, for Frederick Douglass, one of its spokesmen, significantly added that the great question would have to be referred to the people; in whom, the President rejoined, he had "great faith."

AT NEW ORLEANS, somewhat of a feud exists between several military authorities, and it is understood that the matter has been referred to Washington. It is all about the conduct of the Mayor. Public opinion sides with Gen. Canby, whose conduct meets with general approval.

A Brownsville letter says Gen. Escobado has gone into the interior with most of his force, except a few roaming bands, who are committing all sorts of depredations on both sides of the river. It also says the United States Government will make a great mistake by mustering out all the troops, as the people depend entirely upon the soldiers for protection.

MURDEROUS AFFRAY AT SULPHUR SPRINGS, ILL.— A Cairo dispatch say that last Friday, at Sulphur Springs, Williamson county, two lately returned soldiers indulged in drinking freely, and then armed themselves and commenced to hunt up certain parties, whom they denounced as worse than armed rebels. They finally commenced a murderous attack on one D. B. Ward, who was accompanied by a small boy. Ward and the boy defended themselves bravely, when the two rowdies retreated for reinforcements, and a few citizens and some respectable soldiers went to Ward's defence. The rowdies returned, and again commenced an attack. They were repulsed, and two were killed and six badly wounded. Those that were killed were William Burton and McMahon, the original starters of the disturbance. A citizen named Dallivan, and Ward were wounded.

— Rev. Daniel Webb, of Barnstable, has lived to see 88 years. It is believed that he is the oldest Methodist minister in this country, if not in the world.

— The scientific name of the cattle murrain in England is pneumonia pecorum epizootiar typhosa. No wonder it is fatal to the cattle.

IN THE U. S. SENATE, Wednesday Feb. 7, a bill was reported to punish kidnappers of white or colored people by a fine of from $200 to $5000, or imprisonment for not over five years, or both. Masters of vessels carrying away such persons, knowingly, are also subject to a heavy penalty.

The Judiciary Committee reported that no further legislation was necessary to exempt Northern creditors from the operation of Southern statutes of limitations.

The bill to prevent the re-issue of American registers to American vessels whose registers were changed during the rebellion, was passed. Yeas 31, nays 12.

Mr. Wilson called up the joint resolution to amend the Constitution by prohibiting any payment for emancipation of slaves. Referred to the Reconstruction Committee.

The joint resolution in relation to representation was taken, up and Mr. Fessenden spoke at length in favor of the resolution of the committee, and reviewed at length some of the positions in Mr. Sumner's speech.

The House passed the bill requiring taxes to be paid on the basis of legal tender instead of gold returns, and requiring foreign and non-resident holders of railroad bonds to pay taxes on dividends.

The House took up the bill extending the principles of the homestead act to all public lands in Alabama, Mississippi, Louisiana, Arkansas and Florida without regard to race or color.

The House by 37 against 104 rejected the amendment that nothing in this act shall be construed to prevent persons pardoned by the President from participating in this act. The bill then went over until to-morrow.

The bill from the Committee on Ways and Means, declaring the meaning of certain parts of the Internal Revenue act was passed. It requires taxes to be paid on railroad securities held abroad, and that taxes be paid upon returns as computed in legal tender notes and not on the amount in coin.

The Navy Appropriation bill was then considered in committee on the whole. Several items of the bill for the Brooklyn Navy Yard were stricken out. Nearly all the items for the Norfolk Navy Yard were stricken out. Twenty thousand dollars were appropriated for the Norfolk Navy Yard.

MEMORIAL OF VIRGINIA UNIONISTS.—A petition signed by citizens of Virginia has been sent to both houses of Congress, asking for the appointment of a territorial government for Virginia. They represent that:

As soon as the military power of the nation had conquered the country so long held by the Confederate rebels, which included Virginia, the same traitors who had set a price upon the heads of many of us because we were Union men, who were implicated in the murder of our neighbors for the same reason, and had destroyed by starvation and other cruelties thousands of national soldiers, possessed themselves of the political control of affairs within that portion of the lately conquered territory known as Virginia, and their Legislature now assume to make laws binding upon the people.

One of the acts proposed or already passed by that Legislature provides for taxing the people of Virginia to pension the widow of Stonewall Jackson. Others aim to disfranchise loyal men by requiring a residence of five years in Virginia, as a qualification for voting. Others are intended to degrade and humiliate the colored population, to deprive them of the benefits of their freedom, and to subject them to the power of the whites, by means of unjust and intolerably oppressive vagrant laws, and others, passed to satisfy the positive requirements of the national government, ostensibly allow colored persons the right to testify in cases to which such persons are parties, but give justices of the peace power to decide, arbitrarily and peremptorily, upon the credibility of such testimony, and to exclude it from the jury without appeal from such decision.

They further represent that the majority of the people are disloyal, even threatening to remove Gov. Pierpont by a State Convention. They are preparing new indignities for their loyal neighbors, and should the troops be withdrawn, there would be no safety for Union people except in immediate flight. They therefore submit that the experiment of State government in Virginia has proved an utter failure, and their only hope lies in a territorial government, under the immediate control of the national administration.

— Through the carelessness of an intoxicated nurse, four wards of Cumberland Hospital, at Nashville, Tenn., were burned on the 1st. About one hundred patients were in the wards, many of whom were suffering from limbs lately amputated, but all were removed in safety. The nurse, a discharged soldier, perished in the flames.

MARRIAGE.—Marriage is one of the great blessings of the world; Herrick Allen's Gold Medal Saleratus is the other. One is the result of love, admiration and courtship; the other the result of perseverance, science and skill. Where matches have proven unsuitable, this article is well calculated to harmonize and make home happy and pleasant, by always giving you the nicest, whitest, lightest and best Bread, Biscuit, Cakes and Puddings that woman's hand can make—which purpose cannot be accomplished by the using of any other Saleratus or soda. Most Merchants sell it. 46

ANTI-PEDDLING LAW IN RHODE ISLAND.—It seems that the State of Rhode Island, like that of Maine, has a law against selling goods by sample without State authority, and that, recently, sundry persons have been fined in the statuary amount—fifty dollars—for disregarding, or neglecting compliance with this law. One poor clergyman in Providence, who preaches to a congregation of laborers and factory girls, it is said lately made an effort to eke out his slender income by selling certain pictures descriptive of a religious subject, when he was arrested and made to pay costs. We learn that efforts are being made to have the law repealed, or at least modified by the General Assembly now in session.

☞ We call the attention of all desiring a pleasant and profitable employment to the advertisement in this paper headed "$1500 per year."

— Prejudices are like rats, and a man's mind like a trap; they got in easily, and then, perhaps, can't get out at all.

— Brummel in his decay was wither than in his best days. He considered himself "independent" at Calais, because he had "little to depend upon;" and when a friend observed at his modest table "that nothing was better then cold beef," the beau replied, "I beg your pardon, cold beef is better than nothing."

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PROTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 57 Water Street, Boston.

The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. They guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGOIEL'S BILIOUS, DYSPEPTIC and DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGOIEL'S SALVE is infallible. Sold by J. MAGOIEL, 43 Fulton street, New York, and all Druggists, at 25 cents per box. decieod4w

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn, and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized; and effectually remove all dandruff, itching and humors from the scalp. It is warranted to produce the above results, or money refunded.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving
THIS VITAL FLUID FREE,
to aid a weak "locality" to recover its proper and necessary "status" or health.

Local.

IN THE BOARD OF ALDERMEN on Thursday evening, a petition was received from Ichabod and 72 others requesting that a reservoir of large dimensions be constructed near the junction of Summer and Islington streets. Referred to Joint Committee of Fire Department.

A communication from the Board of Health was received and publication thereof authorized.

A petition of members of Engine Co. No. 5 for increase of pay to $25 per year, was received and referred to Joint Committee on Fire Department.

A communication from Charles Main, Esq., for the purchase of the gravel pit now belonging to the city, which adjoins his property on Lafayette Road, was received. Voted, that the Common Council concurring, the Mayor be empowered to dispose of this lot to Mr. Main.

An Ordinance which had passed the Common Council, increasing the pay of Night Police to $2.00 from and after Jan. 1st, 1866, was received and referred to the Com. on Bills of second reading.

A resolution was passed prohibiting firemen from running their engines on the sidewalk.

The committee to whom was referred a communication from the Overseers of the Poor, made a report, which was ordered to be printed.

Voted unanimously that the bells be rung a half hour on Monday, the 12th inst., at noon, being President Lincoln's birthday.

IN COMMON COUNCIL, a communication from the Mayor was received announcing that the Mayor and Aldermen had failed to appoint a Superintendent of City Farm, transmitting a copy of resolutions defining the power of the Superintendent of Alms House and Farm, passed by the town A. D. 1836, and recommending that the resolutions be amended.

Another communication was received from the Mayor, stating that the present Superintendent of the Farm had purchased bay in 1861 to the amount of $92 49, in 1864 to the amount of $42.38.

☞ Happening in at Mr. John Stokell's Provision Store, on Merchant's Row, Market Street, yesterday, we were rather surprised to see such a liberal display of nice meats. The sight would have done an Alderman good. Outside, on the hooks, hung grouse, and legs and whole carcases of venison; and within, among the hosts of other good things, were a couple of carcasses of the heaviest and handsomest beef we have seen for a long while. Mr. Stokell is one of our oldest provisioners and best judges of meat, and we don't know of anybody who knows better how to keep a good stock, or more enjoys doing it. And he also knows his business and interest well enough to always keep his establishment before the people, by that efficient means of all means—advertising in the Chronicle.

POLICE COURT, Feb. 8.—Otis W. Howins, for using obscene language on Market street, was fined $5, and costs $4.86. This is a step in the right direction, and may lead the foul-mouthed loafers who render it so disagreeable for ladies to walk in our streets of an evening, to pause before they pollute the air with their disgusting ribaldry.

The same Hewins, for drunkenness and disorderly conduct, was fined $3, and $3.86 costs.

☞ On Wednesday evening a slight fire occurred at the house of Mrs. Salter, 11 Washington street, caused by the burning of a chimney. The roof caught on fire, but was extinguished without a general alarm, and the chief engineer left a watchman on the premises during the night.

Communication.

☞ A short time since you expressed regret, Messrs. Chroniclers, that we could have "no one but a child" to play for an entertainment of any sort. I wish to call your attention to a young lady, who has the misfortune to be blind, who is a very pleasing player—Miss Lucy Hutchings. Her education was received at the Blind Asylum in Boston, and I have little doubt that she would gladly avail herself of opportunities to play in public, and thus aid herself in pursuing her musical studies to a greater proficiency.

Communication.

☞ As Mr. Albert L. Payne was proceeding to his home on Tuesday evening last at about 11 1-2 o'clock, when near Ferguson's stable on Vaughan street he was accosted by two rough looking strangers who demanded to know the way to a hotel. As he was in the act of replying, one of them raised his arm as if to attack Mr. P., but just at this moment a watchman approached very opportunely, when the villains ran off. No doubt violence was intend, and no doubt they designed to have robbed him in the usual garroting manner. We hope some of these fellows will be caught before long, and full justice meted out to them. L.

[Communication.]

☞ One of the handsomest paintings that have engaged our attention for a long time, is one lately placed in the window of Cobb's music store on Market street. It is a picture of a magnificent house and grounds, laid out with trees and shrubbery, with a fine landscape in the distance, designed and painted upon canvass by our accomplished townsman and artist, Mr. John E. Townsend. It is certainly a beautiful work of art for any one to perform, and we hope he will be encouraged to still greater efforts and success. P.

☞ It is said that during the recent cold weather, a large number of poor families in Biddeford, Me., were each very mysteriously supplied with a cord of good hard wood. This may have been unaccountable to the recipients, but it wouldn't have been very mysterious to us in a city where Charles A. Shaw is Mayor, because we have known Shaw for years, and it is more like him than almost any other man to do just that sort of thing.

The most perfect and beautiful Musical Instrument in the world for the American Home Circle.

THE AMERICAN ORGAN makes Home Attractive, and refines and elevates the minds of all Beautiful in its appearance and effects.

Seventeen—17—First Premiums were awarded to the American Organs IN THE MONTH OF OCTOBER, 1865, *over all competitors, at different State and County Fairs.*

First Premium awarded to the American Organs at the Great New York State Agricultural Fair at Rochester, September, 1864, over the Whole catalogue exhibited by the Most Celebrated Makers.

THE AMERICAN ORGANS are the ONLY REED ORGANS now before the public. The only Organ having a REVERBERATING SOUND BOX or WINE CHEST—which has the same important part to perform as the Sounding Board in a Piano Forte, to give body and resonance of tone) and without which the Organ becomes merely a Melodeon in an Organ Case. The American Organs not only have the Wind Chest, or Sound Box, but have the Long Organ Bellows, giving power and great steadiness of tone. These with their extreme fine voicing of the Reeds and perfecting of tone, make them the MOST PERFECT ORGAN KNOWN. Then, in fineness of workmanship, finish of action, and case, they excel all others. These great improvements and superiority of tone and workmanship of the AMERICAN ORGANS place them in the front rank as the best, and command a higher price than any other reed instrument in the market. A careful examination of them, in comparison with others, will quickly show their superiority.

Special attention is called to the style of AMERICAN ORGAN, No. 17, containing the Super-Octave Coupler and Sub-Bass. FOR CHURCHES in want of a powerful instrument, whose means are limited, its price renders it very desirable.

Every Organ is Warranted to Prove Satisfactory.

THE AMERICAN ORGANS all have the Reverberating Sound Box, or Wind Chest, and are finished in the highest style of art, in Rosewood, Jet, Walnut, and Oak finish, richly Varnished and Polished, or in Smooth Oil Finish, forming elegant pieces of Furniture for the Parlor or Boudoir, and the Oak and Walnut especially adapted for Churches, Lecture and Lodge Rooms.

THE AMERICAN ORGANS are all finished with our new PATENT improvements, containing the improved Knee Swell, Double Bellows, Two Blow Pipe, and TREMOLO found in no other Instrument.

New Styles of Cases,
Richly Finished and Highly Ornamented.

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts—and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

Portsmouth, Oct. 16th, 1865.

Morning Chronicle.

Late and authentic intelligence authorizes the statement that the old rebel spirit has broken out afresh all over Virginia. Nothing but the presence of the military saves the colored men from the most cruel injustice, and enables the Northern people who have gone thoere to live to prosecute their various avocations. An officer of the regular army states that on Sunday of last week, at a leading Protestant church in Richmond, the clergyman prayed so vehemently for Jefferson Davis that the Union soldiers who were present left the place in disgust. A petition is now being numerously signed, calling upon the President to appoint a Provisional Governor in Virginia.—*Boston Herald.*

☞ A monkish rebellion on Mount Sinai is reported in a recent letter quoted by the Levant Herald. It appears that Archbish op Syrtl, of the Convent of St. Catherine, having in some way offended his monks, they mutinied in a body, seized the Archbishop and shut him in the blackhole of the convent. News of the affair was sent by an adherent of the Archbishop to Cairo, whereupon the Viceroy despatched a company of troops to release the prelate and restore his authority.

— Bishop Eliot of Georgia gives official notice of the reunion of the Episcopal diocese of Georgia with the Protestant Episcopal Church of the United States.

— A bridal party consisting of the bride, bridegroom, and friend of the latter, arrived in Charleston, recently, have ridden on horseback all the way from Lake Ontario as a matter of pleasure. They continue their tour, en route for Louisiana.

— The Chicago papers announce "that Rev. Robert Laird Collier, for two years pastor of the Wabash Avenue Methodist Episcopal Church, and since May last pastor of a church in Brunswick, N. J., has accepted the pastorate of the Church of the Messiah, First Universalist, on the corner of Wabash avenue and Hubbard court. He assumes charge on the 1st of April."

— It is known that many persons render their receipts to the officers of the internal revenue on a gold basis, but pay their taxes in paper, and that while the bonds of railroad companies held by citizens in this country are taxed, the foreign holders of such securities are exempt. Mr. Morrill, Chairman of the Ways and Means Committee, has prepared a bill to remedy these defects, and it will probably be passed.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
FARRANT & CO
Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUES,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rhematic Affections, &c.
Read the Pamphlet of Testimonials, with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries, Specifications, Drawings, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished, comprising One Dollar. Assignments recorded at Washington.
The Agency is not only the largestin New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that now is THE TIME TO SECURE A PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES ADVERTISED, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States since 1836, render him able, beyond question, to offer superior facilities for obtaining Patents.
All tired of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy,* and no more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his *favor*, by the Commissioner of Patents.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in no respect inferior to those enjoyed by Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with unfailing Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—with plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The Single Married and the Married Philosophy. CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Dyspepsia, Insanity, Consumption,* and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two pleasant pills will restore health and vigor.
Price $2 per bottle, or three bottles for $5. Sold by all druggists, and will be sent by mail on any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MEERWIN, 37 Walker St., N. Y.

Cherokee Remedy,
Cures all Urinary Complaints, viz: *General Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhea, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases from one to three days,* and is especially recommended in those cases of *Fluor Albus or Whites to Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $1, " " $3.
The Cherokee "*Cure,*" "*Remedy,*" and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists of the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and inferior compounds, in order to make more money in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive the most explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,
Dr. W. R. MEERWIN, 37 Walker St., N. Y.

The Chronicle.

☞ The largest salt mine in the world, is said to be the immense "island, lake or mountain" of salt in St. Mary's parish, Louisiana. The salt mine or island belongs to Judge Avery. The salt is of pure crystal, and, unlike that obtained from the famous Cracow mines of Poland, requires no reboiling. During the early part of the late war it was one of the principal resources of supply to the South. The name of the island is "Petit Ance," and it consists of a hill, at some points one hundred and sixty feet high, containing about two thousand two hundred and forty acres of land, surrounded by the waters of Bayou Vermillion, situated about nine miles from Vermillion bay, in the above-named parish.

☞ The Youth's Temperance Visitor is an excellent children's temperance paper, now in its fourth year, and endorsed and commended by Temperance Organizations throughout the country. It is published monthly, handsomely illustrated, is double the size of the Sunday School papers, and each number contains temperance stories, poetry, music, a dialogue, a piece for declamation, prize bible questions, rebuses, enigmas, etc., etc. It is interesting alike to old and young. 50c a year; 6 copies, $2 50; 12 copies, $4.50; 20 copies, $7. Z. Pope Vose, publisher, Rockland, Me.

RIGHTS OF BOYS TO SEATS IN HORSE CARS.—Miles Sheridan has just recovered a verdict for $2500 against the Brooklyn City and Newtown Railroad Company, for the death of his son, aged nine years. The lad paid half fare and occupied a seat, from which he was ejected by the conductor, to make room for an adult who paid full fare. He then went upon the platform, was crowded off, and fatally injured. The Judge instructed the jury that as the boy had paid the fare demanded, the conductor had no right to eject him from his seat.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for the Vine, Grains Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented. For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* 1t—dawfm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. *They search out the various maladies by which the patient is suffering, and re-invigorate the failing system.* To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that must it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the golden opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,

Portsmouth, N. H.

SATURDAY, FEBRUARY 10, 1866.

NAVY YARDS.—A stupid sectional opposition has been manifested in Congress, against proper appropriations for the Navy, and especially for Navy Yards. On the 8th of Feb., in Committee of the Whole, the House finished the slaughtering of the naval appropriation bill, and item after item was mercilessly stricken out. The bill, it will be remembered, was *not reported by* the Committee on Naval Affairs, but by the Committee on Appropriations, who consequently had *it in charge*; but when it came to the *items* for the preservation of the ruined workshops at the Pensacola yard, and they were opposed on sectional as well as economical grounds, Mr. A. H. Rice, Chairman of the Committee on Naval Affairs, took the floor,—and in a ten minutes speech showed that the Navy Yards were not sectional but national property, were needful to keep our Navy in repair, and so far from being ample, the U. S. were obliged all through the late war, to have much work done in private yards, at higher cost. He said:

There is no argument whatever that has been made in favor of withholding appropriations for these navy yards, that will not apply with equal force to withholding appropriations from United States arsenals and forts within the rebel lines. * * * Where our commerce goes, there our ships must be. It is contrary to all economical theories and to all economical facts, that your ships shall be brought from all points of the world to one point for repairs. As to the particular appropriation for the navy yard at Pensacola, it is not to build a navy yard; it is to keep in condition what we have now there, for the purpose of repairing vessels attached to the Gulf and West India squadrons and such other vessels as are in the waters adjacent thereto. Let me say the argument in favor of bringing these vessels to New York and other places has lost all force since you have stricken out the appropriations necessary to keep these yards in efficient condition.

The ten minutes' time allotted to Mr. Rice having expired, Mr. Washburne refused to permit him to proceed, but his remarks had produced such a change in the temper of the House that an appropriation of $20,000 was made to preserve the public property at the Pensacola Yard. The entire naval appropriation bill has yet to come before the House for action, when there may be a more liberal feeling manifested; and Mr. Rice, or somebody else that really knows something about the Navy and Navy Yards, may be able to enlighten the House a little more.

IN THE U. S. SENATE, Feb. 8, Mr. Doolittle presented the credential of John Pool, Senator elect from North Carolina. Tabled.

Mr. Stewart offered a resolution, which was adopted, instructing the Judiciary Committee to inquire what legislation was necessary to protect the citizens of the United States in the Territory of Utah in their civil rights.

The bill enlarging the powers of the Freedmen's Bureau, with the House amendment, was reported from the Judiciary Committee. All the amendments of the House, except that restricting the operation of the bill to States in which the habeas corpus was suspended in Feb. 1, 1866, were agreed to, and the bill then passed.

The House, by 112 against 29, passed the bill setting apart all public lands in Mississippi, Alabama, Louisiana, Florida and Arkansas for homestead purposes. No distinction is to be made on account of race or color. No mineral lands are to be liable to entry or settlement.

The Navy appropriation bill was reported from the Committee on the Whole, with amendments, but no final action was taken. [See an article on Navy Yards.]

The bill establishing a uniform bankrupt system was taken up.

Mr. McKee of Kentucky said he had been reported as saying that Kentucky was "the most disloyal State in the Union." He said Kentucky was *one* of the most disloyal States, and *adhered* to that statement now.

Mr. Jencke then explained the provision, briefly, of the Bankrupt bill. It was then considered by sections, but no final action taken.

NEW HAMPSHIRE ITEMS.

—— Among the recent patents, we notice those granted to L. L. Davis of Laconia, and Horace A. Webster of Claremont. To the former for improvement in bolt heading machines. To the latter—assignor to himself and Sylvester Davis of the same place—for improvement in planter and seeder.

—— The Mirror informs us that Mr. Isaac Eaton of Antrim, who killed himself on Sunday, was the last of three brothers, all of whom committed suicide.

—— Capt. Ezekiel Burr of Milford, a man 82 years old, fell backward and instantly died while milking a few mornings ago.

—— Asher Curtis of Lyndeboro', 80 years of age, works in the woods, driving a 4 or 8-ox team all day.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Robert Macklin—Dr. Clement Jackson—N. H. Spy—N. H. Mercury.

ROBERT MACKLIN—baker, was burnt out of his house, (where Congress Block lately stood,) in 1738. His bakery was where the Dew Drop Inn now stands. He lived to be 115 years old, and died in 1787, according to Farmer; in 1789, according to Brewster—the latter we suppose to be correct. We copy the following notice of him from Adams.

Robert Metlin,* a native of Scotland, resided a number of years in Portsmouth, and carried on the business of a baker. He was a very noted pedestrian. He usually bought his flour in Boston, and always travelled there on foot; he performed the journey in a day, the distance being then about sixty-six miles, made his purchases, put his flour on board a coaster, and returned home the next day. He was eighty years of age the last time he performed this journey. At that time this was thought an extraordinary day's journey for a horse. The stages required the greatest part of two days. Colonel Atkinson, with a strong horse in a very light sulkey, once accomplished it in a day. He set out early in the morning, and before he reached Greenland, he overtook Metlin and enquired where he was bound; Metlin answered, to Boston. Atkinson asked if he ever expected to reach there, and rode on. Atkinson stopped at Greenland, and Metlin passed him; they alternately passed each other every stage on the road, and crossed Charlestown ferry, in the same boat, before sunset.

When Metlin quitted the baking business, he removed to Wakefield, and died there at the very advanced age of one hundred and fifteen years.

*Dr. Belknap calls him Macklin;—and Mrs. Ann Miller, wife of Benj. Miller, deceased, used 50 years ago to call him Grandfather Macklin, as he had married her grandmother. U. T.

Doctor Clement Jackson was esteemed one of the most eminent physicians of Portsmouth and neighborhood for many years. He had laid the best foundation for knowledge in his profession, which the limited advantages he could obtain in this country, afforded. Having a discriminating mind, and being in the habit of making accurate observations, he soon became acquainted with the nature of the disorders prevalent here, and with the best method of treating them. His practice was extensive; his benevolence universal. He never turned from objects of distress, without making exertions to relieve them; and always regarded the sufferings of others with tender sensibility. His amiable disposition recommended him to all who knew him; he was "a man greatly beloved." He died on Friday, the 10th day of October, 1788, in the eighty-third year of his age.

In '88, George Jerry Osborne, jr., commenced the publication of a paper twice a week, entitled, The New Hampshire Spy, which was discontinued in 1793.

Robert Gerrish commenced the publication of a weekly newspaper, entitled the New Hampshire Mercury, sometime between the years 1780 and 1790, which he continued to publish about four or five years.

[We have seen and read many of both these papers.— They were ab'e for their day.]

WASHINGTON ITEMS.—Perley says, under date of Thursday, that President Johnson will have an interview to-morrow with a delegation from the Legislature of Virginia. He told a leading Union man today that his remarks yesterday must not be construed into a desire to ally himself with the democrats, as he has no idea of taking such a step.

Quartermaster Gen. Meigs has made the following indorsement on the papers of Capt. Chas. W. Holt, Assistant Quartermaster in charge of the Forage Department at Boston. Charges had been made against Capt Holt, and he had furnished explanations of them:

"Explanations satisfactory. I recommend that he be acquitted, and no further proceedings be had in the case."

Secretary Stanton has issued an order directing that Capt Holt be released from arrest. It is said that the Captain's disbursements have been over four millions of dollars.

Mrs. Daniel Webster was among the visitors at the capitol Thursday.

John Minor Botts and a dozen other Virginians are to testify before the Reconstruction Committee.

The published note from Gen. Butler to Gen. Grant, declining an invitation to his party, is a fabrication. What Gen. Butler did write (verbatim) on the receipt of an invitation from Gen. Grant, was this:

"Gen. Butler has the honor to decline the invitation of Gen. Grant. Gen. Butler has now no desire of further acquaintance. Jan. 29th."

— All the hands in our office propose the Inventor of the Gold Medal Soap for President. Don't they know in this country the ladies don't vote, and true merit is not appreciated by the men? No, no, the ladies don't want him to give up the manufacturing of so valuable and indispensable an article to the household for the sake of being President. Maids and matrons alike would feel the loss of so indispensable an article on a washing day. 47

Local.

[Communication.]

A CITY HALL AND COURT HOUSE.—Congress Block may be rebuilt and so constructed as to make a spacious City Hall on the basement story, and a Court House on the second story, by an extension northerly, and the third story would be commodious for the Free Masons; and also to have as many stores and offices in front as there were before the building was burned. I intended to advise our city authorities to purchase the lot for the above purposes, provided the owners would sell for a reasonable sum, deducting the insurance paid; for there is no more eligible site for a City Hall and Court House in the city, and since Jefferson Hall has been taken for the city offices, a spacious City Hall is required. The present Court House is not a suitable building, and may be converted into several school rooms. Dover and Exeter have erected large brick buildings for the above purposes, upon the model proposed, except the third story. I see no reason why this city should be behind other cities and populous towns in the State, in respect to a similar building. But it is said that the Masonic fraternity have agreed to purchase the lot. If so, is it not highly probable that an arrangement can easily be made, beneficial both to the city and the Order? It is presumed that the latter would need only the third story. The annual rents of the stores and offices in front would soon much reduce the amount paid for the lot

A CITIZEN.

☞ Numerous and pressing engagements of business and pleasure, have prevented our noticing earlier, several events of local interest, during the past week—but which, even though a little late, we are unwilling to lose from the record, and so refer to them this morning.

JOSH BILLINGS.—The Pittsburg Post, in speaking of Josh Billings, (who has been meeting with great success, such as one man has rarely received before, and like the popularity which Albert Smith acquired in London ten years ago,) says:

When Josh Billings says a good thing he appears to be the only man in the room who does not know it to be good, and while you are roaring he stands in pensive silence, as if seriously questioning himself as to what on earth he has said that should elicit a laugh. It is a matter of speculation whether his style is natural to him or the result of severe study. If natural, he is a remarkable genius, and if studied, he is a consummate artist. No man better understands the art of playing 'points.' It is 'points' from the commencement to the end of his lecture. He deals with his audience as an angler does with a salmon in the Saguenay—making very sure that he has got them before he attempts to land them on the broad expanse of his high and dry joke.

We advise all to read his railroad guide, and when he makes his appearance to be sure to attend.

☞ In our report of the City Council's doings, yesterday morning, it was very evident whose name was omitted, by the compositor's blunder, as heading a petition for a much-needed reservoir as the West End of the city.

☞ In the late London papers, the evidence in the case of Gordon, the Jamaica martyr, is published, and shows the utter weakness of the evidence against him to convict. The Daily News sums it up substantially by saying that what really was proved against him was, that he had laabored long and earnestly against wrongs and illegalities imposed upon his poorer fellow-citizens, that he had exhorted them to resist legally and to petition loyally, and that he had had political and business relations with some of the men who were afterward guilty of blood. But he was not proved, save by evidence which the Inquisition would have rejected, and a Cossack court-martial would have held insufficient, to have done aught which was not consistent with the character of a loyal and Christian gentleman.

SERMONS FOR CHILDREN.—We have before us a neat little book of 76 pages, entitled "Sermons for Children, by Rev. A. P. Peabody." It contains four sermons, on the following subjects: 1. How to be Religious; 2. Use and Abuse of the Tongue; 3. False Shame; 4. Memory. Published by the American Association; sold in Boston by Walker, Fuller & Co, in Portsmouth by J. H. Foster.

YOUTH'S HISTORY OF THE REBELLION. Walker, Fuller & Co., Boston, have just published "A Youth's History of the Rebellion, from the Massacre at Fort Pillow to the End. By Wm. M. Thayer." This is the fourth and last of this very popular series, which will be read by successive generations of boys with as great interest as we used to read of the Revolution. The book is for sale in Portsmouth by J. H. Foster.

— Three men named Cranshaw, Parsons and Benjamin Stacks, who were charged with the murder of a negro last March, underwent an examination a few days since before the Military Commission in Memphis. It resulted in the exoneration of Stacks and Cranshaw, and the sentencing of Parsons to six months' imprisonment in the State Penitentiary.

Board of Health.

We call the attention of those whom it may concern, to the fact, that according to City Ordinance No. 4, Sec. 5, the contents of Privy Vaults must not be permitted to rise within one foot of the surface of the earth; and all having such vaults after the first day of May next, will be liable to a fine of from *Three* to *Twenty Dollars*, and a like sum for every week's delay after said time.

These vaults can be emptied with trifling expense before the first day of April next; and as disturbance of them in warm weather is *very objectionable*, we give reasonable notice that said Ordinance will be rigidly enforced.

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & CO.'S, 57 Water Street, Boston.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain REMEDY for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these disfigurations, which is at once pleasant, infallible and harmless.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

THIS VITAL FLUID FREE,

to aid a weak "locality" to recover its proper and necessary "status" or health.

COPY OF RESOLUTIONS
defining the power of
SUPERINTENDENT OF CITY FARM
AND ALMSHOUSE.—1836.

Resolved, That the, Superintendent of the Almshouse establishment shall have the entire control of the Town Farm, in regard to the purchase of stock, produce, agricultural implements, employment of labor, and generally whatever is necessary for the profitable management of the establishment. He shall have power to sell or otherwise dispose of the surplus stock and produce. He shall have the sole control of the internal concerns of the poor department, in the purchase of necessaries for the support and maintenance of the paupers, and shall have the exclusive direction of the labor of the inmates.

Resolved, That the Superintendent shall be appointed annually by the Board of Overseers, who shall take from him good and sufficient bonds for the faithful performance of his duties, and it shall be the duty of the Superintendent to keep a fair and true account of his doings, which shall always be open to the inspection of the Board of Overseers. The Board of Overseers may advise and counsel, but not control him, in the management of the establishment.

Provided, however, That the Board of Selectmen shall have power to remove the Superintendent in case of mal-conduct, mal-administration, or non-performance of his duties.

IN BOARD OF ALDERMEN, Feb. 8, 1836.

The following Report was accepted and ordered to be printed:

The Committee to whom was referred the communication received from the Board of Overseers, report:

1st. That the statements made by them for the year 1835 are not sustained by the City Report for that year. A member of the Committee called upon one of the Overseers, and called his attention to an error in their report, but he insisted that the report was correct, notwithstanding an error of about six hundred dollars existed according to the City Accounts, and against Mr. Moses, the former Superintendent. Whether this error was accidental, we will leave to your decision.

The Committee will call your attention to the fact that the Board have acknowledged in their statement to this board, that they have allowed the Superintendent of the City Farm to over estimate the income of the same. Your Committee do not feel called upon to consider their statement for 1835, as the accounts are now in the hands of the printer and not accessible to us. We know, however, that the Overseers have allowed the Superintendent the same privilege of over-estimating the income for the year just past—and have since requested the privilege to correct the same, by a large reduction.

All of which we respectfully submit.

J. E. HAM,
JOHN DAVIS,
WM. W. HENDERSON.

MARCELLUS BUFFORD, CLERK.

POLICE COURT, Feb. 9.—That worthy young man, Otis Hewins, who was fined on two separate complaints yesterday, had bardly been an hour out of custody when the officers were again sent for to attend to him, as he was kicking up a muss in the neighborhood of Rockingham Mills. Hewins attempted to skeddadle from the officers (whom he saw coming to arrest him) by taking to the fields across the railroad, but was pursued and ordered to "haul his jib to windward" by Pickering, whose fleetness outmatched the pedestral qualities of the said H., who was brought before the Court (for the third time in 24 hours) this morning, and for assault on Jacob Smith, was fined $5, and costs $5.14.

☞ From the numerous applications which are constantly coming to us from at home and abroad: "Are the Sons coming home on the Fourth?" we should say that they are ready, willing and anxious to come; as our citizens also are to receive them. But the movement needs system and organization, and that early too, in order to carry it out successfully, as it should be. And we will only hint now, in connexion with this—that one of our live townsmen has an idea of inciting the ladies to make movement at that time, to start the ball for a City Hall. Of which, more anon.

☞ We are glad the Portsmouth Corner Band, with Miss Foster, are to give another of their grand Concerts, next week; and we are also glad to see one of our most substantial business men, who appreciates good music, and used to know by experience how much hard work is essential to produce it—circulating among our public-spirited citizens for the Band's benefit. This community owes that Band at least $1000, and now is a good chance to pay half of it. And let us all see to it that they have it.

☞ Rev. Mr. Patterson proposes to give a brief course of Sunday Evening Lectures at the Universalist Church, on Representative Characters in the Bible. The first lecture of the Course will be given to-morrow (Sunday) evening at 7 o'clock. Subject—Absalom, or The Fast Young Man.

☞ In our record of the doings of the City Council, on Thursday evening, we neglected to state that the Mayor transmitted to the Common Council attested copies of the statements of the Overseers of the Poor, and his own figures, which we published several days since.

☞ Our new City Marshal, J. Horace Kent, Esq., is six feet one inch and a half in height, and weighs 217 pounds.

PRESID'T LINCOLN'S BIRTHDAY.

By order of the City Government, the Bells of this City will be rung ONE HOUR, from 12 o'clock to 1, on Monday,—that being the anniversary of President Lincoln's birth.

GOLD, Friday, 139 1-2.

— Archy Hughes, the well-known minstrel, was shot by a Southern American rebel refugee in Montreal on Wednesday night.

— A New York dispatch of Friday says, five or six inches of snow fell during the night, and it was still snowing at 10 o'clock to day.

— One million pounds of serviceable and unserviceable gunpowder were sold at auction at the Brooklyn Navy Yard, Thursday. The Dupont, Hazzard and Laflin powder companies were the only purchasers.

The most perfect and beautiful Musical Instrument in the world for the American Home Circle.

THE AMERICAN ORGAN makes Home Attractive, and refines and elevates the minds of all Beautiful in its appearance and effects.

Seventeen—17—First Premiums were awarded to the American Organs IN THE MONTH OF OCTOBER, 1865, *over all competitors, at different State and County Fairs.*

First Premium awarded to the American Organs at the Great New York State Agricultural Fair at Rochester, September, 1864, over the Whole catalogue exhibited by the Most Celebrated Makers.

THE AMERICAN ORGANS are the ONLY REED ORGANS now before the public. The only Organs having a REVERBERATING SOUND BOX or WINE CHEST—which has the same important part to perform as the Sounding board has in a Grand Forte, (to give body and resonance of tone) and without which the Organ becomes merely a Melodeon in an Organ Case. The American Organs not only have the Wind Chest, or Sound Box, but have the Famous Organ Bellows, giving power and great steadiness of tone. These with their extreme fine voicing of the Reeds and perfect Scale, make them the MOST PERFECT ORGAN KNOWN. Then, in fineness of workmanship, finish of action, and tone, they excel all others. These great improvements and superiority of tone and workmanship of the AMERICAN ORGANS place them in the front rank as the best, and command a higher price than any other reed instrument in the market. A careful examination of them, in comparison with others, will quickly show their superiority.

Special attention is called to the style of AMERICAN ORGAN, No. 17, containing the Super-Octave Coupler and Sub-Bass. FOR CHURCHES in want of a powerful instrument, yet means are limited, its price renders it very desirable.

Every Organ is Warranted to Prove Satisfactory.

THE AMERICAN ORGANS all have the Reverberating Sound Box, or Wind Chest, and are finished in the highest style of art, in Rosewood, Jet, Walnut, and Oak finish, richly Varnished and Polished, or in Smooth Oil Finish, forming elegant pieces of Furniture for the Parlor or Boudoir; and the Oak and Walnut especially adapted for Churches, Lecture and Lodge Rooms.

THE AMERICAN ORGANS are all finished with our new PATENT improvements, containing the improved Knee Swell, Double Bellows, two Blow Pedals, and TREMOLO found in no other Instrument.

New Styles of Cases,

Richly Finished and Highly Ornamented.

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.

This unurpassable invention, now being first introduced, will be believed, superseede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of three parts only, and is simple in the construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged keeps it from wearing out.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be treated with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
I trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S.-D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, procuring Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the entire time in course of his PRACTICE, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate to call and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, thus disqualifying them for the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible results.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The only Medical Work ever published.—Price 25 cts. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from observation. Address

☞ A change has been made in the Book Department of the American Unitarian Association. Hereafter the Association will do its own publishing. An arrangement has, however, been made with Messrs. Walker, Fuller & Co., of Boston, and James Miller, Esq., of New York, by which they become the selling agents of the Association, to attend to the retailing of its publications in those cities, and to supply them to the trade. The Association has now in press and will soon publish the following valuable work—"A new translation of the Hebrew Prophets," with a new introduction, and additional notes. By Rev. George R. Noyes, D.D.

A MASONIC FACT.—Dr. R. G. Scott, Past Grand Master, in an address delivered years ago, made the following statement. It is honorable to the Masonic Institution—and we presume the members of that ancient body will be pleased to read it and see it circulated: "From sources of information on which I deliberately rely, I state the fact that fifty at least of those who signed the Declaration of Independence were Masons, and the same history informs us that every Major-General of the Revolutionary army was a Mason, save one, and that one was Benedict Arnold."

DRY TIME.—The streams are so low that the manufacturers at Birmingham and Ansonia, Ct., have given up their water power and substituted steam. Other manufacturers will have to do the same or stop work.

In most parts of New Hampshire the streams and wells are very low, and in many places the farmers have to carry water long distances for the use of their families and stock. Such scarcity of water in the winter time was never known before, in the memory of the oldest inhabitant.

— The inner harbor of Newport was frozen over on Tuesday night across to Fort Walcot for the first time since 1856.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, and is adapted to Grain, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who dread mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fruitie tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* 1m—dawsep

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, as know, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once, and the most inveterate constitutants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal naturally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,
Dropsy,
Debility,

Morning Chronicle.

Portsmouth, N. H.

MONDAY, FEBRUARY 12, 1866.

☞ The negro delegation have published a reply to the speech made them by the President, in which they dissent entirely from his views.

They call his attention to what they consider his "unsound views," on the question of enfranchisement. They admit the hostility of the poor whites at the South, and say it is reciprocal. This enmity was, they say, incited by the slave master, who thus secured an ascendency over both the whites and blacks. The poor whites were the slave catchers, slave drivers and overseers. The cause of hatred being removed by the abolition of slavery, the effect must also be removed. Peace between the races is only to be obtained by equal justice between all classes. They also oppose his views on the subject of colonization.

He has sometimes been called, and called himself, their Moses; but they don't see any sign that he will be their Joshua, to settle them in the promised land. Fred. Douglas, who probably wrote the reply, and who was the spokesman of the delegation when they addressed the President,—was as usual, caustic and bitter, and in some cases impudent. But we must consider that he *was a slave*, while the President *was a slave holder*;—and besides, Douglas belongs to the "First Families in Virginia," who are generally arrogant, impudent, and overbearing.

In the U. S. Senate, Feb. 8.—The resolution to amend the Constitution was taken up, and Reverdy Johnson spoke against it, as was to be expected, making as good an argument as could be made for a bad cause.

The House concurred in the Senate amendments to the Freedmen's Bureau bill.

The House then proceeded to act on the amendments to the navy appropriation bill, and concurred in the report of the Committee of the Whole by 73 against 66, striking out the appropriation of $298,000 for machine shops in the main building at the Brooklyn Navy Yard; also $191,000 for machine shops, &c., and some other items were stricken out.

The appropriations for Portsmouth are as follows: For iron foundry, $5946; for shop for iron cladding, $16,632; for condensers, $7660; for road and timber slips, $23,000; for enlarging office building, $9748; for fitting and furnishing plumber's, coppersmith's and tin shop, $3600; for machinery and tools, $48,100; for repairs of all kinds, $70,000; for completing plumber's, coppersmith's and tin shops, $10,000; for the purchase of Seavey's Island, $100,000, provided that a perfect and approved title in fee to the whole island can be obtained and vested in the United States for that sum. The last item was finally carried by a vote of 80 to 62.

All the items for the Boston Navy Yard were retained, except for the purchase of the right of drainage through the yard now held by the city of Charlestown.

Appropriations of $20,000 each for the protection of the public property at the Norfolk and Pennsylvania Yards were agreed to—all others for those yards being expunged.

A section was added, making the appropriation as to bounties for the destruction of the enemy's vessels during the rebellion applicable to all cases. Also that no part of the amount appropriated shall be paid in violation of the act prescribing the oath of allegiance. The bill then passed.

From Mexico and Texas, *via Brownsville, Feb. 2d.*—Col. Brown succeeds Gen. Weitzel in command of the Rio Grande district. Col. J. G. Smith succeeds Gen. Smith in command of a division of the 25th corps.

The United States Provost Marshal is busy arresting and disarming all fillibustering parties in Brownsville and its neighborhood. Col. Reed, Gen. Crawford's Adjutant, has been arrested for complicity in the Bagdad affair. Capt. Sinclair, of the Liberal army, has also been arrested on a charge of violating the neutrality laws.

Gen. Cortinas and his forces have left for parts unknown. It is reported that before he left he received from Juarez the appointment of General in-Ceief of the Liberal army.

Four pieces of artillery, taken from Bagdad by the Liberals, and brought to Clarksville, were seized on the 1st inst., and held by the United States Collector of Customs.

A French man-of-war has arrived off the Rio Grande. Two thousand French troops are expected on the Rio Grande.

An Aide-de-Camp of the Emperor Maximilian was at Matamoras on the 1st inst.

It is rumored that Gen. Canales was at Reynosa with the Liberal army, that Gen. Escobado, with another army, is besieging Monterey, and that Gen. Mendera, with another, is besieging Tampico. None of these stories are believed here.

— At Harrisburg, Pa., Feb. 9th, the House passed the bill appropriating $500,000 for the relief of the Chambersburg sufferers.

Correspondence of the Chronicle.

New Market, Feb. 10.

Editors Chronicle:—As requested, I send you a list of sufferers at the recent fire in this place. Mrs. Geo. Watson, lost 2 houses and barn occupied by herself, Nathaniel P. Bunker, Samuel Grant and Mrs. Philbrook,—furniture mostly saved,—insured. Martha Cheswell and sister lost house; furniture saved,—insured. Chas. D. Garland, lost house and barn,—goods mostly saved, insured. House owned and occupied by Frank McDaniels and Irene Chapman, goods saved,—not insured. Building owned and occupied by Nathan H. Harvy, as store and tailoring establisment, goods partially saved. Store and tailoring establishment of Joseph Pinkham, goods mostly saved. Building owned by Z. Dow Creighton, and occupied by M. E. Young, milliner. Joseph Young, meat market, and the families of Samuel Burnham and A. Marston; goods mostly saved; these buildings and goods insured.

The total loss I have not heard estimated. Our people generally, are loud in praise of the Steam Fire Engine and Company from Dover. Yours in haste, J. F. G.

NEW HAMPSHIRE ITEMS.

—— Mrs. Sarah Banfill died in Madison (recently Eaton) on the 9th ult., at the age of 100 years and nearly five months.

—— The Concord Convention of the Democratic party, at their late meeting, announced our State Debt to be $13,000,000. The State Auditor certifies, on the contrary, that on the 1st day of Feb., 1866, the total debt of the State was $4,258,47074.

—— A correspondent of the Independent Democrat states that in consequence of some unhappy difference on questions of discipline in the Baptist church at Rumney, letters of honorable dismission have been granted to about fifty members, embracing several who have been connected with that body for nearly half a century. This leaves the church so weak that the pastor has felt compelled to resign.

☞ The accident on the Bloomfield and Newark Railroad, at Bloomfield, N. J., Thursday, by which the lives of eighty to one hundred persons were imperiled, was one of the most inexcusable that has happened for a long time. The bridge where it took place was about three hundred yards above Bloomfield, and was so old and "shaky" that the passengers have feared that it would go down; and a month ago, it is stated, one of the engineers of the road complained to the company in regard to it.

Japan.—Late advices from Japan state that the mission of the Ministers of the United States, Great Britain, France and Holland to demand the opening of Heogo, the chief port of the island sea, had been successful. Mikado had ratified the treaties entered into between the Tycoon and foreign governments, admitting Japan into comity with the other nations.

All internal troubles caused by the presence of foreigners had ceased at once and even the quarrels between the Tycoon and Obashli were rendered easy of settlement. The real power of the Tycoon is now to be acknowledged throughout Japan. The following are the demands made:

1st, the ratification of the treaties by Mikado; 2d, the opening of Heogo; 3d, the revision of the tariff.

For three days and nights, amid the greatest excitement and preparations for war and movements of large bodies of troops and after the most earnest entreaties of the Tycoon and his representative, the spiritual Emperor, the Mikado, yielded his consent.

Washington Items.—The Boston Herald's especial of Feb. 9th says there is reason to believe that efforts have been made by leading Republicans to effect such an understanding with the President respecting certain measures pending in Congress, as to avoid a veto and a consequent rupture between Congress and the Executive.

The Freedmen's Bureau bill and the Civil Rights bill will soon go to the President, backed by the two-thirds power of both Houses.

☞ It appears that the four (not five) young men who killed John Campbell near Utica, N. Y., were drunken roughs, who started from Utica on a sleigh ride, and coming about dusk to the farm-house of Campbell, who was a very respectable and worthy man, they demanded liquor. He told them, truly, that he had none. In their drunken fury they beat him to death with his own sled stakes, in presence of his wife and little daughter, and then drove off. A neighbor of the deceased immediately went into Utica and told the police, who had all the four murderers in jail before sunrise.

— A Savannah dispatch says, the first mate and one seaman are the only survivors, except one man, wife and child, of the wreck of the British barque Jennie, from Liverpool for Savannah, wrecked off Cape Hatteras on the 4th. The captain and 16 of the crew were lost. Two men were picked up by the pilot boat and taken to Hilton Head.

Communication.

City Farm Accounts again.—*Messrs. Editors*:—"Tax-Payer's" long-winded communication, published on Thursday, deserves a passing notice. In his defence of the present Superintendent, and in the statement of the Overseers, the Mayor's figures yet stand "incontrovertible." I do not agree with his intimation that because Mr. Bennett cannot see anything wrong, no one else need disagree with him. It is best that every one should endeavor to look into this matter, personally, and not depend on the judgement of others. I have seen many as excellent men as Mr. John Bennett err in judgement, and make mistakes in figures While I am disposed to admit what "Tax-Payer" thinks probable, that Mr. Bennett furnishes the brains for the Board of Overseers, I wish it distinctly understood that I did not make, or intend to make, any charge of "fraud" on the part of Mr. Bennett. I have not seen the original document sent to the Aldermen by the Overseers, and so am not able to say whether or no it agrees with the figures published, but presume it does. It appears by the report of the committee to whom it was referred that the figures are incorrect, and that is all that it is necessary to say on that subject. *I learn that the estimate of the Superintendent of the Farm was reduced at the meeting of the Overseers on Wednesday.* Comment is unnecessary.

Mr. Norton had estimated that he had raised 190 tons of hay the past year. Now it is amended, and 150 tons substituted. $700 had been the estimate of cost of keeping horses and oxen, and $1100 is now substituted. How far this amending process may go on, after the figures which have been produced to influence people to vote for the present incumbent have answered the purpose, we know not. One thing is evident; the figures as published in the Journal several weeks since, are shown to be incorrect by this action of the Overseers. In bringing the matter before the public, and commencing this newspaper discussion, these over-eager individuals have overreached themselves, and now the whole subject is in a fair way for a thorough ventilation. Who gets hurt by the reaction the result will show.

This attempt to manufacture public opinion bid fair to succeed, until the figures of the Mayor so suddenly obstructed the path of deceit. The action of the Overseers has knocked out a part of the underpinning of the fabric of figures so vauntingly displayed, and it remains to be seen whether the remainder of the foundation is strong enough to prevent the fall of the whole. The matter has now got properly into the hands of our City Fathers, and the thing will be properly attended to. Let those who are willing bear the responsibility of voting to continue the present management; but those who like to see justice done, will *not* be held accountable for the action of others.

In conclusion, allow me to say that I know of no "ring" in opposition to Mr. Norton, but had supposed there was one in his support, which had obtained a bare majority for him in the Board of Aldermen. I have no personal acquaintance with any candidate opposed to the present incumbent, no "axe to grind," no favors to ask or accept. Outsider.

☞ Josh Billings, whose quaint sayings have delighted so many people, appears in person at the Temple this evening. Read what the Pittsburg Post says of him, and then go and hear for yourself.

Josh Billings.—As we anticipated, the funny "showman" drew a crowd last night. Masonic Hall was literally filled to overflowing, the sale of tickets was stopped at an early hour, and many who came to see and hear and laugh were obliged to leave for want of room to sit or stand. We shall not attempt a description, because neither Josh nor the quaint manner in which he utters laughter-provoking jokes is describable. To appreciate the oddity of the man and the irresistible humor with which he keeps an audience in a roar, he must be seen and heard. Everybody present was pleased last night, Everybody laughed, and probably nearly all who were there will go again. If we could prevail upon "Josh" to let us a little deeper into the secrets and prospects of the

Coroner's Verdict in Cambrige.—The jury summoned by Dr. Marston, of Cambridgeport, on Monday last, to investigate into the death of Emery Ayers, of Portsmouth, N. H., have returned the following verdict: "That the said Emery Ayers came to his death on the 29th January, 1866, in North street, Boston, by injuries inflicted by some person unknown to the jury."

Convicted.—Daniel Sanborn, who was arrested for stealing copper from the Portsmouth Navy Yard on the 15th of last month, was brought before the U. S. Court at Portland on Saturday last and plead guilty. He will be sentenced on the last day of the term of the court. Edward Fenton has been indicted by the Grand Jury, and is now on trial before the same tribunal as Sanborn's accessory.

☞ Mr. Freeman Teague of this city recently returned to his home, having been mustered out of service. During the war he was made a prisoner by the rebels and for a while incarcerated in the Richmond prisons. While there he suffered much from the tender mercies of Dick Turner, but latterly the tables were turned and Mr. Teague has been standing guard over his old keeper. He represents that Turner's hair has changed from black to gray.

Sympathy.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty street, New York. 47

Eureka! Eureka!

C. M. WENDELL is canvassing this city for the sale of RUSS' PATENT SCISSORS SHARPENER. The proprietor of this new invention would invite the attention of the public to its use, claiming this to be the most useful invention ever offered to the world. This little utensil will be found very useful to housewives and others, for by the aid of its a sharp pair of Scissors can be hadin a moment. It is simple in construction and effectual in its work. We call the attention of those whom it may concern, to the fact, that according to City Ordinance No. 4, Sec. 5, the contents of Privy Vaults must not be permitted to rise within one foot of the surface of the earth; and all having such vaults after the first day of May next, will be liable to a fine of from *Three to Twenty Dollars*, and a like sum for every week's delay after said time.

These vaults can be emptied with trifling expense before the first day of April next; and as an disturbance of them in warm weather is *very objectionable*, we give reasonable notice that said Ordinance will be rigidly enforced.

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. Maguire's Diaphoretic Dyspeptic Diarrhœa Pills cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, Maguire's Cerate is infallible. Sold by J. Maggiel, 43 Fulton street, New York, and all Druggists, at 25 cents per box. decs6od&wly

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling out; causes the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and performed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

Local.

☞ Rev. A. L. Stone's lecture, or talk, before the Lyceum last Monday evening, was one of the best—most sensible and valuable we ever listened to. He "gave it to them strong"—pitched into traitors, mean, selfish and lazy men, and the like, right and left; and among a mass of every-day facts and philosophy presented, there gleamed out many a gem of sound wisdom and honor bright—the adoption and the following of which would greatly improve our city and our world. His remarks on public improvements, amusements, &c., were especially to the point. We wish every person from Maine to California, could hear and would ponder on that hour's pleasant and colloquial, though earnest farewell discourse of the eloquent orator.

Miss Susie Foster's singing was very acceptable, as it always is, though the stage was hardly light enough to see her well. With study and practice, this young lady bids fair to become a fine singer.

☞ The Great Annual Sleigh Riding Party gathered at the Atlantic House, Rye Beach, on Tuesday evening last—to the usual number of about forty couple. And a grand time they had of it, too, of course. The house, being open all the season, and warmed with coal, was entirely comfortable; and the Messer. Lougee, landlord and clerk, prompt and attentive as ever. Lamprey & Tompson's quadrille Band furnished excellent music, and "the light fantastic" was pretty well tripped, but not tripped *up* by any.

The party was perhaps the most brilliant and entirely satisfactory of the whole series; and as the moon didn't rise till next morning, the gay crowd kept up the shake till it was time to "go home with the girls." There was "no note taken of time, but by its loss"—and if you can ever *lose* any time, with Lamprey at the fiddle and to call, then there isn't much snap in ye, that's all.

As usual, a considerable number of the party accepted the invitation of Albert Blaisdell Esq. to make his residence in Greenland, the half-way house for the ride down in the afternoon—where the hospitalities of the occasion were dispensed by the host and his family with a liberal hand, as is their wont.

Most of the original party, of four or five years ago, were on hand. A few have passed from the scenes of earth, and a few others grown stale and unfit for scenes of jovial though innocent mirth; while their places were filled by new faces—among these, being a brilliant delegation from California, others from Concord, &c. All went merry as any could ask.

☞ The City Marshal has given orders to the night police to arrest all persons who may be found strolling about the streets of the city at unseasonable hours of the night, who refuse to give an account of their business or design, or who may be reasonably suspected of giving a false account thereof, or who can give no account of the occasion for their being abroad. The statutes provide that every person so arrested may be committed, detained and proceeded against in the manner provided for offences against the police of towns.

☞ James Buchanan, not "Jimmy of Wheatland," but a soldier, who unlike his *illustrious* predecessor has bared his breast to the cannon's mouth, was found on Saturday night, intoxicated, in the "Pigeon Coop" on Bow street, by officers Marsh and Burns. He was provided with lodgings at the brick hotel on Market Square, and after receiving a reprimand from the Mashal, on Sunday morning, was forwarded to his command.

DESERTER.—A man by the name of Collins, who deserted from Fort Constitution about six weeks ago, was arrested on Saturday by Special Officer Anderson, at the Navy Yard landing. He was returned to the Fort by Officer Pickering.

CRYING FIRE.—A boy was arrested on High street on Saturday night, for making a loud noise, similar to a cry of fire.—Promising better manners himself, and his father agreeing to punish him, he was discharged.

COMING.—Burgess, Pendergast, Hughes & Donniker's Minstrels will appear here on the 27th of this month. They have been drawing tremendous houses in Canada. Archy Hughes was shot in Montreal last week by a Rebel desperado, the "Reb" taking exception to Hughes' loyalty to the U. S. Government. He has sufficiently recovered to appear with the company.

☞ Mr. Thomas Martin has erected an iron wind mill on the roof of his workshop, at the head of Pier Wharf, to supply the requisite power to run a planing machine and also other machinery.

—Portland is going to indulge in a masquerade ball next Wednesday night.

—The Brenham (Texas) Enquirer says that at a late sale in that place, a Brazos farm of 600 acres was bid off for $12,000 in specie.

—Dr. Gwinn, who has been confined for months in Fort Jackson, denies that he is inimical to the Union, and that he was ever connected with the confederates.

—The Lewiston Journal says a blind man in that city makes excellent brooms. He "goes it blind" with better success than would most people with good eyes.

—The First and Second Regular United States Colored Cavalry, lately doing duty at Brazos and Brownsville, Texas, have been ordered to City Point, Va., where, on the 25th inst., they will be paid off and mustered out. Inducements will be held out by the Freedmen's Bureau to have these returning veterans locate on Goverment lands in Florida, securing homes at nominal prices.

THE GREAT WEST.—Homes of the sturdy farmers who look about them over the broad prairies, and see for miles their lands and granaries, are often rendered desolate by the death of a beloved child from the ravages of the deadly Croup. Special Insurance Notice.

To my Friends and the Public:

Twelve years ago I was appointed Agent of the HOME INSURANCE COMPANY of New York, and have faithfully performed every trust and duty for the Company. Last week I received a note from Mr. N. A. CLARK, Special Agent, stating a change was to be made and the Agency to be transfered to another party. I at once thought what was in the wind, and left for New York to learn the cause, but before my return the change was made. I inquired why the change was made, as not a word had been said that all transactions were not satisfactory—and all the charges they brought against me were that the Company was making no money in Portsmouth, that the rates of insurance were too low, and I was blamed for the late fires—the burning of Congress Block and Locke's Stable,

This same Special Agent, N. A. CLARK, spent several weeks in Portsmouth, examined all my risks that he wished to see, and generally called them very good; approved the risks of Preston, Shores and Salen, in Congress Block. Mr. Clark, at my request, went with me to Woodbury Locke's Stable on State street, and examined the premises and stock, and fixed the rate at 1½ per ct., a half per cent less than I had before insured him, and authorized me to take any reasonable amount Mr. Locke wanted insured. I acted under his instructions; and if insuring the Stable was the cause of the *fire*, the blame should be on Mr. Clark, and not on me—for I should not have taken it at that rate. Such is a true statement of the facts and all charges that have come to my knowledge.

I think the Home Insurance Co., or their Special Agent, N. A. Clark, has done me great injustice, after working for them for so many years; then, without any satisfactory reason or complaint, and without notice, give my hard earned labors to another man. I trust my friends and the public will withdraw their Insurance, and bestow it on me, where it rightfully belongs,—for I have several as good and responsible Insurance Companies as the Home, of New York.

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps; and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,

39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

From the Portsmouth Journal

For the Journal.

REV. DR. SPURR'S LECTURE was full of noble and worthy suggestions, not only to be learned for the moment, but to be retained and treasured for future use. Many suggestions that were offered to the country at large, would well apply to our city; such as good and moral entertainments, elevating and agreeable; fountains at the corners of the streets, (better than talking temperance;) trees by the way side; public parks, where our citizens young and old could once in a while fill their lungs with pure wholesome air. Industry and thrift, each being a part of the whole, are under obligation to contribute their share. The lecturer said, "you speak, which is very well, but will you take hold and each do his part?" Who will be the one to furnish a dozen books and a shelf towards a public library? Who will give the first dollar to the fountains and park? Who will leave off the first extravagant dress, that those in the community that need it may buy some comfortable clothing? Who will not leave off gormandizing beef steak every day, that some in the community may eat meat once a week? or be little more saving of fuel that others may be warm? The lecturer reasoned, and with truth, that no one in the community has a right to live as if he had no interest in it. Those who did not hear the lecturer, do not know what they lost. It was of that profitable kind, that pays for attendance.

He repeated it on Tuesday evening as his farewell discourse in Boston, with the addition of such local references as the circumstances required.

ANOTHER CONCERT BY THE PORTSMOUTH CORNET BAND.—It will be seen by the advertisement that this Band is to give another concert next Thursday evening. Of the merits of this Band the public are well aware; and we have already spoken in the highest terms of those who are to perform the vocal entertainment. Let an appreciative public award to home talent that attention and patronage which would be readily conceded to performers and singers from abroad, of whom few surpass Miss Foster. It is to be hoped that the Band will meet the crowded house the concert will deserve.

EPISCOPAL CHURCH AT THE SOUTH.

We find in an account given of the General Convention of the Episcopal Church, published in the Christian Intelligencer of Charlotte, S. C., NOV. 22, 1865, the following notice of REV. DANIEL R. GOODWIN, D. D. of the University of Pennsylvania—brother of Ex-Gov. Goodwin of this city. The Intelligencer is of Southern proclivities, and of course opposed to Dr. Goodwin's views expressed in the Convention—he being decidedly opposed to allowing the Southern Episcopalians to ride rough shod in coming back.

Of those who were prominent as debaters, the foremost place is to be assigned, I think, to the Rev. Dr. Goodwin, of Pennsylvania: and this tho' I did not sympathise with the views most ardently advocated by him, nor did he persuade the House to take sides with him. He is, I judge, about fifty-five years of age, his head throughly sprinkled with gray, and of a countenance very expressive of scholarship and refinement. His delivery is rather conversational than oratorical, though in distinctness, &c., of rare excellence. His words seem to rise to his lips spontaneously, and yet are carefully selected and always the fitest words for his purpose. His sentences, never long and involved, are remarkably perspicuous and pointed. All this is but the proper form of utterance of a mind naturally subtile and of fine discrimination, and trained to use, without the seeming, all the methods of logic. Cool, wary, prompt, adroit, with every show of fairness, he struck me as a most accomplished fencer. Yet there was running through all he said a slight vein of something like sarcasm, a tinge of bitterness, which is not pleasant to the hearer, and which arose possibly, from his consciousness of maintaining views that were by no means accep table to the House.

The steamer London which foundered at sea on the coast of England, in the storms of December, with 254 passengers lost, was of iron. The ship sunk gradually and it was supposed no boat could live a moment. At length Capt. Martyr felt obliged to collect the passengers in the saloon and inform them of their impending fate. Rev. Dr. Draper addressed the passengers and prayed aloud. "Dismay was present to every heart, but disorder none. Mothers were weeping over their little ones, and friends taking leave, as if preparing for a long journey." Nineteen risked their fate in the best boat, including three passengers. They shouted to Capt. Martyr to join them, but he would not leave his passengers. The boat had left but 5 minutes before the ship, by the bow, plunged to the bottom. There were momentary shrieks, and all was still. The boat it seems, rode upon the waves and 16 of the 19 were saved.

The new proposed Constitutional Amendment—while the States may pass acts for Universal Suffrage to secure a full representation in Congress—may prove inoperative in districts where individual power, with rancorous feeling, may present various obstructions in the exercise.

There are 6000 applicants, it is said, for the 400 vacancies in the regular army; causing Gen. Grant "more anxiety and labor than the management of an army in the field." Again, the pressure for clerkships is increasing every day—the Treasury Department alone having 2,000 applications on file—and yet "no class are so put to it to live on their salaries, as clerks in Washington."

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

FARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benent the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

I trust that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. U. HENRIQUEZ,

Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign records to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent issued by mail, for running One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITIES, I would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,

Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which were decided *in his favor*, by the Commissioner of Patents.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz: *Spermatorrhœa, Seminal - Weakness, Night - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Wakefulness, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Bright's Disease, Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Family Size Bottle, $2, Three Bottles, $5.

" Injection, " " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*," are to be found in all well regulated drug stores, and are unsurpassed by any medicines and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to cheat their customers, by selling inferior and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and we be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us with perfect *confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, peculiar to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, Prolapsus, Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing the disease, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that attentes see none but the Doctor himself.

Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

MARSHAL BAZAINE'S OPINION.—is is stated that Marshal Bazaine, French Commander-in-Chief in Mexico, recently uttered this opinion, that "in order that the intervention (meaning the French usurpation of Mexico) may be fruitful, we (the French) must remain in Mexico until the boys eight years of age to-day become men, for the men (Mexicans) of these days are robbers, without principle, or incapable of doing anything good of themselves." He is afraid, we presume, that they will rob Maximilian of his throne.

— "I wish you would not give me such short weight for my money," said a customer to a grocer, who had an outstanding bill against him. "And I wish you would'n't give me such long wait for mine," replied the grocer.

— John B. Weller, ex-Governor and ex-Senator, was a passenger on the steamer Golden Rule, lost a few weeks ago. "What did you save?" inquired a friend of Weller. "Nothing but my character." "Then," declared a wag who heard him, "he must have landed in San Francisco with less baggage than any man who ever came to the Pacific coast."

— A detachment of the Second Colorado Cavalry, which passed through one season's bushwhacking in Missouri, all that battles of the border, and through an Indian campaign on the Arkansas, writes the news from Indiana that "he never realized the horror of war till he got home to Indiana and found his gal married to a stay-at-home dry goods clerk."

— A strike took place at White's foundry, Pawtucket, last week; and (the Providence Bulletin says,) finding the firm able to go on with their business by putting in a new set of hands, a threat ning anonymous letter has been sent them demanding the discharge of the "nagar," and the immediate calling in of the strikers, warning them if they do not their property is in danger, "as the 'nagar' can't conquer in this case."

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia, on the Railroad to Cape May, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for the growth of Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Strawberries and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Excellent openings for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented for persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the front of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* m1—dawóm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND EXTERNAL SALVE.
These Life-giving Remedies have been for the first time, given publicly to the world for over a quarter of a century of private practice the ingredients in these

Life-giving Pills!
Have been used with the greatest success. Their mission is not to only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most acceptable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever

AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

These Famous Remedies
Cannot stay the flight of years, but they can force back, and hold sheathed, the dart of disease that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest infant.

For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, FEBRUARY 13, 1866.

WASHINGTON ITEMS.—Perley mentions a report, which he does not endorse, that the President has made a compromise with the Republican leaders;—but he thinks "a direct conflict of opinion between the President and Congress is at hand." A rumor is also revived, that the President means to dismiss three members of the Cabinet on the ground of their being "radicals."

Under date of Sunday Perley says:

President Johnson's speech yesterday to the Virginians contained nothing not already known to those familiar with his opinions. He has again and again declared that the radicals of Massachusetts were equally responsible with the radicals of South Carolina for the rebellion, and he is equally confident that the former will be conquered in the national councils as the latter were conquered on bloody battlefields. [We shall see.]

The new colored Roman Catholic chapel was opened on Sunday for divine service.

Nearly all of the Methodist clergymen in Northern Virginia are joining the Southern Conference, although many of them have been notified that should they do this their churches will be closed against them by the government officials. Bishop Early welcomes them.

A petition has been received for presentation to the President, asking the pardon of John C. Breckinridge. It is signed by upward of seventy members of the Kentucky Legislature.

THE U. S. CHRISTIAN COMMISSION.—The final anniversary of the United States Christian Commission was held in the House of Representatives in Congress on Sunday evening. The progress of the work of the Commission, which closed its active labors on the first of last January, has been extraordinary. From a general summary of the work since its commencement in 1862 we find that the total value of the donations and facilities of the Commission reached the vast sum of six millions, two hundred and sixty-four thousand, six hundred and seven dollars, and sixty-eight cents, of which there remains a cash balance in all the treasuries, of ninety-nine thousand, two hundred and twenty-three dollars, and thirty-eight cents, which will be all dispensed by the several branches in strict accordance with the original purposes of the Commission.

AN ORDER—telegraphic item says—in some news from Louisiana:

"Gen. Canby has issued an order that property subject to sequestration by the acts of the Confederate Congress will be restored to owners or their legal representatives."

We suppose the item means, that all property which can now be found, and which was stolen by the robbers' confederacy, shall be restored to the true owners.

AN IMPROVEMENT.—A writer in New York city, speaking of trade there, says "the vessels loading for the South carry immense numbers of agricultural tools. Plows predominate over everything else. They tell the story of the new order of things most impressively. When the war commenced, it was called a Massachusetts war, intended to dethrone the Southern institutions, and fill the land with the peculiarities of New England. So the event has proved. Northern freedom and education, the school house, the church and domestic institutions have begun their march over that land. The plow is now to do its work, and culture and bloom to cover the plantations, and men will earn a living and a fortune by the dignity of their own labor and the sweat of their own brow, rather than by the toil, blood and suffering of others."

— Even the lunatic asylums have their romances. Some years ago, there were in Colney Hatch, England, a young man and a young woman who made each other's acquaintance at one of the monthly balls given for the amusement of the inmates. Mad though they were, they carried on an innocent courtship, and despite the vigilance of the officials, managed a written correspondence. Both recovered, and after their discharge, having renewed their courtship, married happily. So far as is known at the asylum, neither has had a relapse of insanity.

— Burr and Bishop are neighbors in Connecticut. A strip of land between their houses is owned by Burr. Taking a dislike to the windows in Bishop's house, Burr, some months ago, built a board fence so near them as to prevent swinging the blinds, and high enough to shut them entirely from view. Bishop sued for damages, and a jury gave him $150 and costs.

— The improvements which are taking place in Judea are very great. For some distance around Jerusalem there are extensive plantations of young olive trees, and in and about the city the new buildings are both numerous and handsome. Every European nation seems anxious to have a footing in the Holy City.

— The Philadelphia Quakers have raised a fund of $125,000 to found an institute for colored children in that city.

Correspondence of the Chronicle.

WASHINGTON, Feb. 9.

Mr. Editor:—The President has certainly done it. Whatever opinion may be entertained of the soundness of his sentiments, there can be no question as to the policy of putting them before the public at the time and in the way he did.

Reticence is one of the first and most important lessons a public man has to learn, particularly if he be in the difficult position of a moderator between two parties so diametrically opposed to one another as are the North and the South; and, if in no other respect, Mr. Johnson has erred in suffering himself to be drawn into an impromptu discussion on a point which is so hotly contested. Mr. Lincoln was accustomed to say but little, and that little was well weighed and long considered. "The least said," you know, "is soonest mended."

The Treasury Department has again put forth a fractional currency of new pattern—the fifty-cent notes bearing the head of Mr. Spinner, the present Treasurer, whose likeness, as it there appears, presents a startling image of a genuine bull-dog, with his cropped ears erect, and his eyes eagerly and menacingly fixed upon an intruder. I must do the engraver the justice to say that it is nevertheless said to be a faithful likeness of the redoubtable "General." It is a curious circumstance connected with the issue of these notes, that the genuine and the counterfeit (well executed, too,) were put forth at the same time. Such a state of facts, in view of the rigid exclusion of outsiders, and even of all other officers and employees of the Treasury Department, from that portion of the building appropriated to preparing these notes, excites queer remarks, not always expressive of confidence in the parties immediately connected with the matter. The plan of preparing this currency, as well as the bonds in the Treasury building, has been the source of much trouble and, it is feared, even fraud.

The coupons of the bonds were printed, signed, sealed, stamped and numbered under the control of a single man, who was in reality almost irresponsible. It is averred that there are in circulation a goodly number of gold-bearing coupons of which the Government has no knowledge, and that it is impossible to ascertain the amount of the national debt within a number of millions. This merely common talk; I will not vouch for the truth of it.

The method of printing these small notes, too, is peculiar. The Treasury Department is provided with a large number of the most approved hand-presses, which do the best work on steel plate; the gentleman in charge, (whose face, by the way, appears on the new five-cent notes,) enjoys a *penchant* for hydraulic printing, and has filled one immense room with these presses, and keeps the ponderous machines running night and day, while the hand machines lie idle. To this may be attributed the astoundingly poor quality of the currency put in circulation.

Besides the very inferior quality of the work done by these machines, and its small comparative quantity, the expense attending them is far greater than the cost of running the hand machines. The first $300,000 of currency printed on the hydraulic presses cost the Government, I am told, more than its value. Fortunately, the Legal Tenders and the National Bank currency are printed by private responsible companies at New York.

On Monday Mr. Geo. Bancroft is expected to pronounce his eulogy upon Mr. Lincoln, in the Representatives' Hall. The programme, as published, seems to be somewhat exclusive. The pleasures of the day are to be reserved to the officers of government, (not below bureau officers) and to such satellites of Congressmen as may by their generosity become the favored recipients of tickets, of which each member has five.

Correspondents will of course be admitted. But there is much comment indulged in among those who do not belong to the aristocracy of Congress, nor to the favored press. Such a plan might suit very well the climate of France or Austria, but seems truly to be hardly the thing in a country where every man is a "peer of the realm."

Should I be so highly favored as to receive a ticket, for which I have already made *humble request*, I shall be pleased to transmit you a brief account of the proceedings. Should the aforesaid humble request be refused, as is quite likely to be the case, you must be content to accept with gratitude whatever account their generous condescension permits to go forth. R.

— There is less water in the Blackstone river than ever known before at this season of the year. At Woonsocket several of the mills are running either short time or only a part of the machinery. Many of the wells there have been dry since August.

— A visit by the parishioners of M. B. Angier of Sturbridge, Mass., on Monday evening, to their pastor, resulted in the gift of two hundred dollars in money, and valuable substantials for the household.

— The Rappahannock river was frozen over from bank to bank Sunday night.

NEW HAMPSHIRE ITEMS.

—— A shed and about 200 cords of wood were destroyed by fire in Milford Tuesday night, belonging to the Railroad Company.

—— Mr. J. Parmort of Lebanon fatted a cow the past season, which dressed as follows: The meat weighed 791 lbs., the tallow 112, and the meat 102. Total 1005.

—— It is stated that Rev. C. W. Flanders, D. D., of the First Baptist Society of Concord, N. H., has received a call to the pastorate of the flourishing Baptist church at Burlington, Vermont.

—— Mr. Samuel Way of Boston, a rich broker, is now in Paris, creating a great sensation by his splendid turn-out. It is said that Louis Napoleon is trying to buy his team. Mr. Way is a native of Lempster, this State.

—— It appears, that writs were issued in Concord on Saturday evening, against several Railroad Conductors, for embezzlement, and attachments have been made for $300,000. Also that James Whittaker of Hooksett, formerly a Canterbury Shaker, and two other persons not named, have been arrested for aiding in a fraud on the Railroad Corporations. One of these men had several hundred tickets which he said he had bought of the conductors.

BREACH OF PROMISE SUIT.—$24,000 DAMAGES AWARDED.—A breach of promise suit was tried in Wilkesbarre, Pa., recently attracting much attention. The plaintiff was an attractive lady 28 years of age, named Bradley, and the defendant a well-to-do widower of 62 years, named Reynolds. The jury grve a verdict in favor of the lady for $24,000, the whole amount claimed.

THE U. S. SERVICE MAGAZINE for February announces a change in its editorial department, but all those distinguishing features which have rendered it so popular heretofore will be retained. C. B. Richardson, publisher, New York.

☞ In Washington, one W. L. Fleming has published a card stating that he was "the mysterious man in gray" who called on Senator Wade about a month ago. He says that he called on Senator Wade, and that the Senator complained that while at the Charlestown Navy Yard he had made statements in regard to Kansas affairs prejudicial to himself. While there he opened a jack-knife and cut off a piece of chewing tobacco, and spit in the grate; but he made no hostile demonstrations, and none were made by Senator Wade. His own statement does not show him to be either a gentleman or a dangerous person.

— Canadian horses are coming into this country in droves, in anticipation of the twenty-five per cent. duty that goes into effect again next month.

— Property in Richmond, Va., is depreciating. A house that sold last September for $25,500 was offered at auction last week, and the highest bid was $17,000.

— The case of Ishmael Day of Maryland, who shot a man for trying to haul down the United States flag, was the only one among forty, decided upon favorably by the House Committee on Claims last week, in a meeting at which demands for private losses sustained by loyal citizens during the war were submitted.

— The Providence Bulletin says a large, heavy horse, belonging to George Newhall, got loose in its stable on Thursday night, and in the morning was found to have mounted to the attic by a flight of thirteen difficult steps, which it seemed impossible for him to retrace. It was necessary to cut away the floor and lower the animal from his sky parlor by means of ropes.

— A jury of inquest in the case of the man Holt, killed by a train breaking through a bridge at Bloomfield, N. J., on Thursday last, have found a verdict that the timbers of the bridge were rotten and unsound, and that the railroad company are guilty of gross and culpable neglect in not employing competent persons to oversee and keep in repair the bridges on their road.

— Joseph Crele, whose fame was advertised through the public press a year or more ago, as the oldest man in the United States, died at the residence of his granddaughter, near Portage, Wis., on the 27th ult., aged one hundred and forty-one years. He was born where Detroit now stands, in 1725.

— A discovery has been made at Toulon, France, where the iron-plated frigate Provence is undergoing repairs, which shows the danger that menaces the entire iron-coated fleet of France. The Provence was fitted out for sea only fifteen months since, and already a great number of her plates are nearly consumed with rust.

— A delegation of Alabamians have arrived in Washington to lay before the President an account of the condition of affairs in that State. They represent that the officials, from Governor Patton down, are using their power to oppress Union men, and that unless these officials can be compelled to change their course, loyal men cannot remain in that State.

A REMARKABLE MAN.—At the meeting of the stockholders of the Worcester Railroad Company recently, a resolution was introduced for procuring a testimonial to the President, Genery Twichell, for his services during the last ten years. Strange to say, Mr. Twichell objected to the resolution, from the effect it would have upon his successors and the other persons employed by the company, and when the mover pressed it, insisted on its withdrawal.

Another strange thing about Mr. Twichell is that he has never reduced the wages of his subordinates without himself submitting to the same reduction of his pay? Is it possible that he can be sane, without even a lucid interval of self-seeking?—*New Bedford Standard.*

— Neither learning nor wealth necessarily increases the substantial value of its owner. Probably the learned pig made no better pork than the common pig, and the Colchian ram with the golden fleece no better mutton than the ordinary sheep.—*Ex.*

According to this brilliant method of reasoning, a wild horse should be of the same value as one that is properly trained, and the untutored cannibal of as much worth to his fellow men as the inventor of the steam engine or the founders of this republic.

— A Mr. Dodd, of Warren, Ill., resolved to starve himself to death, and for nine days abstained from food and drink. He took a little rice-water daily after that, but had become too weak to rally, and died on the thirteenth day.

— The Great Barrington Courier says: "There are now living, in good health, in Monterey, an aged couple—Mr. James Freeman and his wife—whose united ages are 171 years, Mr. Freeman being 88 and his wife 83 years old. They have been married 67 years, and have resided where they now live for the last 58 years."

Courtesy, polite as Oil, what a splendid thing that J. Monroe Cole Metal Ink, is! Its family use, sparkling without unwholesomeness, every time washing day comes it saves more than half the labor; it only takes about one-third in quantity and only costs about the same as other soaps, besides leaving the clothes in a much better condition than where other soap is used. Surely no lady should undertake to housekeep without it. 48

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *economical, safe* and *valuable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading or sewing, and all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. It does not emit an offensive odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney; one drop at once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 37 Water Street, Boston.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Perry's Moth and Freckle Lotion, which is at once prompt, but perfectly harmless.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom can speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of the obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Local.

P. P. S.—The first annual meeting of the Portsmouth Philharmonic Society was held on the 7th instant, that being the anniversary of the meeting first called to organize the same. The reports of the Secretary and Treasurer show the new Society to be in a flourishing condition—with upwards of one hundred members on their rolls, and $100 or more in the treasury after paying all expenses—quite promising, the members seemed to think, for the first year.

The following are the Officers elected for the ensuing year:

President—Frank W. Miller.
Vice President—Charles H. Tompson.
Musical Director—W. K. Day.
Asst. " " E. B. Goodall.
Secretary—Geo. W. Marston.
Treasurer—E. A. Joy.
Executive Committee—Frank W. Miller, Gardner M. Goodrich, E. P. Davis, L. Edwin Martin, Albert A. Fernald, Warren K. Day, L. W. Brewster, John P. Hart.

The Society voted to give another Concert in this city during the coming Spring. The lady members also voted that females should pay an entrance fee, as well as the gentlemen, and likewise be subject to fines for tardiness or non-attendance without due excuse.

POLICE COURT, Monday, Feb. 13th.—Henry Leep, a marine who had been taking about "forty drops" too much, imagined that he was looking for a deserter, and very much against the wishes and desires of a respectable family on Hanover street, attempted to get into their house, with the view of securing the runaway. The City Marshal appearing in sight, Leep *leaped* over a back fence, and the Marshal *leaped* after him. He was caught, and fined by Judge Buford $8, and costs of court $3.86. Leep, the next time, "look before you leap."

"Steve" Dempsey, another marine, who glories in the thought, and asserts that his father was once Chief Magistrate of New York, "got on a time" Saturday night and was arrested by Marshal Kent. He made serious objections to proceeding with the officer and illustrated his feelings by striking the Marshal in the head. It is useless to say that his turbulent spirit was subdued, and he too passed the Sabbath in the *hotel de city.* He was adjudged to pay a fine of $5, and costs of court $5.74.

☞ Not many evenings since, Capt. Henry Libbey, of this city, while riding with his wife and child, in Kittery, was thrown from his sleigh at a bad place in the road, which upset the sleigh and threw all the party out. The horse ran up the road at high speed, and striking the horse of Mr. Spinney of Kittery, who was coming in an opposite direction, ran one shaft more than a foot into Mr. Spinney's horse, just back of his shoulder. Some gentlemen from this city, who visited the spot shortly afterward, to make observations as to the state of the road, were also upset there, and it is stated that two of the town officers of Kittery had met with a similar casualty there the evening previous. It is said that Capt. L. has addressed a note to the authorities of the town in regard to the matter, as the horse of Mr. S. will not be likely to recover from his injuries.

☞ Dr. J. G. Holland, so favorably known under the *nom de plume* of "Timothy Titcomb," will afford our Lyceum-goers an opportunity of listening once more to his sparkling discourse, this evening. Our neighboring town of Exeter will furnish the musical entertainment for the occasion.

☞ We understand that Com. Vanderbilt has engaged rooms at the Ocean House, Rye Beach, for the coming season, and will erect private stables for his horses. The claims of Rye to rank among the first-class watering places are fast being recognized as just.

Widows vs. Maidens.—A Richmond paper says that young men are scarce in that city, and maidens and widows in search of husbands very plenty. The latter seem to be most successful, and the editor, pleading in behalf of the maidens, says:

We do not think, in view of the great scarcity of men, that it is fair for widows to marry a second time until all the young maidens have secured husbands. The Legislature ought to attend to this matter, and protect the interests of young ladies, for without the aid of legal enactments the widows are sure to play the grab game. They will, therefore, have to be restrained by the strong arm of the law, as was done in the early colonial history of Virginia, when the House of Burgesses passed an act of the very character indicated. It was found that all the young men imported into the colony were at once caught by the widows, by superior wiles and stratagems, without any chance being allowed to the modest and retiring young maidens; so the Legislature took the matter in hand, and will have to do so again.

—The accident on the Flemington (N. J.) Railroad on Wednesday was in consequence of a broken rail throwing the train off the track. The locomotive was demolished by the explosion of the boiler. The engineer was killed and the fireman severely scalded. The cars did not go over the embankment, and none of the passengers were hurt.

—The Lowell Mills employ 1650 females.

—A boy's idea of having a tooth drawn may be summed up as follows: "The doctor hitched fast on to me, pulled his best and just before it killed me, the tooth came out."

—All the negro troops stationed at Macon have been mustered out, and the Telegraph states that many of them have contracted to work for the year on the plantations in the vicinity.

—The New Haven Palladium says the last new hat for ladies in New Haven is a "brown velvet dice box with a dead woodcock perched over the forehead of the wearer, trying to peck out her right eye."

—The Haverhill Publisher says it learns from undoubted authority, that Hon. E. J. M. Hale, has donated a liberal sum of money for the erection of a free Public Library, which is believed to be not less than $100,000.

—A gentleman from Texas says it is not known what has become of Senator Wigfall. It is considered certain that he has not crossed the State into Mexico, and if in the United States, his locality is secret. Many believe that he is dead.

—A reporter of the Chicago Tribune, disguised as a female, learned from a professional astrologist of that city that he was a widow, shortly to be married to a middle-aged gentleman, and to take a bridal trip to Europe.

—The St. Johnsbury (Vt.) Caledonian says that Ambrose Hastings, of Sutton, aged 72 years, in the month of October last visited a relative 45 miles distant, performing the journey on foot in one day; and after remaining one day with his friend, returned home the next day by the same conveyance as he went.

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

Important to the Afflicted.

DR. DOW continues to be consulted at his offices, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. After a long and close study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotles, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to the practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacos, and have often been disposed to write to you concerning the real value of your SELIZER APERIENT. It is a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELIZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiais, of Venezuela, who immediately recommended her to use EFFERVESCENT SELIZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

I trust that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacos, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of Patents furnished by remitting one Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has another reason to offer, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their application in the secure form that will ensure early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected appli cations SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are positively under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Marriel Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health; now rejoice in all that makes life desirable and man happy. The reader is aware that this class of the delicacy of this subject will prevent a more minute description of this terrible disease.

SELF PRESERVATION.

A book for everybody—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—250 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America for the sale of Dr. Vichet's celebrated Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the guidance of the public we have put up $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. Cure in every case warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

INGENIOUS ROBBERY.—At a jeweler's store in Maiden Lane, New York, Monday, a man selected four gold watches and tendered a thousand dollar bank note. The dealer examined the note, and finding it genuine, left it on the counter while he went to his safe to get change for the purchaser. No sooner had the jeweler gone to his safe than a man who had just driven up in a coach dashed into the store and clapped irons upon the purchaser's wrists, and informing the amazed jeweler that the prisoner had stolen a thousand dollars, suddenly discovered the thousand dollar note and seized it, saying, "By my soul, this is the identical bill!" and then thrust it into his pocket. "But," said the jeweler, "he has four of my watches." "Well, sir," responded the pretender, "he may have any number of stolen watches; but I as an officer, am not authorized to adjudicate; only the Justice can do that; I shall hurry the thief to the Tombs, and if you appear at once and make the facts known, I dare say Justice Dowling will give you the watches." The fellow bundled the prisoner off into the coach at the door. The jeweler went to the Tombs, and after waiting fifteen minutes, smelt a rat, and told his story to Justice Dowling, and that magistrate promptly enlightened him as to precisely what had happened. He was robbed.—*Boston Jour.*

☞ Adams & Co.'s Express Company's recent contracts with Southern railroads, by which the company has advanced large sums to aid in putting the railroads in working order in consideration of certain privileges, has provoked the ire of the new National Express Company, and legal proceedings have been instituted. We give the facts in one case, which is a sample of all of them.

The Virginia railroads alone have thus received three hundred thousand dollars:

"The Virginia Central Railroad and the Adams Express Company have entered into a contract in which it is reciprocally covenanted, *inter alia*, that the Adams Express Company will advance to the Railroad Company fifty thousand dollars as a prepayment of freight, which is to be earned from time to time by the Railroad Company, and will also provide cars for the carriage of their express matter, and that they release the Railroad Company from all liability except for the fraud or negligence of their agents and servants; and that the railroad company will carry the express matter of the Adams Company with their passenger trains for four years, and will not carry such matter in the same way for any one else during that time, except upon his advancing them a like sum of fifty thousand dollars, and otherwise submitting to all the terms and conditions of the contract."

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These *life-giving* remedies are now, for the *first time*, given only to proven disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for the day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back, and hold about, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest child.
For Cutaneous Disorders
And all eruptions of the skin, the **SALVE** is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Invariably Cure the Following Diseases:

WEDNESDAY, FEBRUARY 14, 1866.

THE EVIDENCE AGAINST JEFF. DAVIS. The following explains President Johnson's refusal to furnish Congress with certain information recently called for:

"ATTORNEY GENERAL'S OFFICE, WASHINGTON, JANUARY 31, 1866.

SIR:—Sundry reports of the facts going to show that Jefferson Davis, and other rebels, have been guilty of high crimes, have been made to you as as the chief executive officer of the Government. Most of the evidence upon which they are based was obtained *ex parte*, without notice to the accused, and whilst they were in custody in military prisons. The publication of it might wrong the Government or the accused, or both. Whilst I see that much wrong may flow from the publication, I cannot see that any good would come from it.

In my opinion, then, public and private justice alike demand that they should not be made public.

I am, sir, very respectfully,

JAMES SPEED, Attorney General.

To the President.

A WORD FOR NEWSPAPERS.—We clip the following article from an exchange. It is true, and we commend it to every man who has an interest where he resides:

Nothing is more common than to hear folks talk of what they pay for newspapers, advertising etc., as so much given in charity. Newspapers, by enhancing the value of property in their neighborhood, and giving the localities in which they are published a reputation abroad, benefit all such, particularly if they are merchants or real estate owners, thrice the amount yearly of the meagre sum they pay for their support. Besides, every public spirited citizen has a laudable pride in having a paper of which he is not ashamed, even if he should pick it up in New York or Washington.

A good looking thriving sheet helps to sell property, gives character to the locality, and in all respects is a desirable public convenience. If from any cause, the matter in the local or editorial columns should not be quite up to your standard, do not cast it aside and pronounce it of no account, until you are satisfied that there has been no more labor bestowed upon it than has been paid for. If you want a good readable sheet, it must be supported.—And it must not be supported in a spirit of charity, either, but because you feel a necessity to support it. The local press is the "power that moves the people."—*New York Trib.*

FROM MEXICO.—The N. Y. Herald publishes a letter from President Juarez to a friend in this country. He says that the enemy is consuming his last resources, and his forces are becoming demoralized. He is very hopeful of the Republican cause in Mexico, and says that, without the necessity of the United States taking any part in the war, they will be able to obtain to a definite triumph of the cause of national independence. The attitude assumed by the Government of the United States has been a great moral support to the Republican cause in Mexico. Maximilian has not the slightest idea of cementing his so-called throne.

The Herald's Mexican correspondent states that while in the vicinity of Vera Cruz there was an appearance of great commercial activity,—there is little reality in it, nearly all the merchandize arriving being for the French portion of the imperial army. Immense supplies of ordnance and ordnance stores recently arrived and have been forwarded to the capital.

COLORADO LEGISLATION.—Santa Fe dates of the 3d inst., say that the Legislature has just adjourned. It repealed the odious free negro law. The peon law was amended, making servitude under it entirely voluntary. A convention was ordered to frame a State Constitution. The election of delegates is to take place on the first Monday of March. The Constitution is to be submitted to the people on the last Monday of April, so that the State may apply for admission before the adjournment of the present session of Congress.

Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use helps weak stomachs and cures dyspeptic persons. Use it with cream tartar instead of soda. It is much better. Try it. Grocers and Druggists sell it. 28

— Henry Morris, a laboring man, who was engaged in chopping wood in North Kingston, R. I., fell and immediately expired, on Monday. His death was probably caused caused by continual exposure to the cold, producing congestion of the lungs.

— A seafaring man named Webster, who has for a short time been an inmate of the Marine Hospital in Providence, fell dead on Sunday afternoon, while walking in front of the hospital.

— Five men and twenty women were baptized in the river at New Bedford on Sunday, by Rev. Mr. Hook of Concord, N. H., assisted by Rev. Mr. Damon of Worcester, both of whom have been laboring at the Second Advent Church.

— A pair of lovers, fleeing from stern and cruel parents, were married in the cars near St. Louis the other day. Papa telegraphed to the conductor to send his daughter back, but he telegraphed back: "Never return a fair on this road."

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton, Sunday, Feb. 25.

—— A Levee was held in Nottingham, 31st ult., for the benefit of Rev. William Rogers, pastor of the Free Baptist Church.

—— A Levee was held in Fremont, 30th ult., the income to be for furnishing the new house of worship erected there.

—— An immense Levee was held in Epping on Tuesday evening, 23d ult., the proceeds of which are to be devoted to obtaining a bell for the Methodist Church at that place.

—— The friends of the Rev. E. Chapman of South Newmarket, filled his house to over-flowing, on Wednesday evening, Jan. 31, and left a present of between eighty and ninety dollars.

—— The Congregational Church and Society in Candia has contributed $14.85 for the American Tract Society, Boston: Epping Cong'l Church and Society, $6.25; and Mr. G. C. Lyford, Exeter, administrator of the estate of Miss Elizabeth Gilman, has paid a legacy made by her of $250. Also $250 to the American Bible Society.

—— Moody Kent, the wealthy lawyer of Concord, lately deceased, has made some fifty legacies to various individuals and objects, and constituted the New Hampshire Asylum for the Insane a residuary legatee. His will has not yet been made public.

INSURANCE AT NEW MARKET.—The Exeter News Letter gives the following list of losses by the late fire in New Market, and the insurance:

Charles D. Garland, dwelling house and outbuildings—loss $1500, insured in the Atlantic at Exeter for $725.

Mrs. Maria Watson, two dwelling houses, &c. Loss $5500. Insured in the Cocheco at Dover for $2200.

Nancy Cheswill and Margaret Eastman, dwelling house and bake house. Loss $1500; no insurance.

S. J. COURT.—In the action Thomas G. Judd v. town of Brentwood, the jury after 28 hours deliberation returned a verdict for Defts. Exceptions filed and case transferred.

James P. Packer v. Robert B. Weeks and Frank G. Pickering, Trespass. The Deft's are in possession of the premises in question, situated in Greenland, and formerly property of George W. Odell, and claim by virtue of levies of execution upon the same. The premises were conveyed by said George W. Odell to George Odell, and by him to Andrew Wiggin, who in turn conveyed the same to the plf. in this suit. The defendants contend that the conveyance from George W. Odell to George Odell was fraudulent and void. The evidence was closed on Saturday.

ALMOST A CENTENARIAN.—Died, at the residence of her son-in-law, Mr. Edmund Rowell, of Kensington, Mrs. RUTH MARSHALL, of Hampstead, aged 99 years, 6 months and 23 days. Mrs. Marshall was born in Sandtown, July 15, 1766, [her maiden name was Ruth Fellows] married Silas Marshall, of Hampstead; has had ten children, and a large number of grandchildren and great-grandchildren. In the infirmities of her great age, she was calm, patient and cheerful; and at last passed away to her rest with but little suffering or pain. Her hundred years of life embrace some of the most important periods of American history. When in her last years she saw the young men (among whom were some of her descendants) who lost their lives to save this country, she could also remember as young men the soldiers of the Revolution. *News Letter.*

☞ On Monday in the Capitol at Washington, there was a great assembly to listen to a Discourse in Memory of President Lincoln. Mr. Bancroft spoke two hours and a half. His remarks were listened to from first to last with marked attention, and his allusions to Emancipation were especially cheered. President Johnson was present, and appeared to understand Mr. B's. allusions to this subject, and to see what instruction was given him by this intelligent audience. Mr. B said:

As the sum of all, the band of Lincoln raised the flag; the American people was the hero of the war; and therefore the result is a new era of republicanism. The disturbances in the country grew not out of anything republican, but out of slavery, which is a part of the system of hereditary wrong; and the expulsion of this domestic anomaly opens to the renovated nation a career of unthought-of dignity and glory. Henceforth our country has a moral unity as the land of free labor. The party for slavery, and the party against slavery, are no more, and are merged in the party of union and freedom. The States which would have left us are not brought back as conquered States, for then we should hold them only so long as that conquest could be maintained. They come to their rightful place under the Constitution as original, necessary and inseparable members of the State.

[If so, we certainly have "coerced a State" back into obedience.]

WASHINGTON ITEMS.—There is much difference of opinion as to whether the President will sign or will veto the Freedmen's Bureau bill: Speaker Colfax is confident that he will sign it, while others declare positively that he will veto it, in accordance with the advice of four of his Cabinet.

The statement by Senator McDougall that Gen. Butler's brother made two millions of dollars in New Orleans—as his will now on file in the Surrogate's office in New York would show—is contradicted by the statement that Col. Butler's will does not mention the value of his estate, and that the inventory on file shows only some ninety thousand dollars in all.

THE WATCHMAN & REFLECTOR.—This Religious and Family Paper whose advertisement appears in our supplement of today, stands confessedly among the first journals of the country in ability and influence. It is one of the *live* papers, discussing in a catholic spirit the great social, literary, moral and religious movements of the age. Its able articles on the leading statesmen of this country and of England, and its brilliant critiques of Metropolitan Preachers, have attracted much attention and comment the last year. It announces as will be seen, a fine list of contributors for the present year.

☞ The Saco Democrat says Rev. Geo. M. Payne, who for the last year has been the pastor of the Christian Baptist Church, Oginquit, was agreeably surprised Wednesday evening, Jan. 24, by members of his church and society, and made the recipient of $75, as an expression of their esteem for him and their appreciation of his pastoral labors.

☞ The New York Weekly Magazine, which is also issued in handsome Monthly parts,—is one of the most interesting among the new publications. The story, "How I made a fortune in Wall Street, and how I got married," is rich, rare and racy indeed.

COTTON IN NEW HAMPSHIRE.—Mr. Geo. D. Bartlett of Brentwood, N. H., has laid upon our table, says the Manchester Mirror, a boll of well-ripened cotton raised by him the past season. The seed was planted May 1st, and the plant came to maturity Oct. 15. Some of our soldier friends pronounce the specimen rather small beside some they have seen "down South;" but the cotton looks nice and will do for New Hampshire we think.

GOLD, Tuesday, 138 1-2.

— The Nantucket Inquirer chronicles the death in that town, on the 3d inst., of Mrs. Lucy Cooper, a colored woman, aged about 110 years. She was brought from Africa, a slave, to South Carolina, where she toiled as a field hand until 1811, when she was brought to Newport, R. I., whence she fled to Nantucket on account of the cruelty of her mistress.

— Not long since there was a dancing party at the house of Mr. Scott, near Avena, Lawrence county, Alabama. The weather was very warm in the early part of the evening, but it had become exceedingly cold when the party broke up, heated and fatigued. The company went home; two of them died the next morning, and seven have since died.

To the Honorable Judge of Probate for the County of Rockingham in the State of New Hampshire.

Respectfully represents EUNICE HODGDON of Portsmouth in said County, that CHARLES HODGDON of said Portsmouth has lately deceased, intestate, having, at the time of his decease, a family homestead, situate in said Portsmouth, described as follows, viz: Bounded easterly by the road leading from Portsmouth to Newington, southerly by land of Mark Pray and a lane leading to the same, westerly by land of Butterfield Carkin, and northerly by land of Samuel Cleaves, with the dwelling-house thereon; that your petitioner is Widow of said deceased, and has been and still is in the occupation of said premises; that no release or waiver of the right of dower and has been made; that there are no minor children of said deceased.

Wherefore she prays that a homestead of the value of five hundred dollars be set off to her agreeably to the statute in such case provided.

EUNICE HODGDON.

Dated the ninth day of January, A. D. 1866.

ROCKINGHAM, SS. Probate Court at Portsmouth in said County, January 9th, A. D. 1866.

Upon the foregoing Petition it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Exeter in said County, on the Wednesday next following the first Tuesday of April next, at ten o'clock A. M.; and that the Petitioner notify all persons concerned or interested therein to appear at said Court, and show cause if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the DAILY MORNING CHRONICLE, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

By order of the Judge,

THOMAS LEAVITT, Register of Probate.

To the Honorable Judge of Probate for the County of Rockingham.

Respectfully represents EUNICE HODGDON of Portsmouth, in said County, that CHARLES HODGDON, late of said Portsmouth, deceased, died intestate, leaving no lineal descendant; that said deceased at the time of his decease was seized of certain real estate, situate in said Portsmouth, containing about thirty three acres, described as follows: bounded easterly by the road from Portsmouth to Newington, southerly by land of Mark Pray and a lane leading to same, westerly by land of Butterfield Carkin, and northerly by land of Samuel Cleaves; that your petitioner is widow of said deceased, and by law entitled to one half of all the estate remaining after the payment of the debts and expenses of administration, in addition to her dower.

Wherefore she prays that a committee may be appointed to set off and assign to her in severalty her just share in said real estate, in addition to her dower, agreeably to the statute in such case provided.

EUNICE HODGDON.

Dated the 9th day of January, A. D. 1866.

ROCKINGHAM, SS. Probate Court at Portsmouth in said County, January 9th, A. D. 1866.

Light! Light! Light!

PHOTOLEUM.

This is a new illuminating, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever offered the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does not *diminish*, but continues the same until every drop of oil is consumed. It is, therefore, the best article for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 87 Water Street, Boston.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the disfiguring spots show most plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin* is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving
THIS VITAL FLUID FREE,
to aid a weak "locality" to recover its proper and necessary "status" or health.

BRANDRETH'S PILLS have affinity for the
SUBJECT MATTER OF DISEASE,
and cause its
CERTAIN EXPULSION FROM THE BODY.

PORTSMOUTH MECHANIC ASSOCIATION. The "Associated Mechanics and Manufacturers of New Hampshire"—one of the noblest institutions in the city, and which should always have been one of the most prominent—is coming to occupy its proper position before the public. An important feature has been the establishing of the fine Reading Room and Exchange, during the past year; which has drawn public attention to the Society and its advantages, and new members are coming in rapidly. Every mechanic and manufacturer, (who alone are eligible,) should be enrolled in this most noble fraternity of the bone and muscle of the community; and other business men, or men of leisure, can enjoy the advantages of the Room for a trifle yearly.

The establishment of this Reading Room, free to members and their apprentices, fills in some part the desire long felt and often expressed, for a place of entertainment, open without cost to both sexes, similar on a small scale, to the glorious Cooper Institute of New York; and we hope to see this effort of the Mechanic Association, result in permanent benefit to themselves, the Society and the community, as it can hardly fail of doing.

At the regular Quarterly Meeting of the Association, last week, eight new members were voted in; and it was decided to double the annual assessment, which will now be $2. per year. A committee have also been authorized to report on the matter of increasing the admission fee, which is graduated according to age.

The old fashion of having a public celebration, oration, dinner, &c., each year, which has been omitted of late for lack of a suitable hall; will probably be revived in the coming Fall; when the elegant new banner, rolls, &c., will be displayed, if not sooner. The old Mechanic Association is bound its light shall no longer be hid.

☞ The Morning Star (Freewill Baptist paper) says:—Rev. C. E. Haskell has resigned the pastorate of the church in Portsmouth, to take effect the last Sabbath in March. He is ready to correspond with any church wishing a supply or a visit with a view to settlement. Bro. Haskell says:

"Permit me to say for the brethren here, that they have done nobly, pecuniarily, for the support of their meeting, and the cause of benevolence, since I knew them. May the Lord send them a better minister, is the prayer of their unworthy servant."

☞ The tenth and closing lecture of the Citizens' Lyceum, will be given Friday evening, Feb. 16, this week, by Prof. J. W. Patterson of Dartmouth College. The lecture will be preceded by a Concert by the Portsmouth Cornet Band. It being possible for Prof. Patterson to leave Congress but a few days, and only at this time of the year, the Lyceum Committee unavoidably are obliged to give two lectures in one week, and thus close the Lyceum course a fortnight earlier than last year.

☞ We have heard of many reasons for breaking a contract, but the latest is like unto this: On the first of the year—that season when so many good resolutions are formed, for the sole purpose, it would seem, of being broken—quite a number of our young men signed a paper pledging themselves to abstain from the use of alcoholic beverages. Not long afterwards one of the signers was detected in the act of placing himself outside of a glass of whiskey, and upon being reminded of his pledge, replied: "Oh, that's nothing; 'twasn't legal—it had no stamp on it."

☞ We reckon Josh Billings will hardly be able "tew buy the Navy Yard" with the proceeds of his lecture here on Monday evening. The storm and bad walking allowed him only a thin house; but the audience seemed to appreciate and enjoy the joker; who really made some fine hits, though we suspect he was hardly at his best, under such circumstances. Josh is a character, sure; and there is much sense in his nonsense, after all.

☞ Rev. A. J. Patterson of the Universalist Church in this city, has had his salary increased $300—unsolicited and unexpected on his part, but most thoroughly deserved and faithfully earned.

☞ Cornelius Lynch, a laborer, fell from a gravel train on the Eastern Railroad, Tuesday forenoon, near the Newburyport station; the wheels passed over him, and he died shortly after the accident.

☞ A thaw, begining on Sunday, and lasting till Tuesday, has dissolved our sleighing, and wagons took to their wheels on Tuesday. We presume some Mill wheels began to revolve about the same time.

☞ This is Saint Valentine's Day, Feb. 14th. One would think from the little attention given to it, publicly,—that love-making had gone out of fashion; but we guess its not so bad as that.

☞ Among all the other good things for this week, don't forget the Cornet Band's Concert. We give in the advertisement, their programme for Thursday evening, which it will be seen is a rich one.

☞ The horse injured in Kittery the other night, belonged to Mr. L. C. Cook of York, and not to Mr. Spinney as stated. His being put up at Mr. Spinney's public stable, probably led to the mistake. The unfortunate animal, Mr. Cook tells us, is no better.

☞ Mr. Wendell offers a large variety of goods at auction this morning. Also, sales in the afternoon and evening.

THROAT DISTEMPER IN KINGSTON AND HAMPTON IN OLD TIMES.—This malignant disease, which proved very fatal, first made its appearence in Kingston, early in 1735. It was first in a family by the name Clough, then in Dea. Elkins' and a Mr. Webster.

It was new to physicians and baffled their skill. The next year it appeared in Hampton, and between 55 and 60 died of it. Eighteen years later, i. e., in 1754, it appeared again in Hampton, and in a few months 37 died of it. At the same time it raged, again, in Kingston, and many died.

Dr. Josiah Bartlett had a little before commenced practice there. He was then a young man, but of excellent judgment, and had broken away from rigid medical rules. Some mention of this disease was in old medical works, but Dr. Bartlett by patient study and observation, ascertained that it was putrid instead of inflammatory. One of his own children, being sick with it, he tried the experiment of using the Peruvian bark. The result was happy, and he used it in other cases with good results.

This Dr. Bartlett, in 1776, was a signer of the Declaration of Independence, and after the war he was Governor of the State. He died May 18, 1795, aged 64. A monument is erected over his resting place, in the grave yard at Kingston Plains.—"*J. F.*" *in News Letter.*

☞ Rt. Rev. Bishop Fitzpatrick, of the Catholic Church, died in Boston on Tuesday. He was a native of that city.

THE GREAT WEST.—Homes of the sturdy farmers who look about them over the broad prairies, and see for miles their lands and granaries, are often rendered desolate by the death of a beloved child from the ravages of the deadly Croup. Coe's Cough Balsam never fails to cure it, and is also the best remedy in the world for Colds, Coughs, and all throat and lung diseases. Coe's Dyspepsia Cure is the only remedy known that is certain to cure Dyspepsia, Indigestion, and in fact all disorders proceeding from the stomach and bowels. f12—eodawlw

Holloway's Pills.—Costiveness.—The bowels become torpid and powerless under continual purgation. Holloway's Pills penetrate to the nucleus of the disease and eradicate it. They evacuate the foul and vitiated particles from the intestines, by a mild aperient operation and recuperate their exhausted energy, by restoring tone and vigor; they induce a healthy action and prevent a relapse of the malady. For Piles, Fistulas, Dyspepsia, and all disorders of the viscera, they stand without a rival. Sold by all Druggists. F9—1wdaw

—DEALERS IN—
S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

PHILADELPHIA MORALS.—A correspondent of the Boston Recorder writes from Philadelphia as follows:

We have had petitions sent by clergymen and laymen, to both Mayor Henry, who went out of office this year, and to Mayor McMichael, who came in at the same time, praying them to enforce the law against selling liquor on the Sabbath. Mayor Henry answered that he had no power to enforce the law—an answer altogether unbecoming a good magistrate. Mayor Henry knew that a poor woman had been taken up four times and fined for *selling* molasses candy on the Sabbath.

We are *sold to liquor*. Boston has been bad enough, but it is not in sight of Philadelphia as a drinking place. Why, a clergyman stated in a large meeting the other night, that there were 8000 places where all this stuff, that poisons and makes drunk, is sold *without a license*. And there are nearly 4000 *licensed* places. Just think of that—among 700,000 persons, there are 12,000 of these dens, from each one of which goes forth a stream that burns and scorches like the lava of a volcano. A clergyman says he walked around the Square on Sunday night, and saw seventeen women drunk. Still, we have a beautiful city, like the lovely valley which "Lochboose him," and fast going to destruction by the same means that "the cities of the plain" did, namely, "pride, fulness of bread, and abundance of idleness."

This does not show that the license system comes much nearer to perfection than does the prohibitive law. How it might be, were the law really *enforced*, is another question.

INTERPRETATING DREAMS.—To dream of a millstone around your neck is a sign of what you may expect if you get an extravagant wife. When a young lady dreams of a coffin, it betokens that she should instantly discontinue lacing her stays tightly, and always go warmly and thickly shod in wet weather. To dream of fire is a sign that if you are wise, you will see that the lights in your house are out before you go to bed. To dream that your nose is red at the tip is an intimation that you had better leave off brandy and water.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 Endicott STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and cheap board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotiles, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the great value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiala, of Venezuela, who immediately prescribed her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. C. HENRIQUEZ,

Merchant, Curacoa, S. A.,

New York, June 28th, 1865.

WE ASK

The suffering million in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Copies, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that SUCCESS ATTENDS THE ATTEMPT AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITIES, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the chances for procuring patents so favorable.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,

Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending; Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications, which were *REFUSED*, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Want of Confidence, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor.

Dr. W. R. MEEWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Stricture of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, *curing recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Cherokee, One Bottle, $2, Three Bottles, $5. " Injection, " " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by professors and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, in order to deceive customers, by offering cheap and worthless compounds,—in order to make money—in place of these: *Be not deceived*. If the druggists will not buy them, tell them to obtain and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or Gentlemen can address us in perfect confidence. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address letters, pamphlets, medicines, or advice, to the sole proprietor,

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Impregnants, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

A MYSTERIOUS VISITOR.—The night after King Charles the First was beheaded, Lord Southampton and a friend of his got leave to sit up by the body, in the banqueting house at Whitehall. As they were sitting very melancholy there, about two o'clock in the morning, they heard somebody coming very slowly up stairs. Soon the door opened, and a man entered, much muffled up in his cloak, and his face quite hid in it. He approached the body, considered it very attentively for some time, and then stook his head and sighed out the words, "Cruel necessity!" He then departed in the same slow and concealed manner as he had come in. Lord Southampton used to say that he could not distinguish anything of his face, but that by his voice and gait he took him to be Oliver Cromwell.

— A house in Springfield, Mass., was gutted on Sunday by a party of negroes because it was occupied by two persons of opposite color and sex.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a good *fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* nl—dawGm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are **now**, *for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these*
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and Sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that must be.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Portsmouth, N. H.

THURSDAY, FEBRUARY 15, 1866.

THE PIRATE WADDELL.—Capt. Waddel, commander of the rebel pirate Shenandoah, who is now in Liverpool, has written a letter to a friend in Mobile, which is made public in the Mobile News. Waddell expresses bitter disappointment at the result of the war—says the South played false to her cause—he has very little respect for her, &c. He says he is far from being a ruined man, and will not go to sea again if he can help it.

[This is wise, for if he should chance to meet in any port, some of the captains and part owners, whom he has robbed, his chance for a broken head would be considerable.]

He closes his letter thus:

"The Shenandoah, under sail, is a sixteen knot vessel; under steam, nine knots; a fine sea craft. She ran from the Arctic to Liverpool in 130 days; from the line on the Pacific side to the Cape in 26 days; from the Cape to the line on the Atlantic in 26 days; and from the line to Liverpool in 24 days."

So ends my naval career, and I am called a "pirate?" I made New England suffer, and I do not regret it. I cannot be condemned by any honest thinking man.

See the bitterness of this miserable creature, *rejoicing* that he made New England suffer:—but does he not see any cause for *regret*, that he and such as he, have made the whole South suffer a vast deal more?

☞ The American Freedmen's and Union Commission is urging Congress to grant General Howard's application for three millions of dollars, to be used for special purposes among the freedmen. The amount asked for is not to be expended, but only invested for one, two or three years, until the people in each locality become able to purchase at the original cost, the sites and buildings of which the United States have temporarily afforded them the free use. The Commission say that if provision be not speedily made for school-room accommodations to replace the churches, sheds and shanties now rapidly disappearing, and in many instances also for teachers' lodgings in localities where no white family will permit a "nigger teacher" to cross the threshold, instead of enlarging the work, it must be greatly diminished.

CONNECTICUT.—The Hartford Press says: "The telegram from this place concerning the Republican caucus on Saturday evening conveys an altogether unjust impression. Postmaster Cleveland was not hissed for indorsing the President, nor did the meeting break up in confusion, though there were some lively personalities. It transacted all its regular business and adjourned. Delegates to the State Convention were elected, who emphatically oppose any division of the party, and who indulge no hostility to either the President or Congress, but ask of both a just settlement of the national troubles."

DISTILLERIES CLOSED.—All the distilleries in Huron County, Ohio, except one, were closed by the Government on Saturday, for alleged violation of the revenue law. The inspector had previously been placed under arrest on the charge of sanctioning the violation.

☞ Kentucky is showing the fashionable style of "conservatism!" On Tuesday, a dispatch says, the Kentucky Senate adopted the House resolution requesting the removal of troops from the State, condemning the Freedmen's Bureau, asking for the restoration of the habeas corpus, and rejecting the constitutional amendment.

☞ In Boston, at a late meeting, the proprietors of the New South Church voted to sell their property, if consent can be obtained from the Supreme Court, and divide the proceeds among the proprietors according to law, and dissolve the corporation. The report was adopted by a yea and nay vote—34 to 17—representing all the pews but five. This is the fine Octagonal Stone Church on Summer street and Church Green, formerly a retired place, but now quite public and noisy. The denomination is Unitarian, and the attendance there for several years has been small.

— In Boone County, Ky., returned rebel soldiers are murdering negroes, and have ordered the departure of the Government officials. A military force has been sent to quell the disturbance.

— In Newburyport, last week, a son of Mr. Charles Lunt, while bringing a hod of coal from the cellar, trod upon a cat and was thrown to the foot of the stairs. He was not supposed to be much hurt, but died from his injuries on Monday.

— M. Von Born, a banker in Dortmund, Germany, lately made excavations in the neighborhood of Frankenhausen, in the hope of finding copper, and in doing so has discovered the largest and most beautiful caverns in all Germany. The two largest are eight hundred and six hundred feet in length respectively, and about one hundred and thirty feet in breadth, and forty to fifty feet in hight. The third cavern is also several hundred feet long.

[Communication.]

INCONTROVERTIBLE FIGURES.—*Messrs. Editors:*—In my last communication, near the close, I alluded to the Mayor's closing comparison of $8,669 expense of a farm in four years of peace, with $17,772 for four years of war; and only remarked that no one need be surprised thereat, as every business man knew that expenses of family, farm and business were doubled, and in many cases trebled, by war prices.

I did not stop then to controvert the Mayor's *figures*, nor do I intend to do so now,—for his additions and subtractions are no doubt correct; but I propose to examine the basis on which his calculations rest, and, taking *his figures for my guide*, to show that no such great leak exists, or has existed, (except on paper) as his arrangement and explanation of figures seem intended to imply.

"The statements made by His Honor the Mayor, (say the Overseers) are mostly made from estimates made by the Superintendents." This will not be denied: indeed his statement shows it. He tells us that the *estimated* expense of keeping stock, in Mr. Moses' four years, was $2500, and in Mr. Norton's four years $2504.

Now if the stock had been just the same in both periods, and hay at the same prices, both estimates might be right; but the stock was *not* the same, for in Mr. M.'s time it was 16, and in Mr. N.'s 21, as the Overseers tell us. This increase of stock, if hay were the *same* price, ought to have made the estimate $3821; but hay was *not* the same price,—for the Mayor tells us that in Mr. M.'s four years, the average price of hay was $15.25 per ton, and in Mr. N.'s it was $19.12 1-2. Now it 21 cattle will cost $3,281 for hay in the winter, at $15.25, how much will they cost when hay is $19.12 1-2 per ton? Answer—$3,917.

This shows either that M.'s estimate was too high, or N.'s too low; but M.'s was *not* too high,—for the Mayor says that in Moses' four years, there was "hay and other stock food *unaccounted for*, $2,074." It may, however, be easily accounted for by supposing that the cattle ate one-quarter part *more* than the estimate, and that the quantity and value of the hay was *less* than the estimate.

Now apply these same suppositions to Norton's time, and we shall see his estimate for stock keeping rise to $3900 and odd; and the $8700 accounted for in part, with the remainder only estimated, that is guessed at! and undoubtedly estimated too high.

Another point of comparison is made by the Mayor, viz., that the *other* expenses of the farm, as charged by Moses, were $4,095; and by Norton, $6,575. Supposing, as I do, Mr. Moses to have charged correctly, then Mr. Norton kept these expenses very *low* indeed, and must have managed with great economy; for while most expenses have at least doubled, these are only increased from 41 to 65.

The Mayor tells us that Mr. Moses' *crops*, when hay was $15 per ton, were valued at $18,973; but Mr. Norton's, when it was $19, were valued at $28,148, that is, $9800 more; but while M. received $10,750 for sales, N. received only $11,315, that is, $565 more. The Mayor gives other comparisons, however, which *explain* this; viz. that the *value* of the hay *used* under Norton's administration was $10,318, and that of Moses $5,096; and that the income from hay by M. was $5.313, while Norton's income from hay was only $3,282.

Putting these figures together, it appears very certain:

1. That if a farmer keeps stock enough to eat up his hay, he cannot have much to sell.

2. That when hay is $20 a ton, it costs more to winter out a stock than when it is $15.

And then, as the Overseers tell us that some cattle are killed on the farm for the inmates, it will appear—

3. That while it may be real economy on the whole, to fatten and eat such meat there, it does not add to the receipts in cash; it only diminishes the expenditure in another direction.

4. That the *receipts in money* of the city farm, in Mr. Norton's 4 years, are $1215 more than in Moses' 4:—This last fact,—put in connexion with the Mayor's statement about the comparative value of hay consumed under the two administrations, shows conclusively, that nothing of any great amount can have leaked out, at the Alms House, except wind, which has inflated the *estimates*, and manufactured some gas for the newspapers.

Lastly, if any would like to know how such a large *value* of vegetables, meats, &c. are consumed at the Alms House;—let them look at the City Accounts of a year ago, and they will see that the city received from Rockingham Co. $1805 for County Paupers there; and when told that the Co. pays $1.25 a week for their board, they will know that $2.50 would not overpay.—Let them look carefully, and individually and *closely*, into *all* the accounts for the last 9 years, of Overseers and Superintendents: and they will find, I think, economy, good judgment, and gradual improvement.

TAX PAYER.

☞ The new firm of J. C. Carr & Co., appears in our columns this morning for the first time—Mr. Carr, after judiciously conducting a large and successful business for almost a quarter of a century, having admitted to partnership with himself, Mr. Joseph Pettigrew, so well and favorably known as foreman of the establishment for many years, and Mr. Daniel E. Leavitt, late with Messrs. Spalding & Parrott. "There's nothing like leather," you know; and the new team we should say from long acquaintance with the parties, will be a strong one.

We are always glad to see capable and deserving young men promoted, whether in military or civil life; and we hope every man who "minds his business" as long and as well as friend Carr has done, may always have as comfortable a competency to show for it, as report gives him. The numerous patrons of No. 24 Market Street will be glad to know that the old proprietor is still to be found at the establishment, courteous and attentive as ever. Long may he abide.

☞ A. L. Jenness, Esq., sold at auction on Saturday last, the livery stable Lot on State street, near Middle, for $2175,—to Benj. F. Webster. Frank is a live man, and will make some good use of the lot, for himself and the city; and we are glad he had pluck enough to buy it. We wish there were more like him in our city. The next best bid, we understand, was by Messrs. Jones & Stoddard, who, it is reported, designed to put up another stable there.

☞ No business transacted in the Police Court on Wednesday, the Marshal and his assistants being busy reading their valentines. That's the penalty for having so good-looking a set of men in office.

☞ We understand that Mr. Hallett, of Boston, has been engaged as organist of the North Church in this city. Mr. Hallet is a gentleman of fine musical ability; and we are pleased to learn he intends locating here as teacher.

ENTERTAINMENTS EXTRAORDINARY.—Commodore Foote and suite, the three smallest people in the world, accompanied by the Continental Vocalists,—said to be the best quartette in the country, will give a series of entertainments at the Temple, commencing Monday next. We copy the following from the Boston Transcript:

"The Lilliputian Trio at Tremont Temple—Commodore Foote, Miss Eliza Nestelle, and Col. Small—three pocket editions of humanity, whose miniature proportions are unexcelled for diminutiveness—are now giving entertainments nightly at the Temple. The Commodore is at home on the stage, as he is in riding in the miniature vehicle constructed for his accommodation, and sings and dances well, besides making fair speeches in German as well as English. Col. Small is a dancer who cannot be beaten by any professor in his line, of whatever age or size. His is a comic turn of irresistible character. Besides the above attractions, the original 'Continental Vocalists' sing some of their most popular pieces. As a quartette, these vocalists can hardly be surpassed in performing popular music. Their contributions to each evening's entertainment are worth more than the whole charge of admission."

—— A man named English, a discharged soldier, has got into jail at Concord, charged with swindling, by means of forged orders.

— The Virginia Legislature has chartered a land and immigration company for promoting the settlement of that State.

— A special dispatch to the Herald from Richmond, Tuesday, has the following: "The Examiner office was closed at 9 o'clock this evening, by order of Gen. Terry. The order is said to have emanated from Gen. Grant."

SOUTHMAYD'S CANDIES. — We are pleased to refer our readers to the advertisement of J. K. Southmayd in another column. He is one the of best confectioner in New England, and to say that a candy comes from Southmayd's, is recommendation enough for the most aristocratic families in and about Boston. Some of our confectioners ought to make a speciality of Southmayd's. His "Molasses Candy" is a rarity that never finds its way here. His "Balsam of Tolu Candy" is as popular as dress goods from Stewart's. Who will introduce Southmayd's confections to this market? Hundreds of our readers always visit his place when in Boston, and bring home a bundle of good things. 1tbn

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *economic* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 87 Water Street, Boston.

☞ For sale in Portsmouth by BAILEY & GLINES, 73 State St., at wholesale and retail.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this admirable remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Please inclose a post-paid envelope, addressed to yourself. Address,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spots) and Freckles, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

☞ An attempt to raise a false alarm of fire on Tuesday evening proved a failure, though a few taps were elicited from the bell of the North Church before it was stopped by the Police. The old fable teaches us what may be expected if we cry "wolf! wolf!" when no wolf is here, and we shouldn't care if the damage fell upon the jackanapes who think it such "jolly fun" to create an alarm; but alas, in this case the thick-headed idiots who cry "wolf" haven't anything to burn, and if they were burnt themselves would prove no loss. Our reporter wishes us to inform them that they have his "warmest wishes for their future welfare."

☞ The Concert to-night, by some of the best of our home musicians, offers a feast to the lovers of music, and in itself and its object, (the benefit of the Cornet Band) is eminently deserving patronage. We regard it as refreshing, that at last there is some home talent available for public use and enjoyment—and so good too. The Cornet Band will give some of their finest pieces, and Miss Foster and the vocal quartet will make up a very agreeable variety. Mr. Day, who has done so much for our home music, will preside at the grand pianoforte. We hope to see the Temple full.

☞ In the U. S. District Court, Portland on Tuesday, the trial of Edward Fenton for aiding and abetting Daniel Sanborn in stealing copper from the Kittery Navy Yard, was concluded. Mr. Putnam made the argument for the prisoner, and the District Attorney, George F. Talbot, Esq., followed for the prosecution. The case was given to the jury by Judge Ware, and they returned a verdict of guilty.

LARCENIES AT KITTERY NAVY YARD. The United States District Court has been occupied several days in trying cases of larceny of copper from the Kittery Navy Yard. David Sanborn, who stole the copper, pleaded guilty, and then implicated Edward Fenton, who keeps a boarding house and bar-room near the yard, in the transactions, —alleging that Fenton induced him to steal the copper, and that he (Fenton) disposed of it afterwards. Fenton was convicted of the offense yesterday, although ably defended by eminent counsel.

To the City Marshal of Portsmouth is the credit due for ferreting out these larcenies upon the property of the United States. He has followed up the matter with great judgment and sagacity, and has succeeded in convicting not only the person who was guilty of the larceny, but also the greater criminal, the man who led his victim to commit the crime.—*Portland Press.*

☞ Among the attractions at the Atlantic House, Rye Beach, we omitted to mention, the other day, that mine host Lougee has recently procured a splendid new 7-octave Piano-Forte, of the sterling brand of Hallet, Davis & Co., Boston—quite a pleasing contrast to the wretched jingling-boxes too often inflicted on the musical guests at such hotels.

☞ Dr. Holland's "Lecture" on Jonathan at School," before the Lyceum last Tuesday evening; proved to be a splendid Poem, on the lessons learnt by the war—and it was a remarkable production, eminently worthy the author of "Bitter-Sweet." The musical "entertainment" on this occasion, was piano-playing by Messrs. Towle and Thing of Exeter, who gave us some very acceptable duets.

And "Timothy Titcomb's" round and flank rhymes of an hour, were listened to with wrapt attention by a deeply interested and highly gratified audience. His eloquent and just tribute to President Lincoln, was one of the most glowing apostrophes we ever heard; and the whole production was full of sound sense and manly sentiment—a rare treat indeed; smoothly and ingeniously written, and beautifully delivered.

HEAT-CONTROLLING DAMPER. — Mr. Frank L. Marks, formerly of this city, now of Chelsea, is in town for a few days, fitting into funnels either of coal or wood stoves, a new patent damper, which is said to be a great saver of fuel and heat. It claims to be constructed on scientific principles, and has a large hollow globe or chamber in the centre, to catch and throw back the heat; while the smoke and gas escape in holes round the rim. Mr. Marks placed one in our counting room stove yesterday morning; and we are confident it will save a large percentage of wood or coal, keep much steadier fire and give good satisfaction. This damper is adapted for any sort of a close stove—whether to cook or heat, and also to furnaces. Orders may be left at Mr. Wells' store, Market St.

☞ That favorite old grocery stand, No. 1 Market Square, after a thorough refitting, is again open to supply the wants of the public. A glance at the well-filled store will satisfy the beholder that Messrs. Peirce & Packer are determined to sustain the good name which "No. 1" won so long since. Their advertisement enumerates but a moiety of their varied stock.

☞ The pay roll for January at the Navy Yard amounts to $66,411, to be disbursed this week to 1270 men.

TO THE LADIES.

Miss GUILD offers to the public her superior Crystal Palace Chart for CUTTING DRESSES, which is conceded by competent judges to surpass any invention of the kind ever offered to the American public. She feels fully warranted in saying that it is as perfect a fit as human ingenuity can render it, and should be in the possession of every lady. It is simple, easy, and graceful, adapted to fit every form and size, from little girls of seven years to the largest size. Directions printed in full on every Chart. None genuine unless the Crystal Palace is engraved on it, and the address of the inventress printed. Copyright secured, and no infringement allowed.

Agents are wanted in every part of the country. This Chart will be sent to any person on receipt of $2 addressed to
Miss LUCY GUILD, Rupert, Vt.

Ladies wishing a tape measure must include 15 cents extra.

Miss Guild warns people from buying, selling or using a chart called the National Chart by Miss Jane Eddy, Nashua, N. H., as it is an infringement of her copyright. Any person printing, selling or using the counterfeit chart will be prosecuted according to law. One Albert J. Warden has been extensively engaged in selling the counterfeit chart, and is supposed to be the perpetrator of the forgery. Any information leading to his arrest will be liberally rewarded.

CHAPPED HANDS, FACE, LIPS, SUNBURN, ETC.—CERTAIN AND IMMEDIATE CURE.—HEGEMAN & CO'S CAMPHORICE WITH GLYCERINE, if used according to the directions, will keep the hands soft in the coldest weather. Price 25 cents. Sold by druggists. Sent by mail, on receipt of 25 cents. HEGEMAN & Co., Chemists and Druggists, N. Y.

MOTHERS!

Children die by thousands—Worms the cause—whose lives might have been spared, had they used VAN DEUSEN'S WHITE CONFECTIONS.—Children are as fond of them as they are of candy. Sold by Merchants. 25 cents a box. Sent by mail on receipt of the price. VAN DEUSEN BROTHERS, Kingston, Ulster County, N. Y.

—DEALERS IN—
S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT, as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done me.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. KEIJQUER,
Merchant, Curacoa, S. A.
New York, June 28th, 1855.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Diseases Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1836,
78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Also, Reissues, Extensions, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES to Inventors, it is hoped and that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of obtaining their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN T. LEGGETT.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, SIXTEEN of which were decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and advise, who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that make life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER will remain the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes annually, establishes their value as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons the Agency can explain, which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Palpitation, Trembling, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists, or will be sent free of charge to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz:—*Gleet, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $1.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds, in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive the patronage of those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence*. We desire to send every thirty-five page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

CONCERNING "IMPORTED" FRENCH BRANDY.—A case has just been decided in the Circuit Court at Albany, the testimony in which throws some light on what people drink. Two casks of brandy had been seized, duly labeled as if of French manufacture, on suspicion that they had been smuggled. But the leading member of a firm in New York, doing a very heavy business in importing choice brandies and rare old wines, came forward to protest against this seizure as a high-handed outrage and a violation of the rights of property. He swore that the brandy, every gill of it, was manufactured in New York, and brought testimony to prove the habitual counterfeiting of that article; that the casks were made in imitation of the French ones, and dates eight or ten years past branded upon them; that immense quantities of this "French brandy" were sold; that it was made from Cologne spirit, flavored by oil of cognac and neutral; that this oil of cognac was what the witness did not know, but it was imported from Cincinnati; that it costs $2.50 per gallon to manufacture brandy in this way, and that there was not a drop of French brandy in its composition. The Judge ordered the casks to be delivered up to the claimant—His Honor saying that the case was the most extraordinary one which had ever come under his observation. The evidence showed an extensive and deliberate fraud, not only upon the public but upon the government officers, and it came with a bad grace from the claimant to set up as a defence that, because he had been successful in his fraud, he should enjoy immunity from the operations of the law. He trusted, however, that good would result from this exposure. He believed it would be worth to to the country all it had cost; and if there was a State law to punish such fraudulent operations as were developed by this case, it should be enforced.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. TO 9 P. M.
CERTAIN CURE
in all cases of Private Diseases. No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

VINELAND
FARM AND FRUIT LANDS,
In a healthy and beautiful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, and is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $30 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk.
Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like, and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* 1t—d&w3m

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth even
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, FEBRUARY 16, 1866.

WASHINGTON ITEMS. — On Thursday evening Frederick Douglass had a crowded audience to hear his lecture on the assassination of Abraham Lincoln, in the Presbyterian church—the use of which, for this purpose, was violently opposed by some of the pro-slavery owners, some of whom say they will never enter that house again!—Chief Justice Chase presided and there was a crowded audience, embracing many distinguished officials.

Gen. Butler has received from Lowell a flag for the use of the United States Senate, of American bunting, made in the Lowell mills for the American Bunting Company. And the Senators will no longer sit beneath a flag made of foreign materials, but under the first national ensign of home manufacture. It has been much admired.

The President has approved the act denying registers to vessels transferred to a foreign flag during the rebellion.

Senator Clark of New Hampshire made a great speech in favor of the Freedmen's Bureau Bill, on Wednesday.

☞ At Baltimore, Feb. 13, in the Mount Hope Insane Asylum conspiracy case, Miss Mary Fleming of New York, whose testimony the prosecution has endeavored to obtain each day of the trial, but successively failed, was recalled, and testified to having been brought to the Asylum by her sister and brother in December, 1858, from New York, that she was greatly distress at being confined there, that the Superior Sister Alesia told her that she was not insane, that she told the Superior how she came to be there, and that the Superior said she was not insane, and that family should not leave her there more than two months, that Dr. Stokes said the same, and still she was kept there nearly two years.—The case was summarily closed the next day, the Court sustaining the point made by the defence against the admission of evidence prior to 1865, upon which the prosecution abandoned the case.

EMIGRATION FROM THE SOUTH.—The Richmond Whig estimates that as many as fifty thousand young men from the Southern States have settled in Northern cities to seek their fortunes, since the war, owing to the lack of money and employment at the South. Brazilian and Mexican emigration are drawing off whole families—almost communities.

[Rather an extravagant estimate! 50,000 young men from the South come North, and in cities? Whew! we don't believe there is half that number, black ones included.]

☞ It is reported from Washington that the President, in a late Cabinet meeting, indicated his purpose to veto the Freedmen's Bureau bill, and was confirmed in that resolve by Secretaries Seward, McCulloch and Welles. The bill, as it passed Congress, was engrossed and sent to the President, on Saturday. The Boston Advertiser's correspondent says, however, on good authority, that the subject has not been before the Cabinet at all!

☞ In Vermont, the late storm was snow instead of rain. In St. Louis, Mo., four inches of snow fell on Tuesday night, and the thermometer was 10 above on Wednesday at 10 A. M. In Kansas the storm was heavy; at Leavenworth, Wednesday morning, the thermometer was 16 below!

SALE OF GOVERNMENT VESSELS.—The Charleston Courier says a late sale of government vessels at Hilton Head was well attended. The vessels brought good prices, and some of them were knocked off for more than they were really worth. The steamer Nellie Baker, we understand, brought between $17,000 and $18,000.

GOLD, Thursday, 137 1-2.

— The Republicans of Connecticut in State Convention at Hartford, on the 14th, nominated Gen. J. C. Hawley as candidate for Governor.

— Edward B. Ketchum, the forger, now at Sing Sing, is not employed in making shoes, as has been stated by the papers, but is a clerk in one of the offices.

— Virtue must be sought at any price and with earnestness; and prosperity modestly and with recognition. To ask is to receive, when we ask for real blessings.—*Joubert.*

— Gen. Weitzel, who has just been relieved from duty on our Mexican frontier, does not "consider the country watered by the Rio Grande worth going to war about."

— There is great complaint on the part of the Virginia planters of the insolence and indisposition to labor of the freedmen, large numbers of whom, instead of supplying the pressing needs of their services in agricultural avocations, are idling away their time in the towns. From this cause it is estimated that at least three-fourths of the farm lands of the State will be uncultivated during the present year. [How much this sounds like F. F. V.! Somebody, waiting for somebody else, to do the work.]

From the Rochester (N. H.) Courier.

CHARLES MAIN.—This gentleman—one of the wealthy citizens of San Francisco—senior partner of the firm of Main & Winchester, has been spending several months among his friends in New Hampshire. We have seen him in Rochester occasionally, where we doubt not he has enjoyed revisiting the scenes of his youthful days. This is his native town; here he spent the early years of his life; here his ancestors dwelt before him, even as far back as the days of Rev. Amos Main, his great great grandfather, who preached for twenty-three years in the old meeting house on the Hill.

Mr. Charles Main's history is an instance of what perseverance and energy will accomplish for a poor boy. As an example to our youth, it may be worth while to sketch briefly the several steps by which he has risen to his present wealth. A striking contrast will be seen between the beginning of his mercantile operations and their present greatness, for we have heard him allude to the days when he commenced business, a lad, by picking huckleberries, which he retailed in Norway Plains village at three cents a quart. At the present time, Main & Winchester is the name of the largest and richest saddle and harness establishment in America, probably. Their store—built of the stones of the "Old Leverit Street Jail," Boston, and of Boston pressed brick—is perhaps more desirable considering location and other advantages than any other business house in the State.

Mr. Main, when about ten years of age—a weak and slender boy of not more than fifty pounds weight—went to live upon a farm with his Uncle Stephen Young in Strafford. The year had not passed before he could "carry his row" with the hired men. He afterwards worked a short time in the cloth room in Dover; then learned the saddler's trade with Everett. When twenty years old, he had a desire to try "life on the ocean wave," and went as cook on board the schooner Flash to East Boston with a cargo of bricks—among the first ever carried thither. He soon found his way to Pittsburg, Pa., where he followed his trade a few years, and laid up a few thousand dollars.

He resisted for a long time the "gold fever" which swept the young men with such an irresistible tide to California, but soon found himself sailing round the Horn towards "Frisco." At Indian Mound, about 200 miles above Sacramento, like an enterprising man, ready to turn his hand to anything useful and profitable, he opened a market. Here he pitched his tent, and having carpeted the ground with hay at the cost of twenty cents per pound, he in great style carried on the business of dealing out the meat of wild animals, so abundant in that region. Not to follow too closely the thread of his fortunes, we find him soon pursuing his trade at San Francisco. He was a pioneer in the saddle business in California. For a few years he sold carriages as well as harnesses, and introduced into that region the celebrated Concord carriages imported from New Hampshire. He sold coaches, for which, we have heard it said, $2500 was at one time the ruling price. At the present time many of the harnesses of the firm are manufactured in various towns in New England—a large portion in Concord, N. H.

Mr. Main is yet in the prime and vigor of life. Should his eye ever see this article, he will pardon us for the liberty we have taken with his affairs. Our only excuse is that we feel a pride in the prosperity of the sons of Rochester, and our eyes and ears are open to pick up items relating to their success in life. We rejoice in their prosperity in making money; but there is something else in which we rejoice far more. The best record of a man's qualities is not the record of his accumulations. How much better than this, is the record of a liberal spirit. Not that her sons have amassed fortunes, may Rochester feel proud, but that such fortunes have been used generously in behalf of useful objects. We have heard it said of Mr. Main, that when the first public meeting was held in San Francisco to raise funds for the Sanitary Commission, at the outbreak of the rebellion, he gave his check for $2000 for the object. He gave also for the single object of clearing the indebtedness of Rev. T. Starr King's Society, of which he was a member, the sum of $5000. May the number of such natives of Rochester increase, and may their riches increase.

We were led to write these lines by an article recently published in a Lowell daily, headed "A pleasant occasion." It is an interesting account of a social gathering, in honor of Mr. Main, at the residence of Mr. Watson in that city.

— At Bridgeport, Conn., on the 14th, the jury having returned a verdict of guilty against Clark and Tristram, recently arrested and tried for the robbery of Adams Express Company on the night of the 5th of January, they were sentenced to hard labor in the Connecticut State Prison.

— A man who escaped from the Ohio Penitentiary five years ago, returned and gave himself up the other day. The only explanation he gave of this was that he had been married.

— Slander suits for heavy damages are growing numerous in the New York Courts, and verdicts of "six cents for plaintiffs" are usually rendered.

— Parisian letters state that the price of truffles is tending downward. The last time we inspected the truffle market the tendency of that delicacy was downward.

— There is a freshet in the Schuylkill river, caused by the late rains, and fields of ice are rushing past Philadelphia, cracking and smashing at a great rate.

— Mr. T. Atherton of Bolton, Mass. died very suddenly on the 7th inst. He got up as well as usual and while building his fires was taken with bleeding at the mouth and nose, and died in less than half an hour. He was about fifty years of age.

— An Iowa lady has received an appointment as notary public.

Local.

☞ We extract the following from the Portsmouth Correspondence of the Daily Evening Voice of Tuesday last:

"The project of building a City Hall, on the site of what was formerly known as Congress Block, is much talked of at the present time. It is proposed to magnanimously allow the ladies to build the structure, inasmuch as all attempts to induce "females of the masculine gender" to undertake the task have signally failed! The argument used, we believe, is, that the sweet creatures, by their persuasive manners and winning looks, will draw with better success upon the purses of the hitherto incorrigible old misers who cling so fondly to their gold. God bless the ladies! We will bet two to one on 'em, and likewise subscribe to the extent of our limited resources, if they will enter heart and hand into this scheme; and we believe we are not regarded as "soft" on the woman, either."

☞ Mr. Henry A. Yeaton advertises his Agency of the famous Mutual Benefit Life Insurance Company of Newark, which claims to be the strongest and best in the country, and of which the late Jacob Wendell, Esq., was agent for a long while. The matter of Life Insurance is an important and vital concern, and Mr. Yeaton is a very pleasant and fair man to present the subject to any inquiring mind. There are several widows in this city who have, within the past year, realized from $1000 to $10,000 each, for policies wisely secured them by their now-deceased husbands; and many other families whose present happiness would have been greatly enhanced by similar forethought on the part of those whose support they no longer enjoy.

☞ The Trustees of the Rockingham County Agricultural Society held a meeting in this city one day this week; and they drew up the list of premiums to be issued in the Spring, preparatory for the Fair next Fall. C. Hiram Hayes is one of the Board, and Mayor Bailey is Treasurer. The place for holding the Fair is not selected, but will no doubt be Portsmouth—*if* it be not Exeter.

☞ The Portsmouth Philharmonic Society have voted to give their Second Concert in this city on Fast Night, whenever that may be appointed.

SALE OF POWDER.—Five thousand barrels of powder were sold at the Portsmouth Navy Yard on the 14th inst., for $56,782.16.

☞ Our thaw closed on Thor's-day. The mercury this (Friday) morning at half-past three o'clock, stood, or laid low, at 6° above zero—having gone down to get out of the way of the wind.

NEW HAMPSHIRE ITEMS.

—— Lovers of maple sugar will be pleased to learn that that the prospects for a good run of sap this season are very encouraging in this State.

—— The war expenses of Manchester foot up a little over a half million of dollars.

— At Nashville, Tenn., Capt. Burnett, an ex-Confederate officer, has been sentenced to three years in the Penitentiary for killing Sergeant Pollard of the 108th Ohio regiment, at Shell Mound, on the 4th of July.

— He is the happiest who does the most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying, that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better-half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it.—Their depot is 112 Liberty Street, New York. 49

THE GREAT WEST.—Homes of the sturdy farmers who look about them over the broad prairies, and see for miles their lands and granaries, are often rendered desolate by the death of a beloved child from the ravages of the deadly Croup. Coe's Cough Balsam never fails to cure it, and is also the best remedy in the world for Colds, Coughs, and all throat and lung diseases. Coe's Dyspepsia Cure is the only remedy known that is certain to cure Dyspepsia, Indigestion, and in fact all disorders proceeding from the stomach and bowels. f12—eodawlw

DUNSTER'S L. D. GIN

Is put up in large square bottles, neatly and strongly packed in paper boxes. It is a pure Gin, and gives universal satisfaction. Sold by C. A. RICHARDS, 99 Washington Street, Boston, and by his agents everywhere. 19

Holloway's Pills and Ointment.—Falling of the Womb.—During the early stages of gestation, many young married females are subject to a sinking of the womb, which causes them considerable trepidation and uneasiness. The Ointment will be found invaluable in these emergencies, as it entirely dispenses with the necessity for *pessaries* or mechanical agencies. The Pills will brace the enfeebled organs, strengthen the system and secure the invalid from a future relapse. These medicines are valuable in all complaints incidental to the female sex. Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully wrapped around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 104 Duane Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Special Notice.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate those facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. TROCHES ARE USED WITH ALWAYS GOOD SUCCESS.

SINGERS AND PUBLIC SPEAKERS will find *Troches* useful in clearing the voice when taken before Singing or Speaking, and relieving the throat after an unusual exertion of the vocal organs. The *Troches* are recommended and prescribed by Physicians, and have had testimonials from eminent men throughout the country. Being an article of true merit, and having *proved* their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the *Troches* are universally pronounced better than other articles.

OBTAIN only "BROWN'S BRONCHIAL TROCHES" and do not take any of the *Worthless Imitations* that may be offered. oct24

☞ At the risk of offending our friend Main, we copy from the Rochester Courier, (which, by the way, is one of the best papers in the State, or on our large exchange list,) a rather complimentary mention of that quiet and unassuming individual; because we believe it is true, every word of it, and because we like to commend the example, and glory in the success of mechanics and workingmen who, like Mr. Main, and George K. Hooper now of Boston, who has made his mark and his pile, and of whom we copied a well-deserved notice from the Portsmouth Journal a few days since, raise themselves from poverty to wealth, by honest industry and commendable enterprise. We say "*raise* themselves," but we don't wish to be understood as saying, that every man who gets money, by whatever means, is raised in our estimation or in fact; nor are those who have money but don't know how to use, spend or enjoy it, to be considered as one whit above the veriest beggar. Wealth certainly brings duties and responsibilities, but is *not* sure to promote respectability or happiness.

But all we know personally of Mr. Main, and his partner Mr. Winchester, (and the names of the great firm always stand together in business or charitable enterprises, in San Francisco,) and all accounts we hear of them, show them to be as liberal and public spirited as they are successful and able. As to the *amount* of their wealth—it matters not, for that man, and no other, is rich, who has sufficient to gratify his own wants, and contribute to the comfort of his fellows; but the tax list of their city calls on them for some $12,000, and common reports sets them as "worth" the better part of a million! But however this may be; inasmuch as their case is more worthy of being held up as an example to stimulate other poor boys, than the conduct of many other so called "rich" men we know of—we trust our friends will excuse this use of their name to "point a moral and adorn a tale."

☞ Mr. Alfred R. Hallett, of Boston, the new Organist at the North Church in this city, is a young man of reputed ability and skill as a musician, and has had several years experience as organist in Boston. It was at one time expected, that anothe of our "poor" Church corporations would raise the $300 per year necessary to secure Mr. Hallett's services for that Society, by a private subscription; but no one appearing sufficiently interested to collect the funds, a cheaper substitute was procured by the Wardens, from the rural districts. And Mr. Lafayette S. Butler, who has charge of the choir at the North, and who is an old friend of Mr. Hallett's, set himself to work in that Society, and raised the means to pay him there. Well, the more good musicians the better, and we hope the new comer will prove a real addition to our local music; but we believe in encouraging home talent first, and always when practicable.

After more trials and tribulations than ought to be necessary to secure a new Pastor for any rich Society, the South Parish, we hear, has at last engaged Mr. Frank H. Towle of Exeter, to act as their organist for some months. The young man may be a tolerable player enough; but it is a puzzle to some folks why, when two of the best organists in the city are unengaged, it should be thought necessary to import church players. "Encourage your own," is as worthy of application in musical, as other matters.

IN COMMON COUNCIL, on Thursday evening, a resolution concurring with the Board of Aldermen, was passed, authorizing the sale of the gravel lot on Lafayette Road to Charles Main, Esq.

In Joint Convention, the Superintendent of City Farm was balloted for. Lewis W. Brewster had 1 vote; Benjamin Norton had 7; William Pailbrook had 19, and was chosen.

☞ The walking match between Lamber and Seaver, commenced at Portland, Tuesday evening at five o'clock. The condition of the match requires the parties to walk a mile and a half each hour, for 100 hours, making 150 miles in that time, without sleep.

☞ The Lyceum Course closes this evening, with Hon. Mr. Patterson's lecture and a concert by the Cornet Band, a combination that cannot fail to please.

☞ In times past the various ladies' magazines have served the purpose of disseminating the fashions among the fair sex. But in these days Madame Fashion is so capricious that a more frequent guide to her exchanges becomes a necessity to those who would be in the mode. "The Boudoir," a lady's paper, published weekly, in New York, by J. Swinton, at $5 a year, will be found to fill all wants in this line.

— A Democratic christian in Illinois wrote to a colored brother, protesting against his worshipping with the whites, and saying: "I and many others would think quite as well as you, if you would attend church among your own kind, and after we leave this world, if it is the will of God that all races should be equal, I am willing."

— The Rockland Battle-Axe, the new temperance paper, gives a sketch of Mr. Moses Heard, of South Thomaston, Me., who is a teetotaler of more than seventy years standing. He is over seventy years of age, and he has not drank a drop of spirituous liquor since the age of three.—Mr. H. is a remarkable instance of the old adage, that temperance promotes health. For the last forty years not a single sunrise has found him in bed.

— A woman recently left an order at a printing office for some cards on which were to be printed "Washing and Ironing Done Here." When they were ready for her she refused to take them because they were not printed on tin.

— On Wednesday morning, in New York, a conductor on a horse car, while drunk, stabbed three of his passengers.

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the tact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen. I am a resident of Curacoa, and have often been proposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Calistie, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A,
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Hypochondriac Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of this kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a most full collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can safely employ a person of more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made twenty rejected applications for PATENTS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by Self-abuse, viz: Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption, and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,
Cures all Urinary Complaints, viz: Gravel, Inflammation of the Bladder and Kidneys, Diabetes, Dropsy, Irritation of the Urethra, Strictures of the Urethra, Dropsical Swellings, Gleet, Gonorrhœa, Leucorrhœa, and all diseases that require a diuretic, and when used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure Gonorrhœa, Gleet and all Mucous Discharges in Male or Female, curing recent cases in from one to three days, and is especially recommended in those cases of Floor Albus or Whites in Females. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
Injection, " $2, " " $5.
The Cherokee "Cure," "Remedy," and "Injection" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to cheat the public with their worthless and worthless compounds,—in order to make money—in place of these. Be not deceived. If the druggists will not keep them for you, write to us and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Rules or Regulations sent free to all who send address. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. A SEAL CAPTURED.—Tuesday morning, at 9 o'clock, Mr. William Archer, tollman at Chelsea bridge, shot a large seal from that bridge, with an old musket which he captured from the Confederates at Yorktown. The seal was skinned and will produce a large quantity of oil. Its weight was nearly 300 pounds.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 INDIGOT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practice (extended to a period of twenty years) he has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotles, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, asks no pledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and keeps sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜
Why is this the best Sewing Machine ever invented? Because—
1st. It is better than any other.
2d. It runs with less noise.
3d. It is much less liable to get out of order.
4th. No other Machine works so small a needle.
5th. It is the cheapest Machine, because the best.
6th. It has improvements over every other Machine.
The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.
FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, being from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. S. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune. *It is one of the most extensive fertile tracts, in an almost level position and suitable condition, for pleasant farming that we know of this side of the Western Prairies.* m1—dawôm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make young
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed,—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their immediate influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with the good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,

SATURDAY, FEBRUARY 17, 1866.

☞ Gen. Sherman made a speech at Detroit a few days ago, in which he said he never expected to again command a military force. We are too powerful for our peace to be destroyed in the future by a domestic or a foreign foe. The country has too many men such as those who accompanied him through the pine forests of Georgia and the Carolinas, for its quiet to be lightly disturbed. Michigan herself alone, and certainly when backed up by Illinois, Indiana and Wisconsin, could raise an army large enough to not only repel, but crush any force or power that should dare infringe upon our borders. He had no wish to interfere with other nations, and they would not dare attack us. He said further:

Our national affairs will shortly be restored to a safe and permanent basis. Congress, when it has finished a certain amount of talk—and all popular assemblies must—will speedily settle all questions. A year ago you were anxious for the army which I had the honor to command. It had disappeared from your sight. You heard nothing from it, and knew not where it was, nor where it was going. Exercise equal faith now, and matters will come out as well. I know the man at the head of affairs in Washington, and all we have to do is to trust him, and give him our hearty and earnest support. We certainly have a bright and prosperous future before us.

HOW THEY VOTE IN NEW YORK—The tesimony taken in the contested election case of Wm. E. Dodge v. James Brooks, of the Eighth (New York City) district, makes some queer disclosures of the manner in which elections are managed in that city. One witness testified that one person who was recorded as having voted, had been dead a year; that "he therefore could not have voted unless he had a substitute;" that he was at the polls all day, and saw men voting in the names of principals who had been dead for years; and that at one of the election districts thirty or more whose names were given were so used. He further stated that he always kept a list of those voters who were dead or known to be away, and that they "substituted" a man to vote in their names, and so kept their names on the list. In answer to the question if he did not know that in so doing he was guilty of a felony, the witness coolly replied, "generally we takes that on a risk."

☞ Rev. Dr. McTier, one of the most eminent Methodist divines at the South, writes as follows upon the subject of negro equality: "The Southern people have no objection to giving the freedmen their rights in so far as protection to property and person are concerned, and the privilege of testifying in courts in such cases as they are interested; they can also have their schools and houses of worship; but it may as well be known once for all that the South will never allow them upon the bench as jurymen—never submit that they shall have the equal right of suffrage, or be entitled to any other privileges which would bring them upon a social level with the whites."

["Though thou bray a fool in a mortar, with a pestle, yet will not his foolishness depart from him."]

POLITICAL.—The Democrats have been rejoicing over their success in the recent elections in three counties in Kentucky. But the Cincinnati Gazette shows from the figures that the result is due to the returned rebel soldiers, and it adds: "Victories gained by the rebels in the field during the war were rejoiced over by the same parties."

Considerable significance is attached to the vote in the national House of Representatives on the admission of Col. Johnson, member elect from Arkansas. No objection was raised against his loyal character, which was universally conceded, but the question turned on the substantial recognition of Arkansas as a State in the Union. Col. Johnson was rejected by a vote of 78 to 70. Of those who voted against him, all were Republicans. Of the seventy who voted in favor of his admission, forty one were Republicans and twenty-nine were Democrats. Among the Republicans were Messrs. Blaine and Pike of Maine, Marston and Rollins of New Hampshire, and Dawes of Massachusetts.

☞ The lovers of liquor may be interested in reading Mr. Beecher's Essay, at the meeting of the Essex North Temperance Society in Newbury, Mass. The afternoon session was remarkably well sustained. An essay upon fermented liquors, read by Rev. Mr. Beecher of Georgetown, was an exceedingly happy effort, and added much to the interest of the occasion. After referring to the "new wine," of the Bible—the unfermented juice of the grape, such as the chief butler gave Pharaoh—and the "old wine," or grape juice boiled to a syrup, and mixed with water when used—a common oriental beverage—Mr. Beecher proceeded to give such an analysis of the fermented liquors now used in this country, that their very names, even, will remind his hearers of log-wood tea, Prussic acid, vitriol, fusel oil, and many other nice ingredients, besides alcohol and sweetened water.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Adaption of the Constitution of the U. S. by New Hampshire, 1788—Celebration of "Federal Day" in Portsmouth.

The convention, to whom the important question was committed, whether New Hampshire should adopt or reject the Federal constitution, met at Exeter the 2d Wednesday of February 1788. The honorable John Langdon, John Pickering, and Peirce Long, were delegates from Portsmouth. After debating on the subject nine or ten days, the convention adjourned to the second Wednesday of June, then to meet at Concord. At this meeting the debates were continued until Saturday afternoon, when the question was taken by yeas and nays. Whilst the Secretary was calling over the members, and recording their votes, a death-like silence prevailed; every bosom throbbed with anxious expectation. When the votes were counted, there appeared 57 for the adoption, and 46 against it, leaving a majority of eleven in its favour. This State was the ninth that adopted the constitution; and according to the provisions made in it, the government was to be put into operation. This pleasing and interesting intelligence was received in Portsmouth on Sunday morning. Mutual congratulations took place, and public thanks were returned in all the churches. Thursday the 26th of June, was appointed for the celebration of this important event. About 11 o'clock a large concourse of the inhabitants assembled on the parade, and moved in procession through the principal streets in the following order.

A band of music in an open coach and six horses decorated; Husbandmen; a plough drawn by nine yoke of oxen; a man sowing; a harrow; Reapers; Threshers; Mowers; Haymakers, each with their appropriate implements; a man swingling flax; a cart for gathering in harvest; Blacksmiths and Nailers with their forges, anvils, and sledges, at work; Shipwrights with their tools; Caulkers; Rope-makers with a spinning wheel and hemp round their waists, occupied; Riggers; Mast-makers; Ship-joiners; Block-makers; Mathematical Instrument-makers with an Azimuth Compass; Boat-builders at work on a boat nearly completed; Carvers, Painters, Glaziers, and Plumbers; Coopers, trimming casks; Cullers of fish; Steevedores; Pilots with spy-glasses and charts; the ship Union, completely rigged, armed and manned, under an easy sail, with colors flying, elevated on a carriage drawn by nine horses, a tenth, (emblematical of Virginia) completely harnessed, led, and ready to join the rest; Ship-Captains with their quadrants; Seamen; Shoremen; Truckmen; Millers; Bakers, preceded by a flag, displaying the baker's arms; Butchers, Tanners, and Curriers; Cordwainers with their lasts decorated; Tallow Chandlers; Tailors; Barbers; Hatters; Housewrights; Masons; Cabinet-makers; Wheelwrights; Saddlers and Chaise-trimmers; upholsters; Goldsmiths, Jewelers, and Silversmiths; Whitesmiths; Brass-founders; Tinmen, with nine pillars and stars on a pedestal; Potters, with a table and wheel at work, nine pillars erected; Brick-makers burning a kiln, others moulding bricks; Leather-dressers; Card-makers with cards; Printers, by two lads with open quires of printed paper, followed with cases and apparatus decorated, and compositors at work; Pressmen employed during the whole procession, in striking off and distributing among the surrounding multitude, songs in celebration of the ratification of the Federal Constitution, by the State of New Hampshire:

MOTTO.

"A government of freemen never knows
A tyrant's shackles, on the press t' impose."

Consuls, Merchants, and Traders; the boys of the different schools with the insignia of their studies, decorated; the Terrestial Globe, rectified for New Hampshire, and decorated by a company of young ladies, who were studying geography, carried by two lads in uniform. In the decorations each State was distinguished; New Hampshire in the zenith, and Rhode Island on the western horizon in morning.

The masters of the schools:

MOTTO.

"Where the bright beams of Federal freedom glow,
The buds of science, in full beauty blow."

Clergy, Physicians, and Surgeons; Sheriff, preceded by his deputies; Judges of Common Law and Admiralty Courts; Clerks of Courts; Gentlemen of the bar supporting the Federal Constitution; The President of the State, and President of the Convention; Secretaries of the State and Convention; Members of the Convention; Members of the Legislature; Treasurer and Commissary General; Militia officers in uniform. Every profession was distinguished by some insignia or badge peculiar to it. All attended to represent that in consequence of this union, commerce, and all the arts dependent on it, would revive and flourish. During the procession several Federal songs, composed for the occasion, were sung, accompanied by the band. A collation was prepared at Union-hill, of which the company partook; and after the repast, nine patriotic toasts were drunk, the artillery fired a salute after each of them; and the songs were again sung, accompanied by the band. The procession then formed in the same order, and was saluted by thirteen guns from the artillery; which was called a Federal salute. On their arrival at the Court house, a salute was fired from the ship, and the company dispersed. The ship fired another salute, as she passed the President's house.

In the evening the State house was beautifully illuminated with nine lights at each window, while a large company of ladies and gentlemen on the parade were entertained with music from the balcony. Joy sparkled in every eye, and pleasure was seated in every breast. All seemed to anticipate the happier day, which they were to enjoy under the Federal government.

DISASTER.—The large reservoir in South Woodstock for supplying water to some dozen mills in that place, broke away about 2 o'clock this morning, and the large body of water and ice, suddenly liberated, went tearing down the stream, crushing and carrying away everything in its course—mills, bridges, blacksmith's shops, barns, etc. Three mills, one of them one hundred feet long, owned by Daniel Warner, and used for manufacturing twine, were carried away, the heavy cakes of ice crashing through the stone walls and making a general wreck of mills, machinery, etc. The store occupied by Samuel Fenner, in which the post office is kept, was damaged considerably; but a large tree which stopped the ice saved the building from total destruction.

The dam was 1400 feet long, 80 feet broad at the base and tapering to 22 feet at the top. The loss to Mr. Warner, who owned all the mills and dam, including machinery, damages from the suspension of business, etc., cannot fall short of $100-000, and of course there is no insurance against such a disaster.—*Hartford Press, Tuesday.*

TWENTY-SEVEN CHILDREN DROWNED. The Dayton (Ohio) Journal states that twenty-seven children were drowned in the reservoir at Celina, in that State, on Wednesday last. They were attending school in the vicinity of the reservoir, and at noon all the scholars but two—twenty-seven in number—went on the ice to slide, when it broke with them, the whole party drowning before help could reach them.—This has since been pronounced a foolish hoax.

— Why is the Rinderpest like a mouse? Because the cat'll catch it.

— Two soldiers who stopped at the Briggs House in Chicago a few nights ago, blew out the gas instead of turning it off. In the morning one of the was found dead and the other just gasping out his life, but the latter was saved.

— One night in Paris, recently, seven burglars entered M. Arsene Houssaye's house (at present unoccupied.) They were heard by neighbors, information was given to the police, the house was surrounded, and when the police entered they found the burglars seated around a fire made with the costly furniture, roasting a chicken and drinking the best wines.

— We have found the J. Monroe Taylor Gold Medal Soap so far superior to any other in the market, that we have long since ceased to wonder at its great popularity, in all that comprises superiority for the marron or the maid. No one soap in the market begins to possess one-half the washing qualities this soap has; the ladies all say it is the best they ever saw. Call on your grocer and get a few pounds and try it; it stands without a successful rival. 49

THE STOCK OF LADIES',

Gentlemen's, Misses' and Children's Boots and Shoes at T. F. MOSELEY & CO.'S, SUMMER ST., BOSTON, is of every desirable description, and made up in fashionable styles. 1

SMITH'S CATARRH SNUFF is the best thing I know of for cold in the head or influenza. It is not irritating, it does not snap your head off with a big sneeze and then leave you worse than before, but one or two pinches will relieve the disagreeable feeling of fullness; and about half a dozen pinches cured the most severe cold I ever had. J. H. THACHER, Druggist.

Portsmouth, Feb. 16, 1866. F17

SMITH'S CATARRH SNUFF breaks up a cold in the head in a few minutes, thoroughly. If this is saying too much, ask Mr. J. S. HARVEY, Broker, of this city: he says it is so every time, and he would not be without it, even if it should cost five dollars a box. Try it. F17

SMITH'S CURATIVE COMPOUND will break up chills and fevers, by drinking it in warm water, in a few minutes. It will cure sore throat and croup in a few minutes, and thus prevent a fit of sickness. B. F. CHANDLER, Civil Engineer at the Portsmouth Navy Yard, had a Wen, so called, by two surgeons, on his wrist, growing rapidly. It was entirely cured by Smith's Curative. Just ask Mr. Chandler if this is true. F17

AMERICAN LIFE DROPS.—Diptheria they cure.

Root's PESTACHINE—restores the color of the hair.

Holloway's Pills and Ointment.—Falling of the Womb.—During the early stages of gestation, many young married females are subject to a sinking of the womb, which causes them considerable trepidation and uneasiness. The Ointment will be found invaluable in these emergencies, as it entirely dispenses with the necessity for *pessaries* or mechanical agencies. The Pills will brace the enfeebled organs, strengthen the system and secure the invalid from a future relapse. These medicines are valuable in all complaints incidental to the female sex. Sold by all Druggists. 1wdaw—feb16

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe and reliable* illuminating oil ever before the pub lic, giving a *safe steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show most plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

Local.

☞ Maj. Hackett sells a lot of valuable Furniture to day at 10 o'clock, at the house recently occupied by the late Agent of the Portsmouth Steam Mill—perhaps we might say "the *late*" mill also. The Barstow Range and Water Back with which the house has been furnished, will also be sold, to be removed by the purchaser.

We happened in at the house, when the Major first began to clear away the rubbish and arrange the articles for sale; and as somebody has well said, or said, whether it was well or not—"to see a fellow tying his neck-cloth on a lamp post by moooonlight, and talking to it, is no great sign of temperance"—so what we saw lying round in the closets of "Colonel" W.'s "late" residence, was no special indication of that virtue. But a day or two of the lively auctioneer's supervision has tidied up things amazingly; as, in fact, whatever Maj. Hackett takes hold of, is apt to be done promptly and well.

The sale is a large one, and there are many fine articles—more than most people can afford to have, who *pay* for them; and this closing out, under a mortgage to the "late" Factory Co., of the "effects" of a "gentleman"—the *effect* of whose rail on Portsmouth, we guess others besides stockholders in the Steam Factory will have reason for remembering—may be regarded as the "tailings" of rather a poor run; and the closing act in the farce of giving a valuable and should-be lucrative property, in charge of a man who never was competent to run a sawmill, or even have the care of himself. Many of our traders, while acknowledging the "sell," would gladly consign him to a "cell;" and would also gladly hold morally if not legally accountable for the extent of his swindling, his friends among "the quality" here, who introduced and recommended him, in place of his predecessor—who is also his successor—and who is worth a thousand of him by any just valuation. In view of subsequent events,—isn't it laughable with what holy horror some folks regarded the petty thefts of a few poor factory girls last summer? It is the big thieves, only, who are respectable.

☞ An item in our local of Feb. 5th inst., respecting a tin peddler's having trouble with a man and wife, did not refer to any Locke family, but to different parties altogether, although some people who pretend to be friends to a Mr. L., would like to have it understood otherwise.

☞ A dispatch from Kansas City, Missouri, Feb. 15, says:

The Bank at Liberty, Clay county, Mo., was robbed Tuesday afternoon of $72,000, under the following circumstances: Twelve men entered the town about two o'clock, three of whom guarded the suburbs; the other nine went to the Clay County Savings Association. Seven guarded the outside of the building, while the other two entered and presented cocked revolvers at the heads of Mr. Bond, the cashier, and his son, forced them into the vault and compelled them to deliver up all the money then in the Bank. As the robbers were leaving, Mr. Bond thrust his head out of a window and gave the alarm. A boy named Wymore repeated the alarm and was shot five times and instantly killed by the robbers, who mounted their horses and escaped. A party of thirty citizens started in pursuit and fifty more followed yesterday; but at last accounts no captures had been made. The robbers divided the money stolen, at Mount Gilead Church, ten miles from Liberty, to enable them to scatter, if necessary. Three of the robbers were recognized as notorious bushwhackers during the war.

FEES OF A PARIS PHYSICIAN.—A Paris letter says that when the inventory of Dr. Joubert de Lamballe's property was taken, the inventory maker found an immense box filled with a multitude of little paper packets, each containing the fees offered to that highly celebrated surgeon by his office patients; the sums of money they contributed varied from 20f. to 100. It took two days to unfold them; they contained 7000 silver franc pieces and $50,000 in gold; there were besides, $50,000 in bank notes and $200,000 of French Three's. No kindred of Dr. Lambelle have been discovered, except some very distant relations—poor creatures who earn hardly their daily bread as journeymen bricklayers. "We heap up riches, and cannot tell who shall gather them!"

— The model lodging houses now erecting at Montrouge, France, by direction of the Empress, are so arranged that rooms for single men will be obtained at $20 per annum. The apartments for married couples will range from $40 to $60 a year, and comprise two rooms and a kitchen, with an abundant supply of water.

A $5000 VERDICT FOR BREACH OF PROMISE TO MARRY.—In the Supreme Court of New York, Cornelia A. Wiggin has recovered a verdict of $5000 damages in an action brought against Wm. A. Russell, he having failed to fulfill an engagement to marry her, as he agreed to do. The engagement to marry was made, according to the complaint, in August, 1858. The plaintiff was then a dressmaker in the village of Sing Sing, and the defendant was one of the Inspectors of State Prisons. He became acquainted with her while in that town engaged in his official business. The marriage was to take place the following November. It was afterward postponed from time to time at his request, until the month of February, 1860, when he, without any notice to her, married another lady. Several letters of his, addressed to her, of a very affectionate nature, were read on the trial. He was at the time of writing these letters to the plaintiff, a widower. After abandoning the plaintiff, and marrying a second wife, he lived a year or two in the married state, when she died likewise. Recently he married a third time, but all this time he has refused to acknowledge the rights of the plaintiff. On the trial the defendant failed to appear either in person or by attorney.

HOW PEOPLE TAKE COLD.—The prevalence of colds has again induced the query so often agitated as to the immediate cause of the "cold in the head," "the cold in the back" and "the cold in the throat." A gentleman who endeavored to trace the cause of his cold, came to the conclusion that he caught it going to bed in his bare feet. The real cause of many colds may be attributed to the long talks which people indulge in on the corner of the streets. One of Boston's most celebrated physicians, now an octogenarian, when stopped in the street invariably remarks: "I will talk if you will walk." This should be a hint to button-holding friends.

THE SEA.

I stood and listened to the ocean's roar,
As on the howling surge it leaped and raved,
And spent its fury on the rugged shore,
Where many sink;—alas, where few are saved!

O treacherous deep! to-day thou art a friend
To unting man upon thy tranquil mists,—
But may'st to-morrow move his fatal foe:
He sinks—his foe thou can'st not be again!

The beat of ocean's waves sepulchral sounds,
As on the darkened air they strangely moan;
To me it seems as if their counsel said
Revive and utter their expiring groan!

The fierce storm-king hides not his form to-night;
In his cloud-car he comes forth to destroy;
His yell terrific makes the sea run mad,
And in his grasp whole fleets are hurl'd to ruin!

The demon cliffs are lurking in the gloom,
And trembling ships haste to wide spectral shoals;
O God of Pity! stay their fearful course,
And snatch from restless graves despairing souls.

GENERAL BUTLER A VIRGINIAN FARMER.—A special Washington dispatch to a New York contemporary says that General Butler has just closed negotiations for a valuable mill property on the James river, near Richmond, intending to erect extensive cotton factories. The Cox farm, containing 2800 acres, through which runs Duch Gap Canal, has been offered to the General and he has in contemplation its purchase.—New England families and mill operators will be settled upon it.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen. I am a resident of Curacos, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

I trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacos, S. A,

New York, June 28th, 1866.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Flatulence, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,
Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The intimate practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAYLOR,
Late Chief Clerk Patent Office.

During eight months, the subscriber, in course of his large practice, made on *twelve* official applications SIXTEEN APPEALS, EVERY ONE of which was decided in his *favor*, by the Commissioner of Patents.

R. H. EDDY.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testes and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of these diseases here.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions to female health.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B. Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Palpitation of the Heart, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

This great Indian remedy will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free, to any address.

Price $2 per bottle, or three bottles for $5. Sold by druggists everywhere, or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MEERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction do not fail to remove the most obstinate complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " $1, " $2. " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds.—In order that you may not be in place of these, *Be not deceived*. If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive letters from the afflicted from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*, and depend on receiving our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Dr. W. R. MEERWIN, 37 Walker St., N. Y.

THE TWO MALTBYS,—OR HOW THE JUDGE BECAME A CHURCHMAN.—Burleigh, in one of his nice gossip letters to the Boston Journal, tells this good story:

There is quite an interesting fact connected with the early history of Dr. Maltby of Taunton, who in January last preached his fortieth anniversary sermon. Forty years ago, Judge Morton, afterward Governor, who was then on the Supreme Bench, was a member of the North Congregational Society in Taunton. The parish was without a pastor. While absent from home on his judicial duties, the Judge heard a young student from Andover preach, by the name of Maltby. He was greatly pleased with him. He wrote to the parish at Taunton requesting them to send for the young man to preach as a candidate. A letter of invitation was accordingly sent to Andover. Now there were in the Seminary at that time two young men of that name, and the invitation got into the hands of the wrong Maltby. He accepted the invitation, preached to the satisfaction of the parish, and accepted a call. The fact was announced to Judge Morton, and he was invited to be present at the ordination. He replied, expressing his gratification at the election of Mr. Maltby, and his regret that his official duties prevented him from being present. He returned to his home late one Saturday, and found his family and parish in raptures over the new minister. He went to church on Sunday, and was greatly annoyed to find that a stranger occupied the pulpit. He was astounded when he heard that the stranger was the new pastor. He had recommended no such man; did not want to hear him, and would not. He insisted that the new pastor, who had hardly got warm in his nest, should be dismissed, and his friend called. As this was out of the question, the Judge left the congregation and joined the Episcopal Society, which position he maintained till his death. A pastorate of forty years is a good comment on the judgment of the parish and the ability of the pastor.

SANDED COTTON.—The Suffolk Manufacturing Company a short time since purchased an invoice of thirteen bales of cotton. On opening the lot there were found in six of the bales, bags of sand, and the whole weighing between nine hundred and a thousand pounds, two bags in one bale weighing over two hundred pounds.

— Fond reply, that of Quilp to his wife, who asked him what was an artificial eye —"A new eye-deer."

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a health full climate, and a good soil, a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worth a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Settlers, sent free on receipt of 3c.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* nl—dawem

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used *with the greatest success*. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of sure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the pure
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,

Morning Chronicle.

Portsmouth, N. H.

MONDAY, FEBRUARY 19, 1866.

THE NEW HAMPSHIRE DEMOCRATS, true to their character as the most resolute political geologists and paleontologists in the country, passed a resolution discountenancing all amendments to the Constitution; and it is due to them to say that their vote against the amendment abolishing slavery was by far the largest given in any free State. In this view they are rightly objects, not of the criticism of the statesman, but of the explorations of the archæologist. Here, in New England, are the remains of those obscure, pre-historic races which are now the puzzle of science, and the American Academy is disgracefully indifferent to its duty, in declining to send a a commission of *savans* to investigate so astounding a phenomenon.

It is plain that such a commission could obtain more trustworthy information regarding the antiquity of man, than all other students and explorers have been able to gleam from the examination of languages, monuments, caves and fragments of skeletons. Prof. Lesley said, the other evening, that he had no doubt that the human race was two or three hundred thousand years old, but this computation would be found ludicrously inadequate, if a scientific analysis of the New Hampshire Democrats should be seriously attempted. Probably no geologist has failed to have had his curiosity and imagination stimulated by the question: "What were the feelings of the living beings on the planet when it was subjected to one of these tremendous physical changes which mark the epochs of its development?" Is it not evident, from the New Hampshire resolutions, that they went decidedly against any "amendments?" that they were conservators of the *ancien regime* of their geological era? and that most of them were engulphed in the innovations the deprecated? Is it not plain that the democrats of the Granite State are direct descendants of some fortunate pair who survived one of these spasms of the earth, and that they still hold to the Pre-Adamite traditions of the family? Indeed it is a scandal to American philosophy that these interesting relics of an immemorial antiquity should be the laughing stocks of our politics instead of the glory of our science.—*Boston Transcript.*

☞ A fire broke out at about 2 o'clock on Friday morning, in South Boston, which destroyed what was called the Long Block, on Second street, consisting of 12 wooden houses. It was a miserable old shell, and was inhabited by 42 families, say 200 or 250 persons, who were thus turned out of doors in a cold night. One woman, Bridget Downs, aged 55, after being safely out, went back to her room to get a few dollars in gold, but lost her life. All the rest were saved. It is said the block was bought three or four years ago, for $6000, by the present owner, who is fully insured? Who would insure such a trap? The tenants had not much to lose, but mostly lost what little they had.

WASHINGTON ITEMS, Feb. 17.—Gen. Grant is carefully examining the reports of the military officers in Kentucky, which show a disposition on the part of the secesh there to oppress and abuse those men, white and black, who have been in the Union army. It may be that these Kentuckians will have to behave themselves better

It is rumored that the President was not satisfied with the tone of the Emperor Napoleon's speech on Mexican affairs, as being altogether too indefinite, and that dispatches have been sent to Paris demanding a time to be fixed for the removal of the French troops.

President Johnson has not gratified the curiosity of several Congressmen who have called upon him to ascertain what he intends doing with the Freedmen's Bureau bill, and he is disinclined to converse on the subject.

IN THE U. S. SENATE, Friday, the bill extending the pension law to artificers of the army was passed.

The bill allowing an appeal to the Supreme Court from the Court of Claims, and providing that the regular session of the Court of Claims shall commence on the first Monday in December was passed.

GOLD, Saturday, 137. Sent to Europe $200,000.

— The total span of the great bridge at Cincinnati over the Ohio will be 1057 yards —the largest in the world.

— A beggar recently perished of inanition in the Bologna Hospital. In his rags were found $8400.

— A steam propeller of 200 tons is being built in Saco, to run between that city and Boston. It is expected to commence its regular trips about the first of July.

— Speaking of the thunder storm on the night of the 14th inst., an exchange says:

The valentine sent by Jupiter Pluvius this year will be long remembered as a thundering big one.

— John M. Hall, who committed suicide in New York last Friday, must have had a chronic desire to inform himself of the "stern realities" of the future state. He made no less than seven attempts upon his life during the last few years. Twice he swallowed rats bane, twice he sprang into the river, once he opened a vein and twice he shot himself with a pistol—succeeding in the last attempt in blowing his brains out.

NEW HAMPSHIRE ITEMS.

— New Hampshire ranks second in the list of cotton manufacturing States.

— Rev. Charles L. Balch of Pomfret, Conn., is to become rector of St. Luke's Church, Nashua.

— Rev. Dr. Hubbard, rector of Grace Church, Manchester, is about giving up pastoral labor, on account of ill-health.

— The Morning Star reports revivals in the F. W. Baptist Churches at Great Falls, Gonic, Hampton and Danville.

— The Reform School Building at Manchester is to be re-built substantially upon the plan of the one recently burned.

— Edwin Lawrence, recently sentenced to State Prison for forgery, was formerly Register of Probate for Essex county, Mass.

— David Fuller, of Hillsborough, a native of Gilsum, commenced the tanning business in 1806, and is still at it. He is now in his 84th year.

— Mr. Charles Thompson of Dover, while at work at the late fire in New Market, fell and broke his arm, and otherwise injuring him. The citizens of that place made up a purse of $120, and sent to him.

— We understand (says the Rochester Courier) that the Gonic Mfg. Co. have stopped a portion of their works. The heavy importations have caused manufacturers to be shy of piling up goods.

— Eben French of Manchester, one of the new conductors, and assigned to run the trains on the Central road, has declined and Mr. Doolittle of Keene, is assigned in his stead.

— Among the appointments confirmed by the Senate on the 15th, are those of Wm. E. Chandler, Assistant Secretary of the Treasury, and E. A. Rollins, Commisser of Internal Revenue.

— A. C. Fifield, of Enfield, has sold a black gelding, 6 years old, showing marks of great speed, to parties in Nashua, for $1000. He was raised in Canada, and is said to have made a mile inside 2:50 with no training.

— A subscriber of the Claremont Eagle says if those people who have to stop their paper these "hard times," would just leave off their tobacco and take the paper, as he has done, they would find themselves much better off, and the times not near so hard. No doubt of it.

— A petition for the division of the town of Strafford has been signed by 179 legal voters and has been served on the town. It will be presented to the next session of the Legislature, and it is expected that a division will be made. The division line commences at Farmington line at the easterly corner of George Ham's land and runs southwesterly, following the course of the Blue Hill range, to the Northwood line. The survey was made by Sheppard S. Moore of Northwood. It is not certain what the name of the new town will be, but probably South Strafford.

— The house painters of New York have resolved to work only eight hours a day after the first Monday of March.

— An Imperial train valued at $650,000 was recently captured by the Republicans in Mexico.

— The French Government has made forever incapable of graduating at Paris, and for an indefinite time anywhere in France, the students who were present at the students' congress in Belgium.

— The bell which for forty years called the students together at Williams college has been given to a missionary church in Syria, and is now doing service in that far distant land.

— The farmers of Lake county, Illinois, are suffering severely from the destruction of their sheep by prairie wolves. In some towns their depredations have caused a panic among the owners of large flocks of sheep.

— A German named Odin, living at Rockport, Ohio, killed his wife on the 8th inst., horribly mangling her body with an axe. He then went and drowned himself. Jealousy is said to have been the cause of the tragedy.

— The courts of Texas admit negroes to to testify like other persons. They hold that the law against this fell with the reasons of the law. They also decide that Texas is not a "conquered country," and therefore an unconquered State of the Union.

— A Brownsville correspondent gives the report of the Commission appointed by Gen. Weitzel to investigate the Bagdad affair. It is conclusively shown that no U. S. Army officers were connected with the raid, and Gen. R. C. Crawford is charged with being its instigator and director. The testimony taken by the Commission was very extensive and voluminous.

— The editor who said that his mouth never uttered a lie, probably spoke through his nose. But the woman who said that Herrick Allen's Gold Medal Saleratus is the best in the world, and makes better Bread, Biscuit, Cakes or Puddings, out of the same sack of flour, than can be made with any other saleratus or soda, spoke it with her eyes and mouth wide open, and does not fear contradiction. Dyspeptic persons can use it with impunity, and be all the better for so doing. Most all the Grocers sell it. Depot 112 Liberty Street, New York. 50

Local.

THE LITTLE PEOPLE *and the Continental Vocalists.*—Our readers will bear in mind the concert of the wonderful little people and sweet songstors, at the Temple, to-night. We copy the following from the Bridgeport Standard, the home of the celebrated Tom Thumb:

Com. Foote is 500 per cent. smarter than General Tom Thumb, and is, in our estimation, the greatest curiosity of the kind ever brought before the public, not only as being the smallest man ever exhibited, but being thoroughly educated—he is a perfect master of the German and English languages—also a comedian and actor of the first order. The Commodore's sister (the Fairy of the West,) is a well-matured little lady, perfect in form, not half the size of Gen. Tom Thumb's wife; her feet are so tiny that No. 1 shoes, children's size, are over large for her; she is far superior to any curiosity ever yet brought before the public. She speaks German and English, and is the star of admiration among the ladies. The little comical genius Col. Small, all things considered, is decidedly one of the finest dancers we ever saw, both in male and female character. They are assisted in their performance by the charming vocalist Miss Ellinger.

The celebrated Continental Quartette, Franklin, Smith, Rogers and Woodward; also Master Zack, the musical prodigy, are connected with this troupe, forming a combination unsurpassed for musical ability of this sort in this country.

They will give a Matinee on Wednesday for all the little folks.

☞ It will be seen that the splendid new steamship Dirigo has taken her place on the line from Portland to New York, thus enabling the officers of that favorite line to offer still greater inducements to travellers.

☞ Examinations at Mr. DeMerritt's school this morning, and Miss Mason's this afternoon, in District No. 1; and at the Plains School, in District No. 2, this morning.

☞ Dr. S. F. Perry gives notice to the public that he has opened an office for the practice of dentistry in Kittery.

☞ Smith's remedies, long known in this market, receive commendatory local notices this morning.

S. J. COURT.—In the case Packer vs. Weeks and Pickering, the jury did not agree. In the report of this case, last week, copied from the News Letter, it was suggested by the defts. that the conveyance of the land in question G. W. Odell to Geo. Odell "was fraudulent and void." Dr. Odell desires us to correct this statement, by publishing the following from him:

The said George W. Odell never owned the property, nor did he ever contribute anything towards the purchase of said property. Said article further states that the premises were conveyed by said George W. Odell to George Odell, which is not true. I purchased the premises of Brice S. Evans, of Boston, and received a warrantee deed from him, dated May 8th, 1856, and sold it to Andrew Wiggin, Esq., in Dec., 1860, as the records will show.

GEORGE ODELL.

☞ We regret to learn that Mr. Edw. N. Anderson, on Friday, while in the performance of his duties at the Navy Yard, slipped upon the ice, and falling, broke his wrist.

☞ From L. Scott & Co., of New York, we have Blackwood's Magazine for January, this excellent Magazine is published at $4 per year, and its world-wide reputation renders laudation needless. L. Scott & Co., have laid readers on this side of the Atlantic under great obligations, by their reprints of Blackwood's Magazine, and of the four British Reviews, at prices that bring them within reach of most persons who desire to take them, notwithstanding that these publishers honorably pay a copyright to the British publishers, which, of course, adds largely to their cost.

☞ A Washington dispatch says the patrol of Richmond are armed with a pair of shears and faithfully carry out the orders to cut off all the rebel buttons worn by unreconstructed rebels.—The suppression of the Examiner was in pursuance of positive orders from Gen. Grant, who announces his intention of squelching all newspapers in the South, which have the audacity to come out in a similar bold denunciation of the Government.

☞ The shoe business is becoming depressed. The sales in Haverhill for the month of January amounted to only $600,000, and the Danvers Wizard says there are probably not one-half as many journeymen shoemakers employed in that town at present as there were six months ago.

☞ The imprint of Ticknor & Fields has so long been a sufficient guarantee for the worth of all publications bearing it, that we are not at all surprised at the growing favor with which their new weekly publication is received "Every Saturday."

☞ From Mexico we have a report of a heavy battle at Tampico, in which the French troops gained a victory over the Liberals.

— The Rev. Elisha Lord Cleveland, D. D., for thirty-three years pastor of the Third Congregational Church in New Haven, died in that city on Friday morning.

Correspondence of the Chronicle.

BOTHWELL, C. W., Feb. 4.

Friend Miller:— * * * I suppose you will be surprised to learn that I am in the oil diggings of Canada, boring for oil. I came here from Bangor on the 16th day of last August, and was taken with "oil on the brain." I made several investments, put down a well, and owned one-fourth of it. I have already sold a sixteenth, or one-quarter of my fourth, for $1000 in gold. Shall commence pumping to-morrow.

When I first came here, there were but a few houses, and the majority of them were very poor; and but one train of cars from East and West stopped daily. Now ten trains stop each day; the town has grown rapidly; hotels, stores, houses, offices, shops, &c., have sprung up as if by magic. Every train of cars brings crowds of oil speculators, and not two-thirds of them can get entertained. The streets are thronged with all kinds of carriages, horsemen, and people on foot, tramping to and from the oil wells. The principal part of the wells are about two and-a-half miles from this village. There are already about 250 wells, either down or in process of going down. Of those down, there are several fine wells. I predict that there will be 1000 wells within the next twelve months. The oil fever is raging wildly, and by next Spring I think the crowd will be *great.* This is considered to be one of the best—if not the best—locations for oil on this continent.

I am here now for the fourth time. Shall go home the last of this month and make a short stop. I have got some of the best oil territory here, and a Bangor company is mostly formed to put down a well. There will be six shares, and the first cost will be about $1800 in currency per share. That will include for the capital stock.

4 acres best oil land,	$5000.
1 well and fixtures complete,	6000.
100 acres land,	4000.
U. S. Currency,	$15,000.

We shall organize and issue 150 certificates of stock, at $100 each. Each shareholder or owner of one-sixth of the whole, will be entitled to 25 certificates of stock, which will sell for from $125 to $200 each, giving thereby a handsome advance to the stockholders. * * * * *

To the Honorable Judge of Probate for the County of Rockingham in the State of New Hampshire.

Respectfully represents EUNICE HODGDON of Portsmouth in said County, that CHARLES HODGDON of said Portsmouth has lately deceased, intestate, having, at the time of his decease, a family homestead, situate in said Portsmouth, described as follows, viz: Bounded westerly by the road leading from Portsmouth to Newington, southerly by land of Mark Gray and a lane leading to the same, westerly by land of Butterfield Carkin, and northerly by land of Samuel Cleaves, with the dwelling-house thereon; that your petitioner is Widow of said deceased, and has been and still is in the occupation of said premises; that no release or waiver of the right of homestead has been made; that there are no minor children of said deceased.

Wherefore she prays that a homestead of the value of five hundred dollars be set off to her agreeably to the statute in such case provided.

EUNICE HODGDON.

Dated the ninth day of January, A. D. 1866.

ROCKINGHAM, SS. Probate Court at Portsmouth in said County, January 9th, A. D. 1866.

Upon the foregoing Petition it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Exeter in said County, on the Wednesday next following the first Tuesday of April next, at ten o'clock A. M.; and that the Petitioner notify all persons concerned or interested therein to appear at said Court, and show cause if any have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the DAILY MORNING CHRONICLE, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

By order of the Judge.

THOMAS LEAVITT, Register of Probate.

To the Honorable Judge of Probate for the County of Rockingham.

Respectfully represents EUNICE HODGDON of Portsmouth, in said County, that CHARLES HODGDON, late of said Portsmouth, deceased, died intestate, leaving no lineal descendant; that said deceased at the time of his death was seized of certain real estate, situate in said Portsmouth, containing about thirty three acres, described as follows: bounded easterly by the road from Portsmouth to Newington, southerly by land of Mark Gray and a lane leading to same, westerly by land of Butterfield Carkin, and northerly by land of Samuel Cleaves; that your petitioner is widow of said deceased, and by law entitled to one half of all the estate remaining after the payment of the debts and expenses of administration, in addition to her dower.

Wherefore she prays that a committee may be appointed to set off and assign to her in severalty her just share in said real estate, in addition to her dower, agreeably to the statute in such case provided.

EUNICE HODGDON.

Dated the 9th day of January, A. D. 1866.

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the pub lic, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. *Photoleum* produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & CO.'s, 87 Water Street, Boston.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 36 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGOIEL'S BILIOUS, DYSPEPTIC and DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGOIEL'S SALVE is infallible. Sold by J. Local.

For the Chronicle.

☞ The old unanswered question, Who struck Billy Patterson? has been entirely superseded of late in this vicinity, by the newly-raised query, Who is William Philbrook? caused by the election of that unheard-of individual to the important position of Superintendent of the City Farm. This great unknown may be eminently fitted for the place, but nobody that we have seen, had ever heard of him before; till at last a City official *did* inform us (if we remember correctly) that the new appointee is son-in-law of Mr. Scott, and formerly lived on the Farm, when that gentleman was Superintendent. We hope the change will be improvement; but we think that if put to vote of our tax-payers, the present incumbent, Mr. Norton, would get more than all other candidates put together; and we regard his removal as unfortunate for the City and the institution—believing as we do, that a thorough business man and good disciplinarian is far more important there, even than a good farmer. In fact, *two* men are needed, one out doors and the other for the House; and we wish both might be retained.

We say this, without intending to intimate that the late Superintendent was *not* a good farmer, for we are sure he is a very capable one, or that the new man is not a good disciplinarian, for we know nothing about him. But we do regard Mr. Norton as a rare man for the place—not to mention his excellent wife as matron; and we see no reason for his removal, after all the talk, except personal feelings. And we are sure a large majority of our citizens agree with us.

A TAX PAYER.

☞ We understand that Wm. L. Hanscom, Esq., formerly of this city, who has been engaged by the Russian Government to construct an iron-clad fleet, is desirous of carrying with him a large number of American workmen skilled in that work. The inducements held out are quite large in figures, and the engagements will have to be made binding for a term of three years.

☞ The Chairman of the Committee in one of our School districts was recently called upon by a man having a boy in one of the schools, who spoke against the practice of gymnastics in our public schools. If the gentleman raising his voice against this most salutary regulation could but know by experience what a relief such exercises afford to a mind fatigued by study and see with what renewed vigor the books are resumed after the gymnastics are concluded, he would never again be numbered among opponents of such a measure. As it was, the only objection he was able to urge was that such exercise was "of no use."

☞ Among the various criticisms on Hon. J. W. Patterson's scholarly lecture on Friday evening, was one that would be likely to startle the Professor somewhat. An elderly gentleman, entering after the ball was well filled, had a vacant place pointed out to him, but declined taking it, saying he didn't think he should stop, for though Mr. Patterson had "great natural ability, he was a man of no education."

☞ "It's outrageous," said our comic editor, as he came into the office one day during the late thaw, "I wouldn't have believed it, bad I not seen it with my own eyes!" On our inquiring what the dreadful affair was which so agitated him, he broke out afresh—"Why, our bootblacks are to be deprived of their livelihood by the ladies; I have just seen a placard in a rascally shoemaker's window, which reads, 'Ladies polish Boots.' I think that is very nearly running women's rights into the ground." After some difficulty we succeeded in showing that he had mistaken an adjective for a verb transitive, and he departed with a brighter understanding.

☞ The apprehensions of the residents of this city and those living in the vicinity of the Yard, in relation to an accidental explosion of the Powder Magazine located there, are removed with the removal of about half a million pounds of gunpowder.

☞ The Mechanics' Association Reading Room received a donation of about twenty volumes on Friday evening, from a gentleman of this city. This will serve as a nucleus for a future library. Bring along your books, gentlemen.

☞ Mr. C. W. Gardner had a large audience to listen to his lecture on "labor," at the Temple, on Saturday evening. He has also been very favorably received at several points in Massachusetts, where he has spoken during the past week.

☞ Couldn't our city authorities allow one of our steam fire engines to flood the South Pond so that Young America may disport itself upon skates the coming anniversary of Washington's birth-day? This plan has been pursued in Augusta during the winter, and has given great satisfaction to the citizens there.

SMITH'S CATARRH SNUFF is the best thing I know of for cold in the head or influenza. It is not irritating, it does not snap your head off with a big sneeze and then leave you worse than before, but one or two pinches will relieve the disagreeable feeling of fullness; and about half a dozen pinches cured the most severe cold I ever had. J. H. THACHER, Druggist.
Portsmouth, Feb. 16, 1866. F17

SMITH'S CATARRH SNUFF breaks up a cold in the head in a few minutes, thoroughly. If this is saying too much, ask Mr. J. S. HARVEY, Broker, of this city: he says it is so every time, and he would not be without it, even if it should cost five dollars a box. Try it. F17

SMITH'S CURATIVE COMPOUND will break up chills and fevers, by drinking it in warm water, in a few minutes. It will cure sore throat and croup in a few minutes, and thus prevent a fit of sickness. B. F. CHANDLER, Civil Engineer at the Portsmouth Navy Yard, had a Wen, so called by two surgeons, on his wrist, growing rapidly. It was entirely cured by Smith's Curative. Just ask Mr. Chandler if this is true. F17

Holloway's Pills and Ointment.—Falling of the Womb.—During the early stages of gestation, many young married females are subject to a sinking of the womb, which causes them considerable trepidation and uneasiness. The Ointment will be found invaluable in these emergencies, as it entirely dispenses with the necessity for *pessaries* or mechanical agencies. The Pills will brace the enfeebled organs, strengthen the system and secure the invalid from a future relapse. These medicines are valuable in all complaints incidental to the female sex. Sold by all Druggists. 1wdaw—feb16

Special Insurance Notice.

To my Friends and the Public:

Twelve years ago I was appointed Agent of the HOME INSURANCE COMPANY of New York, and have faithfully performed every trust and duty for the Company. Last week I received a note from Mr. N. A. CLARK, Special Agent, stating a change was to be made and the Agency to be transferred to another party. I at once thought what was in the wind, and left for New York to learn the cause, but before my return the change was made. I inquired why the change was made, as not a word had been said that all transactions were not satisfactory—and all the charges they brought against me were that the Company was making no money in Portsmouth, that the rates of Insurance were too low, and I was blamed for the late fires—the burning of Congress Block and Locke's Stable.

This same Special Agent, N. A. CLARK, spent several weeks in Portsmouth, examined all my risks that he wished to see, and generally called them very good; approved the risks of Preston, Shores and Salen, in Congress Block. Mr. Clark, at my request, went with me to Woodbury Locke's Stable on State street, and examined the premises and stood, and fixed the rate at 1½ per ct., a half per cent. less than I had before insured him, and authorized me to take any reason able amount Mr. Locke wanted insured. I acted under his instructions; and if insuring the Stable was the cause of the *fire*, the blame should be on Mr. Clark, and not on me—for I should not have taken it at that rate. Such is a true statement of the facts and all charges that have come to my knowledge.

I think the Home Insurance Co., or their Special Agent, N. A. Clark, has done me great injustice, after working for them for so many years; then, without any satisfactory reason or complaint, and without notice, give my hard-earned labors to another man. I trust my friends and the public will withdraw their Insurance, and bestow it on me, where it rightfully belongs,—for I have several as good and responsible Insurance Companies as the Home, of New York.

CONCORD BANK.

NTERESTING DETAILS OF THE ROBBERY & DETECTION OF THIEVES.

NEW YORK, Feb. 14.—Full details of the *modus operandi* of the detectives in securing the arrest of the robbers of the Concord Bank and their plunder are published this morning. It appears that after many unsuccessful efforts on the part of Messrs. Heath, Jones and Hunt, Boston detectives, which included trips to Philadelphia and other places, in which efforts they were aided by New York detectives, they finally discovered some of the missing bonds on a man in this city, who was willing to sell them.

Through his confession and information on Jan. 22d, detectives Hunt, Dunn, and some of the New York detectives, proceeded to Camden, New Jersey, opposite Philadelphia, there once down the shore of the Delaware to a cottage near the village of Fastiboro, where was the chief robber, a notorious counterfeiter named Langdon W. Moore, alias Charles Adams, who was taken to New York and committed on a charge of burglary. Nothing was found on Moore. The house was thoroughly searched, curtains pulled down, carpets ripped, desks broken open, beds examined, and the wainscoting and flooring of all the rooms examined, but no bonds was unsuccessful. On digging under the stable, however, they found a glass jar, hermetically sealed, a few feet below the surface, which contained $100,000 in bonds.

They next dug three or four feet below the sill of a water gate on the bank of the river below high water mark, where they found a tin box containing $79,000 in bonds.

All the bonds have been identified by the bank officers, and altogether $196,481 of the stolen property were recovered and given over to the bank officers. Moore is here in prison awaiting a requisition from the authorities of Massachusetts.

By the statements of Moore he and an accomplice waited eight months for an opportunity to rob the bank, and succeeded in doing so in broad daylight by using false keys while the cashier was at dinner. Moore's accomplice was Harry Howard, alias "English Harry," who has doubtless left the country.

Both Adams and Kinney now await the disposal of the Massachusetts authorities. Adams has given the following statement of how the robbery was committed:

About eight months before it took place Howard was passing the bank, when the thought struck him what a splendid job it would be if it could be robbed. He entered the bank and asked to have a bill changed. The cashier, not liking his looks, declined to accommodate him, and he retired disappointed. About a week after, Adams, who had in the meantime been posted, went to the bank and purchased some bonds. By this means he ascertained where the safe was located, and that the key of the safe was kept during the day time on a small shelf adjoining. He at once communicated with his comrades, and how it was his opinion that the bank could be robbed if the usual precautions were observed.

The first thing done was an impression of the lock on the outer door in wax, in order that a key might be forged. This consumed fifteen nights, and when the door yielded to their efforts it was found that no less than seven other doors barred their progress to the safe. Perseverance is the burglar's motto, and for less than eighty nights did they work in the interior of the bank, taking impressions in wax of the locks and adjusting keys.

At length they reached the safe and as it was found impossible to operate with any hope of success upon the combination locks, it was determined to blow it open. On the day of the robbery the conspirators watched the paying teller and other employees leave the bank and as soon as they were out of sight of the place, Adams being the cooler hand of the two, decided to enter the bank while Howard was stationed in a covered wagon in such a position that he could see any one who might approach the bank. While unlocking the outer door a little girl inquired for the cashier; she was told that he had gone to dinner. She passed by with a young man also came to the door of the bank and rapped. In the meantime Adams had gone into the bank, locking the door behind him. No attention was paid to the young man, who being tired and probably believing that no person was inside walked away.

In a short time Adams made his appearance with the contents of the safe made up in a neat bundle under his arm. He had locked the door of the safe in the position in which it was kept during the day time, and after taking from it the contents, locked the safe and placed the key in his pocket, and then carefully locked the various doors behind him.

On reaching the street Adams locked the outer door, and taking no notice of his companion, with the bundle under his arm he sauntered coolly and carelessly up the street. Passing through the village he turned into a wood on the outskirts and sat down to wait for his companion. The latter had remained in his wagon until Adams was out of sight, and then, jumping from his vehicle, went into a hardware store in the vicinity and purchased some nails.

He returned, took the blanket from his horse, and drove off in an opposite direction from that taken by Adams, being, to all appearance, a quiet country farmer, who had come to town to make a trifling purchase, and was now proceeding leisurely homeward. On reaching the outskirts of the village he made a detour, and joining his comrade, they drove hastily off, and for the time being escaped with the plunder.

This case is without doubt one of the most remarkable and daring that has ever occurred in this country. Its conception and execution were daring in the highest degree, while the manner in which the case was worked up by the detectives is above all praise.

The reward to be obtained by the police is no small one, the bank authorities in their circular issued soon after the robbery having offered a reward of ten per cent. on all the stolen property recovered.

A WHITE BOY ESCAPING FROM THE INDIANS. — A Missouri officer, Col. King, lately arrived home from the Plains, brought with him a boy of twelve who had one morning came into his camp from the savage Sioux. The boy knew scarcely a word of our language, but by signs, grunts, and here and there an English word mixed up with his Sioux made out to tell that he was a "pale face," that he had had a "big fight" with a young Indian, whom he called "Young Buck," and had got his scalp; and that fearing the "old bucks" would kill him, he had fled on his little pony. It was "five wakes and four sleeps" since he fled. He counted the number on his fingers.

He seems to have no knowledge of his parents or birthplace; or how he came to live with the Indians. A gentleman in Quincy, Ill., Mr. Sylvester, visited the boy and came to the conclusion that he is the son of his brother, now living in Oregon, who had a child stolen from him while crossing the Plains in 1860. After laying the matter before a council of distinguished men, and accepting their advice, Col. King gave the boy in charge to Mr. Sylvester as his uncle. He is a wild fellow, without any conception of parental love, or regard for social relations; and Indian-like, civilized very slowly.

The Providence Journal reports that spurious money has obtained circulation in that city during the week, comprising counterfeit Fives on the Union Bank, Haverhill, Mass., and counterfeit Tens on the Essex Bank, of the same place; counterfeit Tens on the Fall River Bank; Twos altered to Fives on the Blackstone Canal Bank; Twos altered to Tens on What Cheer Bank; and Ones altered to Fives on the Manchester Bank N. SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally compelled to seek the advice of a learned Physician, Doctor Cabinlie, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my sincerest gratitude and thanks,

I am very respectfully yours,

S. S. CONSTENIQUER,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rhematic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continued to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or nullity of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

HENRY BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the searching, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which succeeded in *his favor*, by the Commissioner of Patents. R. H. EDDY.

REMOVALS FROM OFFICE.—Mr. Harlan, U. S. Secretary of the Interior, so called, if anybody knows just what that is, at Washington,—has recently removed a Mr. O' Connor, who under the *nom de plume* of "Walt Whitman" has written what he calls poems, which Mr. Harlan objects to, and so tells Mr. O'Connor, Whitman, or what not, that his services as clerk are no longer required. In discussing this matter, the Boston Transcript issues the following language —which *may* have a partial application elsewhere, at some time:

As far as it regards the act of Secretary Harlan in turning Mr. Whitman out of his clerkship, we are willing to join Mr. O'Connor in stigmatizing it with any epithet which does not pass beyond the point of being a synonym of meanness or narrow-mindedness, and which does not lift Mr. Harlan to quite an undeserved position among the great enemies of the human race. Our impression regarding clerkships at Washington is, that they are commonly given for political services; and that if Mr. Harlan, or Mr. McCulloch, or almost any other Secretary of a Department, could make a serviceable friend in his particular locality by turning a Tennyson or a Longfellow out of an office, and putting a John Jones in his place, he would not hesitate to do it.

Since Hawthorne, the most original of our writers, was expelled from the Salem Custom House by the triumph of a party which specially prided itself on representing the intelligence of the nation, we have ceased to indulge in superfluous wonder at any exercise of political "patronage." We hardly know of a politician who considers anybody deserving of an office who has not served the party, and served also the person who has the office in his gift. Suppose Mr. Harlan should come out with his vindication, and assert that his hostility to "free literature" was a mere pretence, and that his real reason for expelling Mr. Whitman was to create a vacancy for some useful friend in Iowa? In that case what thorough-going politician would not consider such a vindication triumphant? The "moral dodge" in the transaction would only increase Mr. Harlan's reputation for sagacity among the peculiar class of men who do the little jobs of great officials. Mr. O'Connor prides himself on his desire to see things just as they are. Why then all this indignation at one illustration of what he must know to be the corrupt commonplace of our politics?

We cannot think that Walt Whitman or any other man of letters can suffer from any opinion held by any member of the Cabinet, regarding the intellectual or moral value of his writings. We should as soon think of taking the judgment of a London alderman on the merits of the "Idyls of the King" as that of Mr. Harlan on any literary subject whatever. And perhaps the hardest thing we can say of his conduct is, that we are not at all surprised at it.

— The Boston Commercial Bulletin says "that even the most radical abolitionists prefer *South-mayd* confectionary to any other."

TO THE LADIES.
Miss GUILD offers to the public her superior Crystal Palace Chart for CUTTING DRESSES, which is conceded by competent judges to surpass any invention of the kind ever offered to the American public. She feels fully warranted in saying that it is as perfect a fit as human ingenuity can render it, and should be in the possession of every lady. It is simple, easy, and graceful, adapted to fit every form and size, from little girls of seven years to the largest adults. Directions printed in full on every Chart. None genuine unless the Crystal Palace is engraved on it, and the address of the inventress printed. Copyright secured, and no infringement allowed.
Agents wanted in every part of the country. This Chart will be sent to any person on receipt of $2 addressed to
Miss LUCY GUILD, Rupert, Vt.
Ladies wishing a tape measure must inclose 15 cents extra.
Miss Guild warns people from buying, selling or using a chart called the National Chart by Miss Jane Eddy, Nashua, N. H., as it is an infringement of her copyright. Any person printing, selling or using the counterfeit chart will be prosecuted according to law. One Albert J Warden has been extensively engaged in selling the counterfeit chart, and is supposed to be the perpetrator of the forgery. Any information leading to his arrest will be liberally rewarded.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with a view to public advancement. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of farm land, twenty acre lots and upward, $25 per acre. Five and ten-acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire an industrious, healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges of a heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawGw

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the human frame is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth eternal.
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it live.
These Famous Remedies
Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost immediate influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the great
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

SATURDAY, FEBRUARY 20, 1866.

HOW THE LABOR QUESTION WAS SETTLED IN VIRGINIA.—In last July and August there were multitudinous complaints that the negroes would not work, could not be induced to hire themselves, and, by theft and idleness, were an absolute ruination to all localities. Various officers were sent around, who, discovering the fact to be that the planters tried to create a false clamor in order that the authorities should compel the negroes to work for little or nothing, by stringent orders to be enforced by the military; called meetings of all classes, and announced that as the freedmen were not in a satisfactory state where they were, they would immediately be moved off to other parts.

This brought the whites to terms instanter. The most responsible parties rushed to the officers, saying that they couldn't possibly manage without labor; that their harvests must be got in, and how were they to do it if the negroes, their only laborers, were marched away? "Very well," was the reply; "make fair contracts for labor, and they will be enforced." This was done, and it was found that the negroes were perfectly willing to work, and have done so.

☞ A Washington dispatch says the President has refused to countermand the order for the suppression of the Richmond Examiner, upon application of Mr. Pollard, but referred that gentleman to Gen. Grant, who expressed his willingness to receive any written communication from Mr. Pollard, addressed to him from Richmond upon the matter.

The Lieutenant General-in-Chief says that the course of the Richmond Examiner, in every number which he has seen, has been such as to foster and increase that ill feeling existing toward the Government of the United States by the discontented portion of the Southern people. He believes it to be for the best interests of the whole people, North and South, to suppress such utterances whenever the power exists to do so. And that power certainly does exist where martial law prevails, and will be exercised. Reluctant as he is to pursue this course—and much as he dislikes to interfere with the interests of individuals—he would deem it improper and mischievous in tendency to revoke the order for the suppression of the Richmond Examiner.

Gen. Grant has also had the following circular order concerning the suppression of disloyal papers, sent to every General in command of a department:

"*General:*—You will please send to these headquarters, as soon as practicable, and from time to time thereafter, such copies of newspapers published in your department as contain sentiments of disloyalty and hostility to the Government in any of its branches, and state whether such paper is habitual in its utterance of such sentiments. The persistent publication of articles calculated to keep up a hostility of feeling between the people of different sections of the country cannot be tolerated. This information is called for with a view to their suppression, which will be done from these headquarters only."

There is a paper in this vicinity, worthy of the General's attention.

☞ Letters from Mexico, dated the 2d and 6th insts., state that Maximilian's treasury is empty, and his Ministers say the very existence of the Empire rests on the procuring of a loan of one hundred million dollars, negotiations for which are progressing in Paris. Marshal Bazaine has recently loaned Maximilian three hundred thousand dollars out of the French funds. It is hinted that if the negotiations at Paris fail, a general forced loan will be made, which will result in an uprising. M. Langlais, Napoleon's special agent, has accepted the position of Finance Minister. The present strength of the army is stated at 20,000. Maximilian, in a recent speech, had dwelt upon the probable withdrawal of the French troops, owing to the influence of the United States. Between 16,000 and 17,000 Mexicans have been executed by Imperial Court Martial since the end of last December.

THE STEAMBOAT RACE.—During the race between the Winooski and Algonquin, the former vessel gained sixty-five miles upon the latter—equivalent to two and a half miles per hour during which the contest lasted. The Algonquins report themselves "dead beat," but say that in so far as the terms of their contract with the Government were included, they were satisfied, as the vessel made eleven knots per hour, with great comparative economy of fuel, to prove which was the sole object of the contest.

— In St. Louis, on the morning of the 17th, messenger of the U. S. Express Company, while delivering packages, was robbed of $40,000, nearly all the contents of his satchel. From the fact that the packages which the messenger went to deliver, and which were left by the robbers, contained counterfeit money, and other suspicious circumstances, it is evident the robbery was previously planned.

NEW HAMPSHIRE ITEMS.

— H. S. Huntington, of Norwich, Ct., was ordained Jan. 31, as pastor of the Congregationalist Church in Warner.

— Manchester rejoices in fifteen street letter boxes, attached to lamp-posts in various parts of the city. Five more are to be added.

— A Concord dispatch of the 17th says "Hon. Benning M. Bean, formerly a Democratic member of Congress from New Hampshire, died at Moultonborough on Friday of last week, aged 84 years."

— On Saturday evening the sons and daughters of New Hampshire now resident in Washington, called on Governor and Mrs. Smyth, and enjoyed a most agreeable reunion, free from formality and ceremony. The parlor was adorned with choice bouquets, sent to Mrs. Smyth by the ladies at the White House, Commissioner French and Mrs. E. H. Rollins.

WAR CLAIMS OF NEW HAMPSHIRE — "Perley" writes from Washington that Gov. Smyth has made very satisfactory progress in obtaining the recognition of the disallowed war claims of this State, among them one for placing the Navy Yard and harbor of Portsmouth in a defensive condition in 1861, for which no authority could be found. After searching in vain at Concord and W., Gov. Smyth wrote to Gen. Wool asking him if he knew anything about it, and received in reply a letter from the General enclosing an order which he had sent to Gov. Goodwin of New Hampshire, directing the special duty, which was at once received there as a voucher, and the claim was paid.

SMUGGLING.—On the 12th inst, while off Block Island, the United States revenue cutter Miami boarded the brig California, Captain Camen, bound from Matanzas to Bristol, R. I., with a cargo of honey and molasses. On searching the vessel many articles were found which were not entered on the manifest, as required by law. A large quantity of cigars, liquors, &c., was discovered, but as the sea was running very high at the time, it was found impossible to make a thorough search, so the California was taken in tow by the Miami, a prize crew was placed on board, and she was towed to Newport, R. I., for further investigation. The California is owned by Messrs. Usher & Brothers of Bristol, R. I. The captain denies having any knowledge whatever of the contraband articles being on board.

SUDDEN DEATHS.—On Monday morning, Mr. James Cogswell of Haverhill, was found dead in his bed. Not appearing at his usual hour for breakfast, his room was entered and his lifeless body was found.

On Tuesday evening Mr. Thomas Nichols residing at Haverhill East Parish went out to feed his pigs, and not returning, search was made and he was found lying dead in a pool of water near the pen. It supposed that he broke through the ice and was stunned by the fall, which rendered him unable to extricate himself. His age was about 72 years.—*Gazette.*

☞ The ladies have adopted the "whirlpool" as the name for the substitute to the "Waterfall." The "Rivulet" is worn by those who have enough of their own grown hair to allow it to trail behind naturally or hang in tresses. The "Frizzle" of all the hair on the head is denominated by sailors as the "Hurricane at sea, or the Fright on land." The variegated colors of hair so frequently worn of late is increasing in popularity. Red, auburn and dark brown mingle extensively.

— The U. S. frigate Colorado, the flagship of Admiral Goldsborough, arrived at Gibraltar Jan. 19, from Nice, and left for Cadiz on the 21st.

— Mr. Chapman, of Hartford, Conn., charged $1000 for conducting the defence of Starkweather, the murderer of his mother and sister. The State's attorney received $9 for conducting the prosecution.

— The Chicago papers inform us that a load of pork put on sale at Peoria, Ill., last week, was examined microscopically, and that two of the hogs were alive with *trichinæ*.

— A woman named Anastasia Scott, in New York on Saturday night, murdered her three children by suffocation, and then made an unsuccessful attempt to take her own life.

— Wm. Lang, 44 years of age, was found in Fall River, on Saturday morning, frozen to death. He had been to New Bedford, to bring about the prosecution of his wife and his brother for a lamentable crime.

— Eleven men were frozen to death in the vicinity of Hamilton, Fillmore county, Minn., on the night of the 20th ult. Six of them were frozen in a sleigh while passing along the road. Another man was found frozen in a standing posture, with his hands over his face, and only three or four rods from a house.

☞ Considerable interest having been felt in this city concerning the match between Lambert and Seaver, we give the comments made thereon by the Portland Advertiser of Monday:

During the last four days of the past week, there was quite an excitement among the sporting part of our community, over the so-styled walking match between Lambert and Seaver. From the first we thought the affair a grand humbug, and, therefore, with the exception of their first entrance into the city, we made no mention of the progress of the pedestrians until such time as the trial should be over; and we knew for a certainty of its being a "Simon pure" trial of physical strength and endurance. But Saturday evening, about 7:45 o'clock, Seaver was said to have become exhausted and carried over to the United States Hotel, and for a time all rumors were afloat concerning the termination of the affair. But as near as we can learn, the general opinion is that the whole thing has been a complete humbug from beginning to end, and no doubt gotten up by the parties interested for the sake of the door money, and not the stakes either party might win. We form this opinion from the fact that during the time prescribed for them to walk the 150 miles in, they were at different times watched, and at one time—it is currently reported—for the space of two hours not a person was seen or heard to move. Certainly this was not carrying out the advertised programme. Persons might think that Seaver's giving out before the expiration of the time in which the 150 miles were to be walked, was a sufficient guarantee of the trial being genuine; but if Seaver was as exhausted as he pretended to be, it is very singular that he should have become sufficiently recovered in the short space of an hour to do as he did, or even go gallanting round our city at the 2.40 rate of yesterday. Verily, this is a day of humbuggery, and our people seem ready to take their portion of it.

[Communication.]

THE NEW SUPERINTENDENT.—*Messrs. Editors:*—As I had presented my figures, and given my views on the City Farm accounts, before the new Superintendent was appointed, I neither intended nor desired to say another word about the matter. But as another and to me unknown correspondent has seen fit to sign his communication "A Tax Payer," thus almost exactly using my signature, I wish to say very briefly, that while the coming man is unknown to me, I have full confidence that 19 members of the City Council, who voted for him, either knew him personally, or by good vouchers, to be capable and trustworthy; and that I hope he may prove to be as good a farmer, and as good a governor of the Almshouse and House of Correction, as his predecessors, with most of whom I have been well acquainted, and all of whom I duly respected in their responsible and difficult position.

It is *not possible* for any Superintendent to do his duty there without offending somebody, and calling down censure on his head. Nor would it be possible for any slovenly quack (such as we have never had there yet,) to get along five years or three years, without running ashore.

I desired to do justice, and justice only, to the retiring Superintendent;—and I intend neither more nor less towards the new. I would make no comparisons to his disadvantage, in advance; but give him such countenance as every good citizen should afford to a new officer who is just putting on his armor. TAX PAYER.

☞ "Should auld acquaintance be forgot?" Thursday, the 22d inst., is Washington's Birthday anniversary. What order will our citizens take upon observing the event?

☞ It is reported that Rev. Thomas F. Davies, Rector of St. John's (Episcopal) Church in this city, has received a call from a church in Stamford, Connecticut, with a salary of $2000. Not only his Parish, but our citizens generally, would regret his acceptance of it.

☞ U. S. steamer Mackinaw, which arrived here on the 8th of May last, and sailed about a fortnight since, after being thoroughly repaired, arrived in Hampton Roads on Saturday last.

THE ATLANTIC MONTHLY for March is a number of rare excellence, and of a varied and miscellaneous character that affords no room for cavil at want of vivacity from those who prefer the champagne of letters to more substantial fare. Aldrich has a sweet conceit in the following little poem to be found in it:

SNOW.

The Summer comes, and the Summer goes.
With flowers are fringing the dusty lanes,
The sparrows go darting thro' fragrant rains,
And, all of a sudden,—it snows.

Dear Hearts! our lives so happily flow,
So lightly we heed the flying hours,
We only know Winter is gone—by the flowers,
We only know Winter is come—by the Snow!

S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all tube iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

PHOTOLEUM.
This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the pub lic, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does not diminish, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.
Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 57 Water Street, Boston.

Special Notice.
"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may be the sole outward evidence from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGGIE'S BILIOUS DYSPEPTIC PILLS and DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGGIE'S SALVE is infallible. Sold by J. MAGGIE, 43 Fulton street, New York, and all Druggists, at 25 cents per box. deeteod&wly

A Card to Invalids.
A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *free of charge.*
Please inclose a post paid envelope, addressed to yourself. Address,

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver-spots) and Lentigo, or freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly marr the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

THIS VITAL FLUID FREE,

to aid a weak "locality" to recover its proper and necessary "status" or health.

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown. It will not stain the skin or the finest linen. Will instantly arrest the hair from falling off; cause hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed vastly better than any other preparation in the market.

This article is warranted to do as represented, or the money will be returned. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

DEATH AT THE ALMSHOUSE.—An old man who gave as his name Lorenzo Webster, was found on the street on Thursday night last, in a partial state of intoxication, and apparently sick. He was taken by the Police to the station-house, and Dr. Curtis, health officer, called to administer to his wants. On the following day he was sent to the Almshouse, and received such attention and medicinal aid as his case seemed to demand, but on Friday night died. He stated that he was from Plymouth, and had been brought here and left without money or friends; and that he had been sick with the asthma for some time.

City Marshal Kent has found a carpet bag said to have been the property of the deceased, marked "W. A. Webster, Surgeon 9th N. H. Reg." In the bag was a card of the East Machias House, Maine, kept by F. S. Gilmore; also several "Machias Republicans," with the name of F. S. Gilmore written thereon. The style of clothing in the bag gave indication of the owner being a man of good standing in society. The deceased was a man about five feet six, thick set, about fifty years of age, and lame.

POLICE COURT, Feb. 19th. — "Jere" Leary, who lives in a house on Bow street, was complained of for striking a boy with a clothes-pole. It appeared that Jere was engaged in one of the out-houses attached to his dwelling, and a number of unruly boys amused themselves by throwing rocks at the building in which Jere was for the time-being stopping. Jere feeling outraged, rushed out, and grabbing a clothes-pole, administered a castigation to one of the "Young Americas;" for which he was fined $5 and costs of court, $5.14,—from which judgment Jere appealed. Hatch for defence.

James F. Barr, an honest yeoman who follows the sea in search of the finny tribe, hired one Henry P. Schmidt, of teutonic extraction, to "sail the mighty ocean" with him and *hook* fish. Schmidt, in his perambulations, found a better customer than Barr, and accepted a second offer. Barr found that he was *barred* out, and the first time he met Schmidt, which was in the aristocratic part of Water street, he took personal satisfaction, viz: blacked Schmidt's eyes, which were previously blue. The Dutchman complained; Barr was arrested; he sought the legal advice of his friend Frink, but all of no avail—for notwithstanding Mr. Frink made an eloquent appeal in his behalf, he too had to pay the penalty of $5 and costs of court, a V more.

Murtha Doyle, a marine, was the cause of a case City of Portsmouth vs. United States. Murtha gets "half seas over" plus "half seas over," to the dislike of the citizens generally, and to Marshal Kent particularly. He was on picket duty Saturday, and got outside the lines, and was picked up by one of the Marshal's videttes, and brought into camp. General Odell assessed him "six eighty-six," and sent him to the Vandalia as an *estrayed* prisoner.

The case of Edward H. Parks, a sailor on the Vandalia, for whipping his wife, was continued until to-day.

☞ Hon. J. W. Patterson closed the Lyceum most gloriously, on Friday evening, with an eloquent and logical discourse on National matters, from the text of the golden rule. Given entirely without notes, with the freedom of motion, and grace and earnest action of the impassioned speaker, it was a splendid specimen of the powers of one of the most thorough of American scholars and the most brilliant of American orators—and a statesman every way worthy of any station, and eminently fitted to adorn the highest.

☞ The Cornet Band's Concert, the other night, was a very fine entertainment, and was well attended. The Band played well—and through the long programme, the interest of the audience was fully kept up. The two difficult medley pieces were very well given, but were rather too lengthy. The vocal performances were well received.

☞ The *great* little folks and the Continental Vocalists appear at the Temple again to-night. They had a good house last evening, in spite of the weather; and are "well worthy the attention of all who" enjoy good music and like a nice show generally. Don't fail to call on 'em, at the Temple tonight.

PERSONAL.—E. P. Hooper, Esq., Gen'l Secretary of the Grand Eight-Hour League, was in this city yesterday, and last night installed the officers of Piscataqua League No. 1 of N. H. The next meeting of the League will take place to-morrow (Wednesday) evening, at seven o'clock, at Rechabite Hall.

FOUND.—A little girl was found in the street on Monday afternoon, who could give no account of herself, save her name. Her parents were hunted up by the police authorities, and she was returned home.

☞ The Roanoke, built at this Navy Yard, will soon have her engines put in, at Washington.

— There are 21 editors in the Iowa Legislature.

— Six persons escaped from the jail at St. Joseph, Mo., on the night of the 6th inst. They opened the doors of their cells with wooden keys made from pieces of their sleeping bunks.

— Mr. Peabody, the American banker, added £100,000 to his gift for the benefit of the poor of London, making a total gift of a quarter of a million pounds sterling—probably the most splendid act of munificence on record.

CORDIALIZED.

Dunster's London Dock Gin being slightly cordialized, possesses a rich and pleasant flavor, which makes it the most agreeable, as well as healthful article to be found. It is sold by druggists and grocers at retail, and by the wholesale agent, C. A. RICHARDS, 99 Washington Street, Boston. 29

SMITH'S CATARRH SNUFF is the best thing I know of for cold in the head or influenza. It is not irritating, it does not snap your head off with a big sneeze and then leave you worse than before, but one or two pinches will relieve the disagreeable feeling of fullness; and about half a dozen pinches cured the most severe cold I ever had. J. H. THACHER, Druggist.

Portsmouth, Feb. 16, 1866. F17

SMITH'S CATARRH SNUFF breaks up a cold in the head in a few minutes, thoroughly. If this is saying too much, ask Mr. J. S. HARVEY, Broker, of this city: he says it is so every time, and he would not be without it, even if it should cost five dollars a box. Try it. F17

SMITH'S CURATIVE COMPOUND will break up chills and fevers, by drinking it in warm water, in a few minutes. It will cure sore throat and croup in a few minutes, and thus prevent a fit of sickness. B. F. CHANDLER, Civil Engineer at the Portsmouth Navy Yard, had a Wen, so called by two surgeons, on his wrist, growing rapidly. It was entirely cured by Smith's Curative. Just ask Mr. Chandler if this is true. F17

BE CAREFUL.—Do not expose yourselves to the chilly March winds and the shaking weather which always heralds their approach. Keep your children warmly clad and close from exposure. For bad Coughs, Colds, or obstinate Colds, Croup, and Sore Throat, use Coe's Cough Balsam.

If you have the Dyspepsia, or are troubled with food distressing you, rising and souring on your stomach, your bowels are out of order, you are bilious, constipated, and generally indisposed, use Coe's Dyspepsia Cure. It is the best medicine for stomach and bowel disorders in the world. feb19—1wdaw

Holloway's Pills and Ointment.—Falling of the Womb.—During the early stages of gestation, many young married females are subject to a sinking of the womb, which causes them considerable trepidation and uneasiness. The Ointment will be found invaluable in these emergencies, as it entirely dispenses with the necessity for *pessaries* or mechanical agencies. The Pills will brace the enfeebled organs, strengthen the system and secure the invalid from a future relapse. These medicines are valuable in all complaints incidental to the female sex. Sold by all Druggists. 1wdaw—feb10

THE DEMOCRATIC CANDIDATE.—The Republicans are under great obligations to their Democratic fellow-citizens for their selection of John G. Sinclair as a candidate for Governor. He is one of the most vulnerable of the Copperhead crew; a man who not only had no sympathy for the Union cause through the recent struggle, but would have rejoiced with exceeding joy, if the rebels had been victorious. He is one of the most rabid of his tribe; a man apparently incapable of taking a comprehensive view of any subject of great public concern, and whose most notable public performance consisted in endeavoring, when in the Legislature, to defeat the "Soldiers' Voting Bill." The "Boys in Blue" will pay him their respects on the Second Tuesday of March.—*Statesman.*

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, he is now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of these cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
FARRANT & CO.
Gentlemen, I am a resident of Curacao, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for Indigestion and Dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
I trust you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacao, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries, on the most reasonable terms, and attends to all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American, or Foreign records, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES, he would simply add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full access to all patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending.* Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY one of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

CHEROKEE PILLS,
Or Female Regulator,
Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects from the system. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.
Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject. Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box; or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases* requiring milder medicines, and are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to coarse the veins, restoring the *Organs of Generation, removing Impotency and Sterility.* *Delicious Nectarious are the system cool and full vigor*, thus proving a *overcome disease.* perfect "*Elixir of Love*," removing *Sterility* and Barrenness in females. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have rosy cheeks, bright eyes, and the entire system to thrill with joy and pleasure.
"As the Phœnix rises from the ashes of its fire, regenerated with youthful vigor—so does Nectarious Elixir.
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for those medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We are prepared to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints of the lower nature, unique to females. He continues, with his usual success, to medically and surgically remove Obstructions, Excessive Menstruations, Whites, Weak Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use.
Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed by nurses.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. TthSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no liquid but *great experience* in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

TO THE LADIES.
Miss GUILD offers to the public her superior Crystal Palace Chart for cutting dresses, which is conceded by competent judges to surpass any invention of the kind ever offered to the American public. She feels fully warranted in saying that it is as perfect a fit as human ingenuity can render it, and should be in the possession of every lady. It is simple, easy, and graceful, adapted to every form and size, from little girls of seven years to the largest adults. Directions printed in full on every Chart. None genuine unless the Crystal Palace is engraved on it, and the address of the inventress printed. Copyright secured, and no infringement allowed.
Agents are wanted in every part of the country. This Chart will be sent to any person on receipt of $2 addressed to
Miss LUCY GUILD, Rupert, Vt.
Ladies wishing a tape measure must inclose 15 cents extra.
Miss Guild warns people from buying, selling or using a chart called the National Chart by Miss Jane Eddy, Nashua, N. H., as it is an infringement of her copyright. Any person printing, selling or using the counterfeit chart will be prosecuted according to law. One Albert J Warden has been extensively engaged in selling the counterfeit chart, and is supposed to be the perpetrator of the forgery. Any information leading to his arrest will be liberally rewarded.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Canals, Art and Manufacturing, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling and building. Houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots, $100 and $200.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk.
Improved Farms for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the only Steam Grist Mill in Cumberland County.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautiful, and possessing all the advantages of society, including all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, Pamphlets of Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants. Address CHAS. SHINN, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of the Tribune: It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies. m1—dawóm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the wasting energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it true.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but purifies with the most searching effects to the very root of the evil.

WEDNESDAY, FEBRUARY 21, 1866.

THE VETO.

President Johnson, on Monday, February 20, sent in to the United States Senate, a Message, in which he Vetoes the Freedmen's Bureau Bill;—and on the same day, he revoked Gen. Grant's order which suspended the treasonable Richmond Examiner.

From the Boston *Advertiser's* correspondent it appears that loyal and earnest men in Washington deplored the course of the President in differing with Gen. Grant, while all the resident elements of opposition to the war were in high glee at what they were pleased to term the President's snubbing of the radicals.

Perley telegraphs from Washington at midnight, to the Boston Journal, as follows:

A notice that the President would be serenaded to-night by those who appreciated his devotion to the Union and the Constitution, drew together a big crowd at Willard's Hotel. A majority of them were old Democrats, many of whom have been in the rebel army, or in the departments at Richmond.

After some music by the band in front of Willard's, speeches were made by Judge Hughes, Representatives Voorhies and Green Clay Smith, after which a procession was formed, marshaled by Connell Whitley, the correspondent of the Richmond Enquirer, and marching to the White House. The band played and the crowd cheered, but Mr. Johnson could not be induced to speak or even to show himself. The crowd then visited Mr. Seward, who indulged in some vague remarks about peace, but did not allude to the veto.

Such a gathering of Copperheads has not been witnessed here since the spring of 1861.

Why the President should hide himself from his *new friends* in Washington, we cannot tell. And if Pres. Johnson could have seen the joyful countenances of his *new friends* in Portsmouth, when the news came, he might have been astonished at his popularity in such a quarter.

Our Copperhead exchanges are in ecstacies and heroics—possibly a day too soon. It seems doubtful whether two-thirds of the Senate will vote now to pass the bill: the appearances do not seem to favor it.

☞ What will the effect be of this Veto? said a friend. Probably to bring forward another bill for the same object, but divested of some of the features objected to:—and possibly to elect Gen. Grant as the next President, said Uncle Toby: for President Johnson vetoed the General's order on the same day, when he rejected the Freedmen's Bureau Bill.

☞ The "Democrats of New Haven" fired 35 guns on Tuesday, in honor of the President's Veto. Every copperhead, rebel and traitor rejoices: and all things base, brutal, and ruffianly, among the old slaveocracy of the Southern Egypt, will feel as if licensed to wreak their malice, revenge or lust on those poor Israelites, to whom Andrew Johnson was to be their Moses! But the end is not yet.

The Veto, the one man power, is very great; the patronage of the President is immense. But there are other powers: Congress is one: the people are many; and the loyal people, true to the Right, to Justice, and to *their own safety*, will not suffer the rebel States to rush in and govern the whole, without a protest or a struggle.

NEWSPAPER NOTES ON THE VETO.—The New York Tribune's Washington correspondent says the Republican Senators will not probably attempt to pass the Freedman's Bureau bill over the President's veto, as it would become nugatory in the hands of the President, with whom the whole administration of the measure is confided.

Editorially, the Tribune says Mr. Johnson has made a *grave mistake*. He has relived those who elected him of a great responsibility by taking it on his own shoulders. Hereafter, whatever wrongs may be inflicted upon or indignities suffered by the Southern blacks will be charged to the President, who has left them naked to their enemies. Time will show that he has thereby *precluded* a true and speedy restoration of the South and inflicted more lasting misery on her whites than on her blacks.

The New York Times takes no very decided position either way as regards the President's veto. Its leader closes thus: "In no essential point is the President at variance either with the majority in Congress or with the country. So far as the claims of the Freedmen are concerned, he seeks to reach the end aimed at in the vetoed bill by other and what he deems less radical means. It will therefore be for Congress and the country to weigh carefully the objections offered and at least respect if they cannot assent to the reasons on which the veto is based."

— Houdin, the magician, is a Newburyport boy, and is now in his native city for the first time in forty years. Those who witness his wonderful skill are inclined to think him the *old* boy.

Correspondence of the Chronicle.

PHILADELPHIA, Feb. 19.

Messrs. Editors:—This city, which is called the "city of brotherly love," from the fact that its inhabitants are two-thirds Dutchmen, with their ancestral thirst for lager beer, is discussing the practicability and feasibility of running the horse cars on the Sabbath. Enormous documents, whose signatures are copied from the city graveyards, as well as received from the living, have been flooding the Legislature of late, and the clergy *en masse* are having a potent influence against the proposed measure. Whatever may be the facts in reference to Sunday horse cars in Boston or New York, Philadelphia will not admit such an innovation upon her old Lutheran and Quaker ideas. Their general respect for the Sabbath will cause the citizens to overthrow men or measures looking to its violation.

The stranger stopping a few days in this city, is surprised at its entire destitution of public spirit. Merchants here mostly belong to the old school, who accumulate, but hoard instead of investing. Their commercial life is confined to a regular routine, and socially, they seem peculiarly reserved and exclusive. The hearty good cheer of the New England counting-room, or the generous treatment of the New York office, is lacking. There is no pomp, no display, no effort,—but a tame, listless floating-along with the current, and a greediness that only this Keystone State city monopolizes. Her heavy houses in any line are standard and honorable exceptions to the above remarks, which apply only to the general trading community in retail lines, whose character stamps business as too contracted, both in an intellectual and financial sense.

This unaccountable apathy on the part of her citizens to her true interests, makes Philadelphia a mere by-way or trading post in our commercial world—a sort of way station between Boston and the South, where honest New Englanders and shrewd Knickerbockers alight from the cars to dispose of refuse stocks from southern consignments. Such ought not to be the fact. Our Massachusetts paper-makers buy their stock here, to a large extent, make the paper and send it here for sale, at less expense than the home manufacturers can produce it. What is true in this instance is the rule everywhere, except in iron production. Philadelphia needs more energy. She has millionaires, but suffers for muscle. She lost $70,000,000 in petroleum greed for gain, and thus seems to misdirect every feeble effort put forth for her betterment.

YANKEE.

MEXICO.—The total income of Maximilian's goverment is calculated at seventeen to twenty-three millions of dollars, while the expenditure last year was forty-two millions.

M. Langlaie, the new Minister of Finance, began by cutting down the emperor's salary from $7000 to $3000 per day, and reducing all government salaries forty per cent.

One of Maximilian's recent extravagancies was sending to Europe for one thousand trees to adorn a new highway.

— Since the departure of the Opera Troupe, we notice an increase of foreign looking organ grinders and street corner dealers in hot chestnuts.—*N. O. Pic.*

— Herrick Allen's Gold Medal Saleratus is clarified and concentrated in such a manner as to render its use much more economical than any other. For culinary purposes it cannot be equalled in the world. A lady who has tested its merits, refuses to try any other. It is much better than soda, and is perfectly healthy. Try it. Grocers and Druggists sell it. Depot 112 Liberty St., N. Y. 51

OUR TEMPLE OF THE MUSES.—*To the Editors of the Chronicle*:—As one of an outraged public, I can hold my peace no longer. What I wish to protest against is this: the scandalous appearance of the stage and all the furniture belonging to it, of our only place of public entertainment. I don't believe there is another place in New England, half as large as this, that would be contented to present such a beggarly appearance in the eyes, not only of its own inhabitants, but of all the speakers, lecturers and singers who come hither from abroad. As I have sat, night after night, this winter, and looked upon that bare, shabby stage; that forlorn, ragged, hair cloth sofa; that most wretched apology for a speaker's stand; that brown-paper-shaded lamp; and that collection of chairs, unfit to furnish a respectable kitchen; I say, as I have seen all this, not only with my own eyes, but with the eyes of those strangers who had come from abroad to instruct or entertain us, I have blushed with shame and vexation.

I wonder what thoughts passed through Dr. Stone's mind, as he spoke to us of Public Spirit! No wonder, as he looked around on our *beautiful* hall, that he should have exclaimed, when his earnest words were loudly applauded, "Ay! you cheer, but do you intend to *do* anything?" But it is not only because of what strangers must think, that I speak: it is for *our own* sake. I say nothing now about the Temple itself as a comfortable or convenient place of meeting: on that point tastes and opinions may differ, though I doubt if they do, much. But it is the only place we have, or are likely to have, for the present. But cannot a sufficient pressure of public opinion be brought to bear upon the owner and leasors of that Temple, to oblige them to spend money enough to buy decent furnishing for the stage? — a respectable sofa, a few handsome chairs, a decent stand for the speakers, a proper shade to the lamp, and some sort of trimming or drapery to hide those bare walls and supplant that year-old wreath of evergreens? Having done which, perhaps they would afford us a little more light to see them by.

Every one who frequents the Temple, agrees with me; though I don't see as they mean to do more than grumble in private. It is folly to say that the owners can't afford the outlay; the Temple, engaged as constantly and at the prices it is, must be a money-making concern; and I protest, in the name of the whole City of Portsmouth, against the imposition of being obliged to look at such things as I have enumerated.

Now, Messrs. Editors, don't leave this out or soften it away, for fear of hurting somebody's feelings. I hope somebody's feelings *will* be hurt, if it will make them do what ought to be done.

A LECTURE-GOER.

Communication.

Dear Chronicle:—Will you not devise some means by which a *freezing* machine may accompany your correspondent's flooding machine at the South Mill pond, on Thursday next, for the benefit of the skaters?

ANDIE.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton, next Sunday.

—— Rev. Henry E. Parker, of Concord, has resigned his place on Pastor of the South Congregational Church in that city.

—— The Rochester Courier learns that there is considerable religious interest at Wakefield Corner, where Rev. D. D. Tappan is preaching, and also a similar awakening in New Durham.

—— A stocking mill at Franklin, owned by David Gilchrist, Josephus Burston and Edwin Judkins, was burned Sunday night. Insured for $6000, which will probably cover the loss.

—— The hotel, stable and other outbuildings at Lake Village, owned by Charles P. Stevens, were destroyed by fire Saturday night. Loss not ascertained. Insured for $4000.

—— A Concord letter says that there was on Friday an attachment of the property of Robert N. Corning, Esq., postmaster, to the amount of $75,000, for alleged complicity in frauds and larcenies as conductor on the Concord railroad, extending back for a series of years.

—— There is a blind lawyer in Strafford, who, in addition to doing a comfortable law business, carries on a farm, a claim agency, and two stores, in which goods are sold annually to the amount of about $25,000. He buys the goods, collects the accounts, pays the bills, and, with the assistance of his wife, posts the books of both stores and superintends the business generally; having plenty of time for reading and social enjoyments. He thinks also of starting another store in a neighboring town.

— Albert L. Starkweather, who was lately found guilty of murder in Connecticut, informs his counsel that he does not want them to make any motion for a new trial, and no motion will be made. He will be sentenced next week.

— The report that Rev. Horace James, agent of the Freedmen's Bureau in North Carolina, was recently maltreated in Washington, Beaufort county, is contradicted by Mr. James himself, who says, "no person, either in Beaufort county or in Pitt county, where I reside, has ever uttered in my hearing a discourteous word, or committed an ungentlemanly act."

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This disappearable invention, now being first introduced, will be believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump exceeds anything known. It throws one third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

☞ We are permitted to refer to Mr. MOSES ROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (inclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Special Notice.

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease, it may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGOIEL'S BILIOUS, DYSPEPTIC and DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGOIEL'S SALVE is infallible. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

Local.

☞ Look out for the Festival at the Temple, on the 22d and 23d. One rarely sees so many attractions combined in one entertainment—and *best* of all, there is to be no "holding people by the button," urging them to buy a ticket in this or that; as there is to be nothing sold by tickets or lotteries of any kind.

The Antiquarian Supper alone will be worth the price of admission,—and all who wish to partake of an old-fashioned supper have only to call on Uncle Jake, Ezekiel or Peter, to be escorted to their spouses, who (dressed in the costume of "ye olden time,") will supply them with a liberal hand,—while the Gallery of Art will be suggestive of many *new ideas* to the lovers of progress in the fine arts.

A true daughter of the Emerald Isle, a moonstruck cook, and other laughable characters will appear in the Comic Drama. The charades will be both amusing and attractive. The Portsmouth Cornet Band will be in attendance.

☞ Men begin to look upon an Insurance policy as one of the necessary objects to be secured during the period of health and strength. Insurance enters into the calculations—now-a-days—of every prudent and considerate man, who has a wife and children dependent upon the life of the husband and father. In all its varied forms, the system of insurance deserves the serious attention of every man, especially in a a country like ours where ups and downs in business life are so numerous and unlooked for. It may be called, with truth, a family industrial savings institute, protecting against want, the relatives of those who may die prematurely, before they have, by other means, realized enough to make comfortable the dear ones left behind. We recommend our readers to examine with care, the advertisement of J. P. Bartlett, Esq., who is agent for one of the most liberal and reliable companies in the country. Mr. B has insured many in this city, who profess entire satisfaction with his terms and system of insurance.

A COUNTERFEIT.—A ten-dollar bill was exhibited at the Mechanics & Traders Bank, which was pronounced a counterfeit. Information was at once furnished the Marshal, who traced the bill through several hands, and at last ascertained that it came here from Boston in a package of $350 from a Prize Agent. It has been returned to him. The bill is a dangerous counterfeit on the Fall River Bank of Massachusetts, and no doubt came here honestly.

☞ The Portland Star says of the walking match in that city, that "at the completion of the 148th mile, Seaver, who was badly distressed, was withdrawn. Lambert finished the 150th mile in the one hundred hours, complying with the conditions of the match. The morning papers, without reporting the match heretofore, this morning express belief or surmise that it was a humbug."

"From Seaver's withdrawal without killing himself, it was at once argued that it was a humbug. It was said that he might have accomplished the 100 hours. We asked him about this, why he did not keep up to it. His answer was, that he could not hold on but a short time longer at best, and though he were to accomplish the 100 hours, Lambert could still beat him, very evidently able to walk several hours longer. It was, therefore, entirely foolish for him to continue further, and he gave in to save himself further distress."

POLICE COURT, Feb. 20.—The case of Edward H. Parks, continued from Monday, resulted in that worthy being fined $5 and costs, $6.74, for brutality to his wife.

☞ While before the Reconstruction Committee on Saturday, in response to an inquiry as to whether a jury could be empanelled in Virginia for an impartial trial of Jeff. Davis, General Lee said he thought not, as scarcely a man summoned as juror could bring in a verdict of guilty of treason without feeling that he, as a party to the same crime, could be held equally liable. This does not accord with the statements of members of the Virginia delegation made before the same committee last week.

☞ One more and the last chance to hear the Continental Vocalists, at the Temple to-night. Also matinee this afternoon—and all the children ought to go. The show is great, and the music fine—the whole entertainment pleasing and amusing, for old and young who have any fun or music in them; and everything is conducted in the most unexceptionable manner. Don't fail to hear the Continentals, and see the big little folks.

— Mrs. Mary Ann Barket, one of the oldest women in the United States, died at Wheeling, West Virginia, on Saturday last. Her age was one hundred and ten years. She saw Gen. Washington and Aaron Burr when they made their first visit to the Western country.

— A convention of the Orangemen of Canada having been projected to be held in Ottawa during the present month, Mr. Killian, of the Fenian Brotherhood, has addressed a communication to one of the magistrates of that town, urging the impropriety of such a gathering at the present time, and representing it as calculated to do much harm in reviving old hatreds between Catholic and Protestant Irishmen, and leading to additional strife.

— The clerks in the New York Post Office have petitioned for an increase of salaries; at present they receive on an average $900, and for this they give twelve hours of daily labor, and are employed two Sundays out of four. The application has received the sanction of the Postmaster.

— The sales of four leading firms in Salt Lake City ("Gentiles") last year were one million and a half each. One concern sold $600,000 in boots and shoes.

SMITH'S CATARRH SNUFF is the best thing I know of for cold in the head or influenza. It is not irritating, it does not snap your head off with a big sneeze and then leave you worse than before, but one or two pinches will relieve the disagreeable feeling of fullness; and about half a dozen pinches cured the most severe cold I ever had. J. H. THACHER, Druggist.

Portsmouth, Feb. 16, 1866. F17

SMITH'S CATARRH SNUFF breaks up a cold in the head in a few minutes, thoroughly. If this is saying too much, ask Mr. J. S. HARVEY, Broker, of this city: he says it is so every time, and he would not be without it, even if it should cost five dollars a box. Try it. F17

SMITH'S CURATIVE COMPOUND will break up chills and fevers, by drinking it in warm water, in a few minutes. It will cure sore throat and croup in a few minutes, and thus prevent a fit of sickness. B. F. CHANDLER, Civil Engineer at the Portsmouth Navy Yard, had a Wen, so called by two surgeons, on his wrist, growing rapidly. It was entirely cured by smith's Curative. Just ask Mr. Chandler if this is true. F17

BE CAREFUL.—Do not expose yourselves to the chilly March winds and the shaking weather which always heralds their approach. Keep your chilblains warmly clad and close from exposure. For bad Coughs, sudden or obstinate Coughs, Croup, and Sore Throat, use Coe's Cough Balsam.

If you have the Dyspepsia, or are troubled with food distressing you, rising and souring on your stomach, your bowels are out of order, you are bilious, constipated, and generally indisposed, use Coe's Dyspepsia Cure. It is the best medicine for stomach and bowel disorders in the world. fe19—lwdaw

☞ About the first of this month, in the great city of New Orleans, not a plough, ox chain or trace, was to be obtained for love or money, upon which the Picayune remarks:

The planters have gone to work with new zeal and energy to break ground, but find themselves greatly hampered and impeded by the want of moles, ploughs and agricultural utensils. The process of beating swords into ploughshares, of directing the immense amount of vim needed for war into instruments of peaceful industry, has not gone on with a rapidity corresponding with our progress in many other arts of peace.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the World) of obtaining the latest, as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the System, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are invited that by consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Sent free to all inquirers. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all inquirers, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a partner—a complete work on Midwifery. It contains hundreds of secrets, never before published—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of these diseases upon which his books treat

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen: I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved and cured of the

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent-Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON, MASS.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on reasonable terms and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them anywhere else. The following facts prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that his clients pay less and give the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his complete library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part I feel bound to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in consequence of his large practice, made on average rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

DR. KNIGHTS' HAIR DRESSING
A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headaches, and all those distressing affections indicated by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, unfailing to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is highly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

CHEROKEE PILLS,
Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Hysteria, Fits, Pain in the Side, Headache, Giddiness,* and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases *except when so forbidden by the advertisement,* and are easy to administer, as they are nicely *sugar coated.* They should be in the hands of every Married Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are peculiar.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases* where other medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation with vigor, promoting Impotency and this Elixir vivifies Debility, renovating Memory, as the system and and full vigor,* thus proving a *overcome disease.* perfect "*Elixir of Love,*" removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled druggists, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Do not deceive—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

The Chronicle.

THE LIQUOR QUESTION IN NEW HAMPSHIRE.—A letter from Dover, in the Concord Monitor, says that the Attorney General of the State filed with the Court now sitting in Dover a bill setting forth that there was an organization to delay and defeat the course of justice in the Courts of New Hampshire for violation of the law to suppress intemperance, and praying for an injunction to restrain the attempt. Judge Doe granted the injunction, which was served on the liquor dealers who had cases in court and their counsel; also upon the Marshal of the United States and his Deputies, and upon the Clerk of the United States Court, enjoining and commanding them not to make or present any petition, affidavit or certificate to the Circuit or District Court of the United States, or the Clerk thereof, for the removal from the Supreme Judicial Court of the State of New Hampshire to the Circuit or District Court of the United States, of any indictment, suit or prosecution now pending, or hereafter to be pending in the Supreme Judicial Court of the county of Strafford, against any person, for selling or keeping for sale intoxicating liquor, or being common sellers thereof, in alleged violation of the laws of New Hampshire; and not to receive or file any such petition, affidavit or certificate, and not to issue to any Court of the State of New Hampshire any writ of *certiorari*, or any writ of *habeas corpus, cum causa*, or other writ, order, or process for the removal of any suits, indictments, or prosecutions from the Supreme Judicial Court, or to the Circuit or District Court, &c.

This proceeding is understood to be based upon a decision of Judge Parker, that the Supreme Court of New Hampshire is bound to obey or respect no order from any court inferior to the Supreme Court of the United States, and that the Circuit and District Court are not superior to the Supreme Court of New Hampshire, and have no more power to command the State Court than the State Court have to command the District and Circuit Court of the United States.

— An Irish schoolmaster is teaching the Mexicans *English* at twenty five cents per lesson. His pupils progress rapidly, and now approach every American with "An' faith, how are ye?" "The top of the mornin' to ye," &c., &c. There is some suspicion that the "master" is a Fenian.

— Recently, the children of the town of Blue Island, Illinois, wanted a sleigh ride, but there was no vehicle big enough to hold them all. An enterprising merchant of the village surmounted the difficulty in an original manner. To his own sleigh, drawn by two splendid horses, he attached a rope two hundred feet long. The boys and girls were all provided with handsleds which they fastened to this towline, and thus rode along in fine style and great glee, eighty-four in number, in grand procession. Of course the route taken turned no sharp corners.

TO THE LADIES.
Mrs GUILD offers to the public her superior Crystal Palace Chart for CUTTING DRESSES, which is conceded by competent judges to surpass any invention of the kind ever offered to the American public. She feels fully warranted in saying that it is as perfect a fit as human ingenuity can render it, and should be in the possession of every lady. It is simple, easy, and grace ful, adapted to all every form and size, from little girls of seven years to the largest adults. Directions printed in full on every Chart. None genuine unless the Crystal Palace is engraved on it, and the address of the inventress printed. Copy right secured, and no infringement allowed.
Agents are wanted in every part of the country. Chart will be sent to any person on receipt of $2 addressed to
Miss LUCY GUILD, Rupert, Vt.
Ladies wishing a tape measure must inclose 15 cents extra.
Mrs Guild warns people from buying, selling or using a chart called the National Chart by Miss Jane Eddy, Nashua, N. H., as it is an infringement of her copyright. Any person printing, selling or using the counterfeit chart will be prosecuted according to law. One Albert J Warden has been extensively engaged in selling the counterfeit chart, and is supposed to be the perpetrator of the forgery. Any information leading to his arrest will be liberally rewarded.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, healthfulness and other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of farm land, twenty acre lots and upward, $30 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other place north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Mechanics, Merchants, and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country finely improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is well worth their attention.
Letters answered, and the Vineland Rural, a paper giving full information, and containing reports of colonists, sent on application.
Address CHAS K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of colonist Wm. Robinson, Agriculture-Editor of The Tribune: *It is one of the most eminent fertile tracts, in an almost level position and suitable condition for pleasant farming that I know of this side of the Western Prairies.* nl—dawóm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever

AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. Those remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, FEBRUARY 22, 1866

☞ Senator Doolittle, it is said, will introduce a new Freedmen's Bureau bill, which has met the approval of the President,—and which may, perhaps, pass both Houses without a division. Senator Trumbull, on Tuesday, in a very courteous and thorough speech, demolished the President's argument against the Freedmen's bureau bill;—but he could not demolish the Veto so easily. The *President's will* was strong, but his *argument* is weak. It was his prerogative to veto the bill, if he saw fit; and it was his *duty* to do so, if he could not in conscience either approve it or suffer it to pass by in silence: but he need not have gone out of his way to stultify himself and please the unconverted rebels and their allies. U. T.

HOUSE RESOLUTIONS.—In the National House of Representatives, on Monday, Mr. Longyear of Michigan submitted a series of resolutions, which were divided and voted upon separately. The first resolution was as follows:

Resolved, That in the language of the proclamation of the President of May 29, 1865, the rebellion "which was waged by a portion of the people of the United States against the properly constituted authorities of the government thereof, in the most violent and revolting form, but whose armed and organized forces have now been almost entirely overcome, has in the revolutionary progress deprived the people of the States in which it was organized of all civil government."

This was agreed to by yeas 102, nays 36.

The next resolution was read as follows:

Resolved, That whenever the people of any State are thus deprived of all civil government, it becomes the duty of Congress, by appropriate legislation, to enable them to organize a State government, and, in the language of the Constitution, to guarantee to each State a republican form of government.

This was agreed to by yeas 104, nays 33.

The third resolution was then voted on, namely:

Resolved, That it is the deliberate sense of this House that the condition of the rebel States fully justifies the President in maintaining the suspension of the writ of habeas corpus in those States.

This was agreed to by yeas 117, nays 29.

The fourth and last resolution was read, as follows:

Resolved, That it is the deliberate sense of this House that the condition of the rebel States fully justifies the President in maintaining military possession and control therein, and that the President is entitled to the thanks of the nation for employing the war power for the protection of the Union citizens and the freedmen in those States.

This was adopted by yeas 134, nays 8:

Nays—Messrs. Grider, Harding of Kentucky, McCullough, Ritter, Rogers, Shanklin and Trimble.

It will be seen that the spirit of the first two of these resolutions, though they are the President's own words, is at war with what is now popularly indorsed by the opposition as the President's policy.

The surprising vote on the last two resolutions was due to a sudden change of front on the part of the opposition side of the House. It had become noised abroad that the President had sent to the Senate a message vetoing the Freedmen's Bureau Bill and practically abandoning the party which elected him to office, and therefore the opposition leaders at once saw the necessity for sanctioning his whole policy, and hence the larger vote in favor of these two resolves.

— Rev. Alexander Campbell, the leader of "Campbellism," died in Kentucky lately.

— There is a bill now before the New York Legislature prohibiting railway companies in that State from granting free passes on their roads.

— The only two American works ever translated by order of the French Government, were Commander Maury's work on Navigation, and Mr. Jamison's Bertrand DuGuescin—both works of Southern men.

— A man has been arrested in Paris for manufacturing snuff out of mahogany, Campeachy wood, copperas, pepper and essence of bergamotte; it enjoyed great favor, and as all his customers declared it better than the snuff sold in the Government shops he sold it ten sous a pound higher than the latter.

— The Egyptian Government has published an announcement that Prince Ismail Bey has been mad an "infant," and that none of his debts contracted without the written consent of his guardian, will be paid; this infant is about 40 years old; 'twas he who last summer lost $20,000 a day at cards, at the Imperial Club, Paris.

☞ At Concord, the attorney for the Concord Railroad, in the case of the deposed conductors, states that while the return of fares received in the cars on the Portsmouth road, a comparatively "one horse" line, were ten and fifteen dollars per trip, the returns on the Manchester and Lawrence average but forty-six cents per trip—not enough to pay a child's fare between the two places!

Correspondence of the Chronicle.

BOSTON, Feb. 19th.

Mr. Editor:—A few observations made during our past few days at the "Hub," may not be uninteresting. The general business inactivity throughout the city is in striking contrast to the flourishing condition of the public resorts for amusement. *L'Africaine* and *Crispino e la Comare* no longer delight the *elite* and would be fashionables; but opera cloaks, opera hoods and elegant toilettes are thrown aside for articles of every-day wear, and the crowd directs its course to visit entertainments of less pretension. To call these entertainments "dramatic and musical," would be hardly correct, since pantomimic and acrobatic performances seem to have quite usurped the place of legitimate drama; and now everybody goes to enjoy the exquisite humor of the pantomime, and to witness the brilliant feats of the Hanlons, the Ravels, or Snow Brothers.

At the Boston Theatre are the Ravels, still popular and pleasing, who have presented some fair pantomimes and ballets; but, in our humble opinion, the company, once so famous, has seen its best days, and fails far short of its former excellence,—though Gabriel's personations are really irresistible, and Young America is as startling as ever on the flying trapeze.

The Hanlon Brothers constitute the attraction at the Continental, and their wonderful acrobatic exercises and Æropateticism, together with the dancing of the Fowlers, more than compensate for the weakness and inefficiency of the dramatic company. The Enchanted Fountain, resplendent in gorgeous colors and magic changes, is a prominent feature of the entertainment here.

But for wonderfully beautiful scenic effect, the Sons of the Cape at the Museum is unrivalled. This is now the third week of its representation, and the rush is greater than ever. Crowds of people come up nightly from Cape Cod, the assumed scene of the drama, to witness its performance, and seats are with difficulty secured a week in advance. The great storm scene is grand, terrific—almost as wild as nature itself.

Of course we had to visit the Theatre Comique; and found, as usual, a tremendous rush. Filled to overflowing nightly, it still comes in for a large share of public favor. Your correspondent "Boggins" seems to have had a poor opinion of the performances here, but, with all deference to his superior judgment, we think he was much too severe in his censures, and even have serious doubts about his seeing the performance at all. Ballet dancing is certainly not in disrepute, even among the staid and sober minded *habitues* of the Museum; and surely the corps at the Theatre Comique in no way merit the indelicate misrepresentations of brother B. He complains of short dresses and extreme *decollete*, but we are very sure, from careful observation, that the danseuses were not at all inclined to display an undue portion of the charms nature dispenses to the female sex; on the contrary, they were as chary in this particular as is possible for *artistes* of their profession. In regard to the audience, too, we are well satisfied that it was, in fact, highly respectable. Some of our steady-going Portsmouth friends, whom we met there in company with *their* Boston friends and relatives—all of excellent families—would never have visited a place of such repute as the Comique was represented to be in your correspondent's account; and as for the pantomime, it was excellent, both in scenery and performance, comparing very favorably with any that the Ravels have yet given us. To see the mirth-provoking Maffit in his wonderful and ludicrous contortions, was alone worth the admission fee.

Active preparations for the Grand Ball at the Boston Theatre, are already commenced, and we may expect, when all is ready, a magnificent affair. Military and civil celebrities from all parts of the country promise to be present. The display of martial emblems, the superb decorations of the Theatre, and the great orchestra under Gilmore's direction, are to be on a scale never before attempted in Boston; while the commendable object to which the proceeds are to be applied, makes the festival one of universal interest, and worthy the patriotic exertions of those who have the affair in hand.

Manufacturers and merchants hereabouts are patiently waiting in anticipation of the Spring revival of trade, and no one seems alarmed at the quiet aspect which business affairs have assumed. The general abundance of currency is tending to keep back the heavily accumulated stocks of Western produce, which should now be going into the channels of trade; and, by the ease of money, the prices are held above the means of the majority of consumers. A material change in the markets is predicted, but seems slow to discover itself.

Very Truly, E.

THE COMMODORE'S ADDRESS.

To be memorized and recited by little "COMMODORE FOOTE" at the entertainments of Ettinger & Foote's Combination Troupe.

Dear friends, we greet you all to night,
And hops to give you pure delight,
In seeing dance, and hearing song,
As sweet as floats from seraph throng!
In viewing us in each disgui e,—
The sailor, soldier—bless their eyes!
The gent, the jockey and the clown;
The boxer's art we do up brown?
The Commodore, the quaker, too;
The artist,—all to tick e you.
And while we please our audience,
If we feel proud, 'tis honest sense;
So look and laugh with all your might;
We'll find no fault with you to night,
If you don't shout us—Oh, 'twere hard
To *eye-ball*, while we're off our guard!
And now a word on how we stand,
As to the issues in the land:
We here to all in truth declare,
That if the "bullies" don't take care,
Strike hands we will,—that is, we three;
And with three cheers for liberty,
We'll leap aboard an iron clad,
The "Commodore"—so *awful* mad!
His sister—such a tyrant-hater!
The "Colonel"—like a burning crater!
We'll steam across that little lake,
And thunder till earth's kingdoms quake!
Stay every bold, beef eating foe,
Then dine at Windsor—not so slow!
Oh, make no doubt,—for we are sound,
And wish the devil underground!
So stand by us, and we will see
That not a wretch harms one of ye!

E. F. N.

☞ The "Democrats" of this city got up quite a Celebration, Tuesday evening, probably in honor of the President's (*their* President, doubtless, they will now claim,) veto. It would seem that with them, just at this time, the smallest favors are gratefully received, or the slightest inference of a favor; and really, it must be a hard heart that could wish to deny them so little a crumb of comfort, after their late experience. They fired a salute, we suppose of 35 guns—on South Road, which sounded and resounded over the city, most lustily; but so slow were they, that "minute guns" were instantly suggested to all hearers—not of *their* "persuasion." Knight's Cornet Band also were employed to lend to the glorious cause, whatever of inspiration it could derive from their music.

Somebody also tried to get up an alarm of Fire, but did not succeed. Whether or no it was an attempt to "fire the Southern hearts," in Northern or Southern breasts, who can say? At any rate, Josh Billings, you know, says he has always found the heart, next to the gizzard, the toughest bit of meat in the whole critter.

☞ A nondescript is in process of erection, betweeen the auction rooms of Betton & Co. and the Dew Drop Inn, on Congress street. The public are undecided whether it is intended for a coasting schooner or for a large hencoop. If the former, we expect it will soon be launched, as the frame is nearly up. We shouldn't like to occupy it as 'tis too narrow to carry much sale (sail).

☞ Thanks to friends in Mobile and New Orleans for files of late papers from those cities.

☞ All the children will be pleased with the March number of "Our Young Folks."

☞ Godey's Lady Book for March, has for a frontispiece, a life-like picture of boys playing marbles, and a girl and boy looking on; it abounds in fashions, receipts, and useful scraps, besides stories.

☞ From A. Williams & Co., Boston, we have Harpers' Magazine for March. The illustrated articles are, "In and about Richmond," and the "Burrowers at Home." Wilkie Collins' serial, "Armadale," is continued, and the literary contents are varied For sale by J. H. Foster.

☞ From Messrs. Dick & Fitzgerald, publishers, New York, we have two little books, in a cheap but neat form, one of which is quite useful. It is "Day's Ready Reckoner," and will save its price (50 cents) many times over to those using many figures, as well as being a great convenience for those who use them but occasionally. The other is "Martin's Sensible Letter Writer," and though we think but little of writing letters by rote, we had considerable amusement in looking over the book.

— A cooking range exploded on Sunday at the St. Louis Workhouse, blowing the kitchen, which was a substantial stone building, to pieces. George Thompson, head cook, was fatally, and his two assistants severely injured.

— The wife of J. A. Gaylord, a banker was buried to death on Tuesday by her clothes taking fire as she walked by the parlor grate. She was but twenty years old, had been married two years, and had an infant a few weeks old.

— The "British Almanac and Companion," which claims to be a standard compendium of statistics and facts, and is published in London under the authority of the "Society for the Diffusion of Useful Knowledge in London," says that General Sherman "marched without obstruction from Alabama in Georgia to Savannah in North Carolina," and that the assassination conspirators were tried and hanged in New York.

IN THE U. S. SENATE, Tuesday, the Veto was considered:

Trumbull, of Illinois, made a lengthy speech against the veto message, though it was very courteous towards the President, and was a purely constitutional argument. Several portions of it were applauded.

The question was "Shall the bill pass, the President's objections notwithstanding." The yeas and nays were as follows:

Yeas—Messrs. Anthony, Brown, Chandler, Clark, Conness, Cragin, Creswell, Fessenden, Foster, Grimes, Harris, Henderson, Howard, Howe, Kirkwood, Lane of Indiana, Lane of Kansas, Morrill, Nye, Poland, Pomeroy, Ramsay, Sherman, Sprague, Sumner, Trumbull, Wade, Williams, Wilson, Yates—30.

Nays—Messrs. Buckalew, Cowan, Davis, Dixon, Doolittle, Guthrie, Hendricks, Johnson, McDougal, Morgan, Nesmith, Norton, Riddle, Saulsbury, Stewart, Stockton, Van Winkle and Willey—18.

Absent—Messrs. Foote and Wright.

IN THE HOUSE,—Mr. Stevens, after introducing a resolution from the Reconstruction Committee, declaring that no rebel State should be represented without the consent of Congress, said that there was an earnest disposition until yesterday to inquire into the condition of Tennessee and see whether they could admit the State to representation; but since yesterday there has been such a state of things as has induced the committee to consider it wholly out of their power to proceed further without surrendering a great principle, and without surrendering the rights of this body to the usurpation of another power.

"Mr. Stevens then demanded the previous question, on which an excited debate ensued, Mr. Eldredge, a Democrat from Wisconsin, leading the fillibusters, who prevented action by all sorts of motions, on which they demanded the ayes and noes. After this game had been played hour after hour, Mr. Eldridge said he and his friends would stop these dilatory motions if Mr. Stevens would withdraw the demand for the previous question, so that the resolution might be debated.

Mr. Stevens said he sat there forty-eight hours in 1861 when the rebels went out, and he could now stand it thirty-six hours longer.

Finally about 8 o'clock, the Democrats announced themselves as exhausted, and a vote was had on the resolution, which passed by 110 yeas to 40 nays, Messrs. Raymond, Hale, Newell and two or three other Union men voting with the Democrats. New England voted squarely "aye," but Messrs. Alley, Ames, A. H. Rice and Dixon were absent.

— Why was the giant Goliah very much astonished when David hit him with the stone? Such a thing had never entered his head before.

— Glory enough for one day, said the preacher's wife, after having done her first washing with a piece of the J. Monroe Taylor Gold Medal Soap. It is labor-saving as well as temper-saving, and such nice white clothes I never saw before, for such soap never was produced, and I hope the whole parish will use it, for I am sure it will do a great deal to purifying their minds and temper for the Sabbath day. Go, one and all, and try it. 50

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckle, are often very annoying, particularly to ladies of light complexion, for the discoloration spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Local.

WASHINGTON'S BIRTH DAY, Thursday, Feb. 22, is a legal holiday. The bells in this city will be rung one hour at noon, in honor of the occasion. Schools will be suspended; and labor generally. This evening, the Levee and Fair at the Temple, will be the great attraction. No work at the Navy Yard to day.

☞ To-day being observed as one of our few holidays, there will be no Chronicle issued on Friday.

IMPORTANT ARREST.—Quite an excitement was created in the city early yesterday (Wednesday) morning, from the fact that John Grant, a well-known citizen, who keeps a meat stall in the Brick Market, was missing. The Police were notified, and search at once instituted, when it was ascertained that Mr. Grant had taken part in the Democratic celebration the night previous, and had passed the night with a friend of his, Charles W. Gerrish, Esq., but had then gone home sick. It was further ascertained that Mr. Grant had been robbed the night previous of the sum of $213, and the facts were at once confided to City Marshal Kent, who summoned his assistants, and in confidence they made up their minds that a man by the name of Wm. H. Gray, a painter, must be party who had the money. The Marshal issued a warrant for his arrest, and the officers started in pursuit. He was found by officer Pickering, and when confronted by the Marshal at the station-house, admitted that he found a roll of bills, but did not know to whom it belonged, and supposed that it might be advertised in the Chronicle. The roll of bills contained $191, and of the same bills which Mr. Grant had taken from his pocket. Mr. Gray says he picked up the money on the parlor floor of Mr. Gerrish, and that the latter gentleman was in the room at the time. Mr. Gray has a wife and nine children, and has heretofore borne a good reputation, and may in this case prove himself guiltless.

Mr. Gray is out, under $500 bail, and the trial will take place on Friday morning at 10 o'clock.

POLICE COURT, Feb. 21.—Thos. Palmer for knocking down a marine on State street, was assessed $14.65, and for brawl and tumult received a further assessment of $5.78. Failing to produce the requisite scrip he was sent to enjoy the hospitality of Friend Joy.

Thos. P. Conley, alias James Brown, alias Thos. Smith, a New York rough who has been disporting himself in this rural community for a few days, was arrested for knocking down a marine and mulcted in the sum of $17.64, which left him a capital of six cents with which to begin the world anew. He promised to leave town, evidently considering his metropolitan sharpness "played out" here.

The marine corps seems to be getting badly used around here, as the principals or sufferers in most of our police cases for a week past, have reported as belonging to that amphibious organization.

☞ The Festival at the Temple this evening promises to be very largely attended. It is some years since the ladies of the Universalist Society prepared for a similar occasion; but not so long as to be forgotten, and it is well remembered that they knew how to render such entertainments specially interesting. We are determined our citizens shall not say of the Festival, as they did of the recent Sunday School Exhibition by the same Society, "we did not know about it," and so we tell you in the editorial column, well aware that everybody does not have the time in the morning to read our paper through—advertisements and all.

☞ The third Course of Lectures, &c., under charge of the "Citizens' Lyceum Association," was successful enough pecuniarily to pay all bills, and leave a small balance of $20 or more, which the Committee have voted to donate to the funds of the Freedmen's Aid Society in this city. We think the Committee have made very good use of all the receipts, including this little overplus.

☞ The Continental Vocalist have just closed a series of very agreeable and successful entertainments in this city. They are fine singers and players; in their manners and appearance they are gentlemen; and their little companions, Com. Foote, Col. Small, and the Fairy Queen, are interesting and amusing specimens of miniature men and women.

— Assassinations begin to grow alarmingly common at Paris.

— Camp Coburn, at Augusta, is to be turned into a trotting park, the grounds having been leased for that purpose.

— Two men in Provincetown caught, in their boat, one day last week, codfish, which they sold on landing for sixty dollars.

— A B. Wilson, inventor of the sewing machine which made him a millionaire, left North Adams some fifteen years ago, forlorn and shabby, with his pack and his dinner on his back, and with scarcely a dime in his pocket.

— In the game of life, men frequently play the knave, and women the deuce.

— M'll Taglioni has composed a new dance which is justly called Taglioni's Quadrille.

— M'lle Camille Urso, "the celebrated American violinist," has reached Paris and will give a series of concerts this winter.

—— The Quaker Meeting house, nearly a half a century old, at Wolfeborough, has been sold, to be converted into a dwelling house.

— A burglar who had been convicted in a New York court, the other day, walked out unconcernedly with the jury that convicted him and hasn't been seen since.

— Leuckard says he saw no less than 15,000,000 of trichina in three pounds of raw pork—5,000,000 to every pound. This terrible parasite is not larger at its fullest maturity than the bits of beard found in lather after one shaves his face.

— The London Globe of the latest date says: "The death is announced of Mr. Gibson, the sculptor, at Rome. There was a premature report of his death some days ago, but there seems no doubt about the present announcement."

— John Cross, an English laborer, who is the father of nineteen children and the step-father of five more, recently received a purse of $1500, besides a prize from an agricultural society, for having raised so many children without parochial relief,' which feat he performed on eight shillings a week.

— Probably the largest spring in the world is the one in the centre of Huntsville, Ala., from which a stream of water flows sufficient to float a thirty-ton batteau. It is an object of great interest to the people of the neighborhood and visitors. Another spring in Florence, in that State, throws out a body of water estimated at seventeen thousand cubic feet per minute.

SMITH'S CATARRH SNUFF is the best thing I know of for cold in the head or influenza. It is not irritating, it does not snap your head off with a big sneeze and then leave you worse than before, but one or two pinches will relieve the disagreeable feeling of fullness; and about half a dozen pinches cured the most severe cold I ever had. J. H. THACHER, Druggist.

Portsmouth, Feb. 16, 1866. F17

SMITH'S CATARRH SNUFF breaks up a cold in the head in a few minutes, thoroughly. If this is saying too much, ask Mr. J. S. HARVEY, Broker, of this city: he says it is so every time, and he would not be without it, even if it should cost five dollars a box. Try it. F17

SMITH'S CURATIVE COMPOUND will break up chills and fevers, by drinking it in warm water, in a few minutes. It will cure sore throat and croup in a few minutes, and thus prevent a fit of sickness. B. F. CHANDLER, Civil Engineer at the Portsmouth Navy Yard, had a child so called by two surgeons, on his wrist, growing rapidly. It was entirely cured by Smith's Curative. Just ask Mr. Chandler if this is true. F17

BE CAREFUL.—Do not expose yourselves to the chilly March winds and the shaking weather which always heralds their approach. Keep your chilblains warmly clad and close from exposure. For bad Coughs, sudden or obstinate Colds, Croup, and sore Throat, use Coe's Cough Balsam.

If you have the Dyspepsia, or are troubled with food distressing you, rising and souring on your stomach, your bowels are out of order, you are bilious, constipated, and generally indisposed, use Coe's Dyspepsia Cure. It is the best medicine for stomach and bowel disorders in the world. feb19—1wdaw

Holloway's Pills and Ointment.—Falling of the Womb.—During the early stages of gestation, many young married females are subject to a sinking of the womb, which causes them considerable trepidation and uneasiness. The Ointment will be found invaluable in these emergencies, as it entirely dispenses with the necessity for pessaries or mechanical aperatives. The Pills will brace the enfeebled organs, strengthen the system and secure the invalid from a future relapse. These medicines are valuable in all complaints incidental to the female sex. Sold by all Druggists. 1wdaw—feb16

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I feel desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabalis, of Venezuela, who immediately treated her with your EFFERESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to publish this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my sincerest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A,
New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1861.
78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers for the Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

HON. JOSEPH HOLT,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

HON. THOMAS EWING.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

DR. KNIGHT'S HAIR DRESSING

A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the human hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, inclined to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

HABEAS CORPUS IN KENTUCKY.—In reply to a request made by the Louisville Journal that Gen. Palmer should urge the restoration of the habeas corpus in that State, the General declines, for the reasons that returned rebels, of whom there are 20,000 in the State, are openly regarded and treated as patriots, whereas loyal citizens and soldiers are objects of prejudice, dislike and often of prosecution; because Courts in many instances are permitted to become the instruments of the vengeance of those who are hostile to loyal men; because laws are in force tending to embarrass the citizens formerly slaves, but now freemen, and that the Government is bound to protect them until they shall have the same privileges as other citizens bef re the law; because outrages have been committed upon negroes which have been allowed to go unpunished; in fact no single instance has existed in which punishment has reached the aggressors; because negroes have been murdered and their murderers have escaped because of the legal incompetency of negroes to testify against them; and finally, because there are illegal combinations of men in the State got up to drive colored men out of it to prevent them finding employment, and such persons are allowed to act with impunity. Citizens generally, says Gen. Palmer, condemn these acts, but none demand the punishment of the actors, for the reason that they are afraid to do so because of the threatening of the "regulators," as they are called. Under such circumstances the restoration of the habeas corpus cannot be reasonably or appropriately recommended.

— A few days ago a gentleman was asked while on a railroad train, by an apparent stranger, what time it was. On feeling for his watch, the person so accosted said that he had left it at home under his pillow. Same night when he arrived home he found that a man had called for the watch, stating where it would be found, and that he had been seen sent for it in order that it should be repaired. The rogue got it, and that is likely to be the last the owner will ever hear of it.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of nineteen years, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
